ACKNOWLEDGMENTS

Many persons participated in the various activities of the 1997 Surveys of Minority- and Women-Owned Business Enterprises.

The Company Statistics Division prepared this report. **Ruth A. Runyan,** Assistant Chief for Surveys and Programs, was responsible for the overall planning, management, and coordination. Planning and implementation were under the direction of **Eddie J. Salyers,** Chief, Economic Census Branch, assisted by **Valerie C. Strang,** Section Chief. Primary staff assistance was provided by **Melody Atkinson, Ahmad Bakhshi, Lori Bowan, Trey Cole, Elaine Emanuel, Barbara Esworthy, Mary Frauenfelder, Geoffrey Hill, James Jarzabkowski, Durwin Knutson, James McFarland, Sungsoo Oh,** and **John Seabold.**

General direction for statistical methodology was provided by **Ruth Detlefsen,** Assistant Chief for Research and Methodology (until October 1998); **Carol Caldwell,** her successor; and **Mark Sands,** Chief, Statistical Research and Methods Branch. **Richard Moore** developed the sample design, imputation, estimation and variance methodology, with assistance from **Lieu Galvin, David Harville,** and **Steven Klement.**

The Economic Statistical Methods and Programming Division, **Charles P. Pautler Jr.,** Chief, assisted by **Martin S. Harahush,** Assistant Chief for Quinquennial Programs, developed and implemented computer processing systems. **Steven G. McCraith,** Chief, Quinquennial Surveys Branch, and **Gary Sweetland,** Chief, Mailout and Data Collection Branch, supervised the preparation of computer programs. **Thaddeus S. Hess, Joseph F. Keehan,** and **Daniel A. Vacca** were assigned primary programming responsibilities with assistance from **John D. Bedwell, Edward F. Carr, Jr., Diane Conley, Phuong-Dung T. Diep, Steve Jarvis, Sheila Koonce, John E. McCormick, Robert A. Penrod, Linda Raley, Mark H. Ratti, Jerry W. Richards,** and **Michele Shelby. Robert S. Jewett** and **Barbara L. Lambert** provided special computer processing.

The staff of the National Processing Center, **Judith N. Petty,** Chief, performed mailout preparation and receipt operations, clerical and analytical review activities, and data entry.

The staff of the Decennial Systems and Contract Management Office, **Alan Berlinger,** Chief, were responsible for overseeing the electronic data capture operation.

The Computer Services Division, **Debra D. Williams,** Chief, performed the computer processing.

Kim D. Ottenstein, Bernadette J. Gayle, Helen M. Curtis, and **Laurene V. Qualls** of the Administrative and Customer Services Division, **Walter C. Odom,** Chief, provided publications and printing management, graphics design and composition, and editorial review for print and electronic media. General direction and production management were provided by **Michael G. Garland,** Assistant Chief, and **Gary J. Lauffer,** Chief, Publications Services Branch.

The overall planning and review of the census operations were performed by the staff of the office of the Assistant Director for Economic and Agriculture Censuses.

This survey depended upon the cooperation of the staffs of the Internal Revenue Service and the Social Security Administration. Thanks are due to **Daniel F. Skelly,** Director, Statistics of Income Division, **Karen Cys, Nick Greenia,** and **Ken Szeflinski** of the Internal Revenue Service; **Frank Thomas** of the Social Security Administration; and **Roberta Custard, Paul Hanczaryk,** and **Edward D. Walker** of the Census Bureau, who coordinated activities with the agencies.

If you have any questions concerning the statistics in this report, call 301-457-3316.

Introduction to the Economic Census

PURPOSES AND USES OF THE ECONOMIC CENSUS

The economic census is the major source of facts about the structure and functioning of the Nation's economy. It provides essential information for government, business, industry, and the general public. Title 13 of the United States Code (Sections 131, 191, and 224) directs the Census Bureau to take the economic census every 5 years, covering years ending in 2 and 7.

The economic census furnishes an important part of the framework for such composite measures as the gross domestic product estimates, input/output measures, production and price indexes, and other statistical series that measure short-term changes in economic conditions. Specific uses of economic census data include the following:

- Policymaking agencies of the federal government use the data to monitor economic activity and assess the effectiveness of policies.
- State and local governments use the data to assess business activities and tax bases within their jurisdictions and to develop programs to attract business.
- Trade associations study trends in their own and competing industries, which allows them to keep their members informed of market changes.
- Individual businesses use the data to locate potential markets and to analyze their own production and sales performance relative to industry or area averages.

GEOGRAPHIC AREA CODING

Accurate and complete information on the physical location of each establishment is required to tabulate the census data for the states, metropolitan areas (MAs), counties, parishes, and corporate municipalities including cities, towns, villages, and boroughs. Respondents were required to report their physical location (street address, municipality, county, and state) if it differed from their mailing address. For establishments not surveyed by mail (and those single-establishment companies that did not provide acceptable information on physical location), location information from Internal Revenue Service tax forms is used as a basis for coding.

BASIS OF REPORTING

The economic census is conducted on an establishment basis. A company operating at more than one location is required to file a separate report for each store, factory, shop, or other location. Each establishment is assigned a separate industry classification based on its primary activity and not that of its parent company.

DOLLAR VALUES

All dollar values presented are expressed in current dollars; i.e., 1997 data are expressed in 1997 dollars, and 1992 data, in 1992 dollars. Consequently, when making comparisons with prior years, users of the data should consider the changes in prices that have occurred.

All dollar values are shown in thousands of dollars.

AVAILABILITY OF ADDITIONAL DATA

Reports in Print and Electronic Media

All results of the 1997 Economic Census are available on the Census Bureau Internet site (www.census.gov) and on compact discs (CD-ROM) for sale by the Census Bureau. Unlike previous censuses, only selected highlights are published in printed reports. For more information, including a description of electronic and printed reports being issued, see the Internet site, or write to U.S. Census Bureau, Washington, DC 20233-8300, or call Customer Services at 301-457-4100.

HISTORICAL INFORMATION

The economic census has been taken as an integrated program at 5-year intervals since 1967 and before that for 1954, 1958, and 1963. Prior to that time, individual components of the economic census were taken separately at varying intervals.

The economic census traces its beginnings to the 1810 Decennial Census, when questions on manufacturing were included with those for population. Coverage of economic activities was expanded for the 1840 Decennial Census and subsequent censuses to include mining and some commercial activities. The 1905 Manufactures Census was the first time a census was taken apart from the regular decennial population census. Censuses covering retail and wholesale trade and construction industries were added in 1930, as were some covering service trades in 1933. Censuses of construction, manufacturing, and the other business service censuses were suspended during World War II.

The 1954 Economic Census was the first census to be fully integrated: providing comparable census data across economic sectors, using consistent time periods,

U.S. Census Bureau, 1997 Economic Census

concepts, definitions, classifications, and reporting units. It was the first census to be taken by mail, using lists of firms provided by the administrative records of other federal agencies. Since 1963, administrative records also have been used to provide basic statistics for very small firms, reducing or eliminating the need to send them census questionnaires.

The range of industries covered in the economic censuses expanded between 1967 and 1992. The census of construction industries began on a regular basis in 1967, and the scope of service industries, introduced in 1933, was broadened in 1967, 1977, and 1987. While a few transportation industries were covered as early as 1963, it was not until 1992 that the census broadened to include all of transportation, communications, and utilities. Also new for 1992 was coverage of financial, insurance, and real estate industries. With these additions, the economic census and the separate census of governments and census of agriculture collectively covered roughly 98 percent of all economic activity.

Printed statistical reports from the 1992 and earlier censuses provide historical figures for the study of long-term time series and are available in some large libraries. All of the census reports printed since 1967 are still available for sale on microfiche from the Census Bureau. CD-ROMs issued from the 1987 and 1992 Economic Censuses contain databases including nearly all data published in print, plus additional statistics, such as ZIP Code statistics, published only on CD-ROM.

SOURCES FOR MORE INFORMATION

More information about the scope, coverage, classification system, data items, and publications for each of the economic censuses and related surveys is published in the *Guide to the 1997 Economic Census and Related Statistics* at www.census.gov/epcd/www/guide.html. More information on the methodology, procedures, and history of the censuses will be published in the *History of the 1997 Economic Census* at www.census.gov/econ/www/history.html.

ABBREVIATIONS AND SYMBOLS

The following abbreviations and symbols are used with the 1997 Economic Census data:

A	Standard error of 100 percent or more.
D	Withheld to avoid disclosing data of individual companies; data are included in higher level totals.
F	Exceeds 100 percent because data include establishments with payroll exceeding revenue.
N	Not available or not comparable.
Q	Revenue not collected at this level of detail for multiestablishment firms.
S	Withheld because estimates did not meet publication standards.
V	Represents less than 50 vehicles or .05 percent.
X	Not applicable.
Y	Disclosure withheld because of insufficient coverage of merchandise lines.
Z	Less than half the unit shown.
a	0 to 19 employees.
b	20 to 99 employees.
c	100 to 249 employees.
e	250 to 499 employees.
f	500 to 999 employees.
g	1,000 to 2,499 employees.
h	2,500 to 4,999 employees.
i	5,000 to 9,999 employees.
j	10,000 to 24,999 employees.
k	25,000 to 49,999 employees.
l	50,000 to 99,999 employees.
m	100,000 employees or more.
p	10 to 19 percent estimated.
q	20 to 29 percent estimated.
r	Revised.
s	Sampling error exceeds 40 percent.
nec	Not elsewhere classified.
nsk	Not specified by kind.
–	Represents zero (page image/print only).
pt.	part
(CC)	Consolidated city.
(IC)	Independent city.

Company Summary

GENERAL

The data in this report were compiled by combining data collected on business owners in the 1997 Economic Census Surveys of Minority- and Women-Owned Business Enterprises with data collected on the main economic census and administrative records. Included are all nonfarm businesses filing 1997 tax forms as individual proprietorships, partnerships, and any type of corporation, and with receipts of $1,000 or more. The data are not comparable to earlier surveys due to significant methodology changes that are discussed in the section below on Comparability of 1992 and 1997 Data. The published data cover number of firms, gross receipts, number of paid employees, and annual payroll. The data are presented by geographic area, industry, size of firm, and legal form of organization of firm.

CENSUS DISCLOSURE RULES

The U.S. Census Bureau is prohibited by law from publishing any statistics that disclose information reported by individual companies. Publishing the number of firms, however, is not considered confidential by the Census Bureau rules. Therefore, the number of firms may be shown, even when other data must be withheld. The information and data obtained from the Internal Revenue Service (IRS), the Social Security Administration (SSA), and other sources are also treated as confidential and can be seen only by Census Bureau employees sworn to protect it from disclosure.

SURVEY METHODOLOGY

All firms operating during 1997, except those classified as agricultural, are represented in these surveys. The lists of all firms (or universe) are compiled from a combination of business tax returns and data collected on other economic census reports. The Census Bureau obtains electronic files from the IRS for all companies filing IRS Form 1040, Schedule C (individual proprietorship or self-employed person); 1065 (partnership); any one of the 1120 corporation tax forms; or 941 (Employer's Quarterly Federal Tax Return). The IRS provided certain identification, classification, and measurement data for businesses filing those forms.

For most firms with paid employees, the Census Bureau also collected employment, payroll, receipts, and kind of business information for each plant, store, or physical location during the 1997 Economic Census.

To design the sample, the Census Bureau used several sources of information to identify the probability that a business was minority- or women-owned. For all sole proprietorships, partnerships, and corporations that filed electronic tax forms, the SSA provided gender and race codes for the owners.

Persons applying for Social Security Numbers (SSNs), prior to 1981, could categorize their race as (a) White, (b) Black, or (c) Other. In 1981, the racial descriptions on social security applications were expanded to (a) Asian, Asian-American, or Pacific Islander, (b) Hispanic, (c) Black, (d) Northern American Indian or Alaskan Native, and (e) White.

Most persons, who currently own businesses, applied for their SSNs prior to 1981. Therefore, the majority of owners could be classified only as (a) White, (b) Black, or (c) Other by use of SSA race codes.

For each owner, the SSA also provided the Census Bureau with the individual's country of birth, current surname, original surname, mother's maiden surname, and father's surname. The Census Bureau has developed lists of American Indian, Asian, and Hispanic surnames based on research using prior survey data.

In addition to the SSA data, several other sources were used to preidentify businesses by race, ethnicity, and gender of owner(s) as potentially minority-owned:

- Lists of minority- and women-owned businesses published in syndicated magazines, located on the Internet, or disseminated by trade or special interest groups.
- Word strings in the company name indicating possible minority ownership (derived from 1992 survey responses).
- Racial distributions for various state-industry classes (derived from 1992 survey responses) and racial distributions for various ZIP Codes.

Individual proprietors, who reported they were of minority ancestry in the 1992 survey and were still active in 1997, were excluded from the mail canvass and the 1992 responses were used instead. See the section on Sampling below for a description of how cases were selected.

Sampling. There were six sampling frames used and every case was assigned to one of the following frames:

- American Indian

- Asian/Pacific Islander
- Black
- Hispanic
- Non-Hispanic white male
- Women

The SMOBE and SWOBE universe was stratified by state, industry, and the inferred race code. The Census Bureau selected large companies (based on volume of sales) "with certainty." All certainty cases were sure to be selected and represented only themselves (i.e., have a selection probability of one and a sampling weight of one). The certainty cutoffs varied by sampling stratum, and each stratum was sampled at varying rates, depending on the number of firms in a particular industry in a particular state. The sampling rate was lowest in states and industries with the greatest number of firms. A similar methodology was used to select a sample from the remaining universe: the purpose of this was to estimate the number of firms owned by persons of minority ancestry when no indication of minority ownership was found from any of the sources listed above.

A firm selected into the sample was mailed one of two questionnaires (see Appendix D for a sample of both). The Census Bureau sent the MB-1 questionnaire to partnerships and corporations, or to sole proprietorships that submitted joint tax returns where, based on the administrative records, it was probable that the husband and wife were of different races. The businesses were asked to report the percentage of stock ownership of the business by gender, race, and ethnicity. The MB-2 questionnaire was used for sole proprietors and self-employed individuals who were "single filers" or who filed joint tax returns where, based on administrative records, there was a low probability that the husband and wife were of different races. The businesses were asked to report the gender, race and ethnicity of the primary owner(s) of the business. The form included an equal male/female ownership option for the collection of business owners by gender.

Tabulation. For the 1997 SMOBE sample design, cases with extreme weights appeared in all six sampling frames. In certain cases, it was possible to incorporate a case with a large weight into a cell estimate without significantly increasing the corresponding relative standard error (RSE). For company records in a cell that cannot be incorporated without significantly increasing the RSE, the industry codes were suppressed and the case was moved to Industries Not Classified. This procedure allowed for the publication of all estimates together in the tables, rather than excluding all large weighted cases and publishing a separate summary of these estimates. Some of the publication tables exclude the Industries Not Classified category because the data do not meet publication standards.

In the 1997 SMOBE and SWOBE, minority/women ownership of a business was based on the race/ethnicity/gender of the person(s) owning majority interest in the business. Firms equally male-/female-owned were counted and tabulated as a separate category. The gender of sole proprietors and self-employed persons who were "single filers" was taken directly from administrative record data.

Businesses in which ownership was shared among minority and nonminority groups, with no single racial/ethnic group having majority interest, were tabulated as 50-percent minority-/50-percent nonminority-owned in the Company Summary publication and were excluded from the minority business counts.

It was possible for a firm to be classified in more than one minority group (one racial and one Hispanic ethnicity) and to be included in more than one minority report. For example, a firm could be included in both the Black report and the Hispanic report, if it were owned by a person who reported his/her race as Black and his/her ethnicity as Hispanic. However, such a firm is counted only once at total levels in the minority Summary and the Company Summary publications.

Data are tabulated by firm. A firm is a business organization consisting of one or more domestic locations. Firms are counted in each geographic area and industry in which they operate. The employment, payroll, and receipts reflect the sum of their locations within the specified geography and industry and are, therefore, additive to higher levels. The number of firms, however, reflects all firms in a given tabulation level and are not additive. For example, a firm with operating locations in two counties will be counted in both counties, but only once in the state total.

Businesses with publicly held stock whose ownership was indeterminate relative to gender, race, or ethnicity, and nonprofit, foreign-owned, and mutual companies were tabulated separately and published in the "other" category in our reports.

RELIABILITY OF ESTIMATES

The data in the SMOBE and SWOBE are, in part, estimated from a sample and will differ from the data that would have been obtained from a complete census. Two types of possible errors are associated with estimates based on data from sample surveys: sampling errors and nonsampling errors. The accuracy of a survey result depends not only on the sampling errors and nonsampling errors measured, but also on the nonsampling errors not explicitly measured. For particular estimates, the total error may considerably exceed the measured errors. The following is a description of the sampling and nonsampling errors associated with the 1997 SMOBE/SWOBE.

Sampling variability. The particular sample used for the SMOBE and SWOBE is one of a large number of all possible samples of the same size that could have been selected

using the same sample design. Estimates derived from the different samples would differ from each other. The relative standard error is a measure of the variability among the estimates from all possible samples. The estimated relative standard errors presented in the tables estimate the sampling variability, and thus measure the precision with which an estimate from the particular sample selected for the SMOBE and SWOBE approximates the average result of all possible samples. Relative standard errors are applicable only to those published cells in which sample cases are tabulated. A relative standard error is an expression of the standard error as a percent of the quantity being estimated.

The sample estimate and an estimate of its relative standard error can be used to estimate the standard error and then construct interval estimates with a prescribed level of confidence that the interval includes the average results of all samples. To illustrate, if all possible samples were surveyed under essentially the same condition, and estimates calculated from each sample, then:

1. Approximately 68 percent of the intervals from one standard error below the estimate to one standard error above the estimate would include the average value of all possible samples.
2. Approximately 90 percent of the intervals from 1.6 standard errors below the estimate to 1.6 standard errors above the estimate would include the average value of all possible samples.

Thus, for a particular sample, one can say with specified confidence that the average of all possible samples is included in the constructed interval.

Example of a confidence interval. Suppose the estimated number of employer minority-owned firms in Agricultural Services is 7,139 and the estimated relative standard error is 2 percent. The estimated standard error is 7,139 x .02=143. An approximate 90-percent confidence interval is 7,139 ± (1.6 x 143) or 7,139 ± 228.8 or 6,910.2 to 7,367.8.

Nonsampling errors. All surveys and censuses are subject to nonsampling errors. Nonsampling errors are attributable to many sources: inability to obtain information for all cases in the universe, adjustments to the weights of respondents to compensate for nonrespondents, imputation for missing data, data errors and biases, mistakes in recording or keying data, errors in collection or processing, and coverage problems.

Explicit measures of the effects of these nonsampling errors are not available. However, it is believed that most of the important operational and data errors were detected and corrected through an automated data edit designed to review the data for reasonableness and consistency. Quality control techniques were used to verify that operating procedures were carried out as specified.

Approximately 79 percent of the questionnaires were returned. For respondents that supplied some, but not all of the requested information and for businesses selected with certainty that failed to respond, data were imputed using a procedure that ensured that the imputed data were consistent with the responses provided and all information available from administrative sources. Weights of the responding cases, which were not selected with certainty, were adjusted to compensate for the remainder of the cases that failed to respond. All of these procedures assume that (1) the administrative information is accurate and, (2) nonrespondents possess the same characteristics as respondents with similar demographic characteristics. Neither of these assumptions is exactly true.

INDUSTRY CLASSIFICATIONS

The system published in the *Standard Industrial Classification (SIC) Manual: 1987* was used to classify firms for the SMOBE and SWOBE. Under this system, economic activities are coded on a numerical basis. Related activities are grouped at a primary level by industry division (i.e., manufacturing, construction, retail trade, etc.). Within each industry division, successive levels of detail of the economic activity are defined: major group (two-digit code); industry group (three-digit code); and industry (four-digit code). For example, one hierarchy in wholesale trade is:

SIC level	SIC code	Description
Industry division	—	Wholesale trade
Major group	50	Durable goods
Industry group	506	Electrical goods
Industry	5064	Electrical appliances, television and radio sets

Data in the SMOBE and SWOBE reports are presented at the industry division or major group level, depending on the table.

The SMOBE and SWOBE cover all industries in the SIC system except the following major industry groups:

- Agricultural Production (01, 02)
- Railroad Transportation (40)
- U.S. Postal Service (43)
- Selected parts of 63, Insurance Carriers
  - Pension Funds (self-managed funds and funds managed by a third party)
  - Health and Welfare Funds (self managed funds and funds managed by a third party)
- Selected parts of 67, Holding and Other Investment Offices
  - Management Investment Offices, Open-End

U.S. Census Bureau, 1997 Economic Census

- Unit Investment Trusts, Face-Amount Certificate Offices, and Closed-End Management Investment Offices
- Vacation Funds for Employees
- Personal Investment Trusts

- Membership Organizations (86)
- Private Households (88)
- Public Administration (91-97)

GEOGRAPHIC AREAS COVERED

The SMOBE and SWOBE reports present data for the United States, each state and the District of Columbia; metropolitan areas (MAs), which include selected metropolitan statistical areas (MSAs), primary metropolitan statistical areas (PMSAs), and consolidated metropolitan statistical areas (CMSAs); counties; and places with 100 or more women- or minority-owned firms.

MSAs. The MSAs for which data are shown are among those defined by the Office of Management and Budget as of June 30, 1997. An MSA is an integrated economic and social unit with a population nucleus of at least 50,000 inhabitants.[1] Each MSA consists of one or more counties meeting standards of metropolitan character; in New England, cities and towns, rather than counties, are the component geographic units.

PMSAs. An MSA with a population of 1 million or more may be subdivided into PMSAs. A PMSA consists of a large urbanized county or a cluster of counties (cities and towns in New England) that demonstrates very strong internal economic and social links separate from the ties to other portions of its MSA. Where PMSAs are defined, the MSA of which they are component parts is redesignated a CMSA.

Counties. Data are shown for counties or county equivalents.[2] [3]

Places. Included in the SMOBE and SWOBE are places of 2,500 inhabitants or more or incorporated as a city, borough, village, or town.[1] [2] In addition, statistics are presented for towns in the six New England states, New York, and Wisconsin, and townships in Michigan, Minnesota, New Jersey, and Pennsylvania with a 1990 census population of 10,000 or more.

COMPARABILITY OF 1992 AND 1997 DATA

The following changes were made in survey methodology in 1997 that affect comparability with past reports:

1. The universe for the 1997 SMOBE and SWOBE was expanded to include all corporations. In 1992, only subchapter S corporations in addition to partnerships and sole proprietorships were included for the SMOBE. A small sample of "C" corporations was included in the SWOBE to provide estimates at the industry division level only.
2. Previously, the SMOBE and SWOBE programs defined a business as an entity that filed a business income tax return. Businesses that had received one or more Employer Identification Numbers (EINs) may have filed tax returns under more than one EIN. In past surveys, each EIN was treated as a separate business. For 1997, all operations under the same ownership were defined as one company or business, irrespective of the number of the company's EINs. The definition eliminated the likelihood of surveying the same business owner more than once. This change had no effect on the employment and payroll data for these surveys, but slightly reduced the count for the number of businesses and the total receipts.
3. In the past, ownership was based on the race/ethnicity/gender of the majority of the number of owners, without regard to the percentage of interest owned in the firm. Businesses with 50 percent or more minority owners have in the past been included in the minority business counts. In the 1997 SMOBE, 51 percent or more of the interest, claims or rights in the business must be held by minorities to be included as a minority-owned business and similarly for women. In the 1997 SMOBE, businesses in which ownership was shared among minority and nonminority groups with no single racial/ethnic group having majority interest were excluded from the minority business counts and tabulated as 50-percent minority-/50-percent nonminority-owned in the Company Summary publication. Equally owned male/female firms were treated as a separate entity and were presented in a separate section of the Women-Owned Businesses publication. In previous surveys, businesses that were equally owned by a man and a woman were classified as either male- or female-owned. Equally owned corporations and partnerships were counted as women owned. Using administrative data all sole proprietorships were assigned a gender based on the spouse with the largest self-employment income. The addition of the equally owned category in 1997 substantially reduced the estimates for women-owned businesses.
4. In the past, a small sample of the cases placed on the non-Hispanic white male frame was taken to estimate the number of firms owned by persons of minority ancestry when no indication of minority ownership was found from any of the sources used in stratification. The estimates from this sample were presented

[1] According to 1990 Census of Population or subsequent special census.
[2] Those defined as of January 1, 1997.
[3] See Appendix C for Alaska, Louisiana, Maryland, Missouri, Montana, Nevada, Virginia, and District of Columbia county equivalents.

in a separate section of the Asian- and Pacific Islander-, American Indian- and Alaska Native-owned business publication and the Hispanic-owned business publication as an estimate of the undercount and were excluded from the detailed tables. In the 1997 SMOBE and SWOBE, the estimates from this part of the sample were included in the detailed tables of the publications.

5. In prior surveys, the SMOBE universe of sole proprietorships was based on businesses filing an annual IRS Schedule C (Form 1040) "Profit or Loss From Business" report. Employers were identified by first matching these Schedule C records to IRS Form 941 "Employers Quarterly Federal Tax Return" payroll reports. Not all Schedule C business income tax records that represented firms with employees could be matched. To estimate for sole proprietorship, employers that were not matched to payroll tax returns, a portion of the sole proprietorship universe that reported cost of labor or wages as an expense item on the Schedule C, was also considered employers. In addition, some cases with no cost of labor or wages reported, but with large receipts had payroll imputed and were counted as employers.

   For 1997, the methodology was revised to identify sole proprietorship employers as only those that filed the IRS Form 941 payroll tax form. These businesses were included in the universe even if they could not be matched to a Schedule C. This resulted in a decrease in the estimate of firms with paid employees relative to the 1992 methodology.

COMPARABILITY OF SURVEY DATA WITH OTHER ECONOMIC CENSUS DATA

The tables in each publication that show data for all U.S. firms are comparable to and include the minority- and women-owned firm data. Caution should be exercised in comparing data presented in this report with published or unpublished data from other reports of the 1997 Economic Census. Factors that affect comparability of data among censuses are industrial scope, business unit covered, receipts size, and coverage of nonemployers.

Industrial scope. Data in this report are based on the *1987 SIC Manual*[4] (see Industry Classifications section).

Several SIC industries were in scope of the SMOBE and SWOBE, but out of scope of the basic economic census. These industries included: 07, Agricultural Services; 08, Forestry; 09, Fishing, Hunting, and Trapping.

Major industry group 86, Membership Organizations, was within the scope of the economic census, but out of the scope of the SMOBE and SWOBE.

In the SMOBE and SWOBE, industry 6552 (land subdividers and developers, except cemeteries) is included with the construction industry group, unlike the other economic censuses that include it with industry 65 (real estate).

Business unit. Most of the economic censuses are conducted on an establishment or physical location basis, individually enumerating and tabulating each establishment owned by a firm. In the SMOBE and SWOBE, however, the whole firm was the primary unit for enumeration. (See Appendix A for definition of "firm.")

Receipts size. Most of the economic censuses determine whether or not a firm may be counted as an active business according to its receipts size. The specified minimums vary by industry. For a firm to be counted as an active business in the SMOBE and SWOBE, it had only to file a business tax return with business receipts greater than $1,000, except for the construction industry, which had no minimum business receipts cutoff.

Firms with no paid employees. Although nonemployer firms are included in these surveys, they are omitted from many of the economic census reports.

DOLLAR VALUES

All dollar values presented in the SMOBE and SWOBE reports are expressed in current dollars, i.e., 1997 data are expressed in 1997 dollars and 1992 data in 1992 dollars. Consequently, when making comparisons to prior years, users should take into consideration the inflation that has occurred.

COMPACT DISCS

Data for the economic censuses are also available on compact discs-read only memory (CD-ROM). For the SMOBE and SWOBE, discs will contain more detailed industry data by state and comparison data for all U.S. firms, as well as the same information found in the reports. Discs are sold by Administrative and Customer Services Division, U.S. Census Bureau, Washington, DC 20233-1900.

SPECIAL TABULATIONS

Special tabulations of data collected in the 1997 SMOBE and/or SWOBE may be obtained, depending on availability of time and personnel, on computer disk, or in tabular form. The data will be in summary form and subject to the same rules prohibiting disclosure of confidential information (including name, address, kind of business, or other data for individual firms) as are the regular publications.

Special tabulations are prepared on a cost basis. A request for a cost estimate, as well as exact specifications on the type and format of the data to be provided, should be directed to the Chief, Economic Census Branch, U.S. Census Bureau, Washington, DC 20233-6400.

To discuss a special tabulation before submitting a request, call 301-457-3318.

ABBREVIATIONS AND SYMBOLS

The following abbreviations and symbols are used in this publication:

–	Represents zero.
D	Withheld to avoid disclosing data for individual companies; data are included in higher-level totals.
IC	Independent city.
NA	Not available.
X	Not applicable.
CDP	Census designated place.
CMSA	Consolidated metropolitan statistical area.
MA	Metropolitan area.
MSA	Metropolitan statistical area.
PMSA	Primary metropolitan statistical area.
SIC	Standard industrial classification.
n.e.c.	Not elsewhere classified.
n.s.k.	Not specified by kind.
pt.	Part.

Summary of Findings

In 1997, there were 20.8 million firms, employing 103.4 million people and generating $18.6 trillion in business revenues. Firms with paid employees numbered 5.3 million and accounted for $17.9 trillion in business revenues.

SCOPE OF THIS REPORT

The *1997 Company Summary* report provides data on both the number of employer and nonemployer firms, sales and receipts, annual payroll, and employment. Data aggregates are presented by race, ethnicity, and gender for the United States by two-digit Standard Industrial Classification code, industry division by state, employment and receipts size, and legal form of organization.

The data in this report were compiled by combining data collected on business owners in the 1997 Economic Census Surveys of Minority- and Women-Owned Business Enterprises with data collected on the main economic census and administrative records. Included are all nonfarm businesses filing 1997 tax forms as individual proprietorships, partnerships, and any type of corporation, and with receipts of $1,000 or more. The data are not comparable to earlier surveys due to significant methodology changes that are discussed in the section below on Data Comparability to Prior Surveys.

INDUSTRY CHARACTERISTICS

Forty-three percent of all firms were in the service industry and accounted for 14.1 percent of the total gross receipts. Forty percent of these service firms provided business and personal services. The retail trade industry accounted for 13.9 percent of all firms and 14.3 percent of all receipts.

Construction firms accounted for 11.2 percent of all firms, but only 5.1 percent of the total gross receipts. Twenty-three percent of the receipts generated by the nation's businesses were concentrated in the wholesale trade industry.

Table A. **Top Industry Receipt Leaders for All U.S. Firms: 1997**

Industry	Receipts (million dollars)
Wholesale trade	**4,270,041**
Wholesale trade-durable goods	2,317,535
Wholesale trade-nondurable goods	1,952,506
Manufacturing	**4,021,515**
Transportation equipment	518,959
Food and kindred products	490,131
Industrial machinery and equipment	411,881
Retail trade	**2,649,085**
Automotive dealers and service stations	807,900
Food stores	428,384
Miscellaneous retail	413,842

SIZE OF FIRM

All firms with paid employees accounted for 25.4 percent of the total number of firms and 96.5 percent of gross receipts. There were 95,654 firms with 100 employees or more which accounted for $12.7 billion in gross receipts (70.9 percent of the total receipts of all employer firms).

There were 1,050,379 firms in the U.S. with gross receipts of $1 million or more. These firms accounted for only 5.0 percent of the total number of firms but 90.9 percent of the total gross receipts. Thirty-five percent of all U.S. firms had gross receipts of under $10,000.

U.S. Census Bureau, 1997 Economic Census

GEOGRAPHIC CHARACTERISTICS

California had the most firms at 2,565,734 or 12.3 percent of all U.S. firms with receipts of $2.2 trillion or 11.7 percent of all business receipts. Texas was second with 1,526,972 or 7.3 percent with receipts of $1.4 trillion or 7.6 percent of total receipts. New York was third in number of firms with 1,509,829 but was second in receipts with $1.5 trillion or 8.0 percent of total receipts.

RACE, ETHNICITY, AND GENDER

Of all U.S. firms, 54.6 percent had men as the majority owners with 35.7 percent of total receipts; 26.0 percent had women as the majority owners with only 4.4 percent of total receipts; and 17.5 percent were equally male-/female-owned with 5.1 percent of total receipts. The remaining 1.8 percent were publicly held, foreign-owned and not-for-profit businesses whose ownership by gender could not be determined, but they accounted for 54.8 percent of all receipts.

Among privately owned firms in which the race and gender of the owners could be determined, white non-Hispanics owned the largest share of U.S. firms and business receipts, 84.7 percent and 92.5 percent, respectively.

Minorities owned 14.9 percent of the nation's 20.4 million privately held businesses, generating 7.0 percent of their receipts. Hispanics had the largest share of firms owned by minorities, 39.5 percent, and Asian-owned firms reaped the largest share of minority-owned business revenues, 51.2 percent.

U.S. Census Bureau, 1997 Economic Census

DATA COMPARABILITY TO PRIOR SURVEYS

The data for 1997 are not directly comparable to previous survey years because of several changes to the survey methodology. These changes are discussed in detail in the introductory text in the section titled "Comparability of 1992 and 1997 Data." The most significant changes occurred in the treatment of C corporations, in tabulating businesses with 50-percent minority ownership, in the estimates of Hispanic-, Asian-, Pacific Islander-, American Indian-, and Alaska Native-owned firms excluded from the detailed tables of the 1992 publications, and in the identification of firms with paid employees. In 1992 and in previous studies, C corporations were excluded from the survey. Only subchapter S corporations, in addition to partnerships and sole proprietorships, were included. In 1997, the universe for the Survey of Minority-Owned Business Enterprises was expanded to include all corporations. However, businesses that were foreign-owned, publicly held, nonprofit, or whose ownership was shared by its membership, such as mutual companies, were tabulated separately and not distributed to the race/ethnicity of ownership categories. Race/ethnicity of ownership for the remaining corporations was determined to be Hispanic or non-Hispanic; Asian or non-Asian; Pacific Islander or non-Pacific Islander; American Indian or non-American Indian; or Alaska Native or non-Alaska Native, if 51 percent or more of the stock interest, claims or rights were held by the specific racial/ethnic group.

The second major change occurred with the treatment of businesses with 50-percent minority/50-percent nonminority ownership. In the past, businesses with 50 percent or more minority owners have been included in the minority business data. For 1997, businesses in which ownership was shared among minority and nonminority groups with no single racial/ethnic group having majority interest were excluded from the minority business data and were tabulated and published separately as 50-percent minority-/50-percent nonminority-owned in the *Company Summary* publication.

The third major change occurred with the exclusion of some Hispanic-, Asian-, Pacific Islander-, American Indian-, and Alaska Native-owned firms from the detailed tables of the 1992 reports. In the past, these businesses were sampled from a frame of businesses that had some probability of being Hispanic, Asian, Pacific Islander, American Indian, or Alaska Native, either based on tax information from the Social Security Administration, name recognition, or previously collected data. For businesses assumed to be white non-Hispanic or for which no predefining information was available, a small sample of cases was selected to estimate the number of firms owned by persons of minority ancestry that were not included in the potentially Hispanic-, Asian-, Pacific Islander-, American Indian-, or Alaska Native-owned business frame. The estimates from this sample were presented in a separate section of the reports as an estimate of the undercount and were excluded from the detailed tables due to high standard errors and insufficient industry detail. In the 1997 survey, the estimates from this part of the sample were included in the detailed tables of the publications.

The fourth major change occurred in identifying sole proprietorships with paid employees. The methodology was revised to account for only those firms which paid payroll taxes to the IRS. This resulted in a decrease in the estimate of firms with paid employees relative to the 1992 methodology.

Table 1. **Statistics for All U.S. Firms by Major Industry Group, Race, Ethnicity, and Gender: 1997**—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 1. **Statistics for All U.S. Firms by Major Industry Group, Race, Ethnicity, and Gender: 1997**—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 1. **Statistics for All U.S. Firms by Major Industry Group, Race, Ethnicity, and Gender: 1997**—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 1. **Statistics for All U.S. Firms by Major Industry Group, Race, Ethnicity, and Gender: 1997**—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

SIC code	Major industry group, race, ethnicity, and gender	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—

Table 1. **Statistics for All U.S. Firms by Major Industry Group, Race, Ethnicity, and Gender: 1997**—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 1. **Statistics for All U.S. Firms by Major Industry Group, Race, Ethnicity, and Gender: 1997**—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 1. **Statistics for All U.S. Firms by Major Industry Group, Race, Ethnicity, and Gender: 1997**—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
[3]Includes publicly held corporations, foreign-owned companies, and not-for-profit companies.
[4]Excludes 4512 (part), domestically scheduled airlines.
[5]Excludes 6371 (part), pension, health, and welfare funds; and 6399 (part), other insurance carriers.
[6]Excludes 6552, (land subdividers and developers, except cemeteries), which is included in construction industries.
[7]Excludes 6722, management investment offices; 6726, unit investment trusts, face-amount certificate offices, and closed-end management investment offices; and 6733 (part), trusts and vacation funds.

Table 2. **Statistics for All U.S. Firms by State, Race, Ethnicity, and Gender: 1997**

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
[3]Includes publicly held corporations, foreign-owned companies, and not-for-profit companies.

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Geographic area, industry division, race, ethnicity, and gender	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
	Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

See footnotes at end of table.

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Geographic area, industry division, race, ethnicity, and gender	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

U.S. Census Bureau, 1997 Economic Census Oct. 4, 2001

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. Statistics for All U.S. Firms by Industry Division, Race, Ethnicity, and Gender for States: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]Includes cooperatives, estates, receiverships, and businesses classified as unknown legal forms of organization.
[3]Excludes 4512 (part), domestically scheduled airlines.
[4]Excludes 6371 (part), pension, health, and welfare funds; and 6399 (part), other insurance carriers.
[5]Excludes 6552 (land subdividers and developers, except industries), which is included in construction industries.
[6]Excludes 6722, management investment offices; 6726, unit investment trusts, face-amount certificate offices, and closed-end management investment office; and 6733 (part), trusts and vacation funds.

Table 8. Statistics for All U.S. Firms by Industry Division, Receipts Size of Firm, Race, Ethnicity, and Gender: 1997

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Industry division, receipts size, race, ethnicity, and gender	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—

See footnotes at end of table.

Table 8. Statistics for All U.S. Firms by Industry Division, Receipts Size of Firm, Race, Ethnicity, and Gender: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Industry division, receipts size, race, ethnicity, and gender	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
	Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

See footnotes at end of table.

Table 8. Statistics for All U.S. Firms by Industry Division, Receipts Size of Firm, Race, Ethnicity, and Gender: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Industry division, receipts size, race, ethnicity, and gender	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
	Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 8. Statistics for All U.S. Firms by Industry Division, Receipts Size of Firm, Race, Ethnicity, and Gender: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 9. Statistics for All U.S. Firms With Paid Employees by Industry Division, Employment Size of Firm, Race, Ethnicity, and Gender: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 9. Statistics for All U.S. Firms With Paid Employees by Industry Division, Employment Size of Firm, Race, Ethnicity, and Gender: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 9. Statistics for All U.S. Firms With Paid Employees by Industry Division, Employment Size of Firm, Race, Ethnicity, and Gender: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 9. Statistics for All U.S. Firms With Paid Employees by Industry Division, Employment Size of Firm, Race, Ethnicity, and Gender: 1997—Con.

[Detail may not add to total because of rounding and because a Hispanic firm may be of any race and, therefore, may be included in more than one minority group (see Survey Methodology in the introductory text). This table is based on the 1987 SIC system. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Appendix A.
Explanation of Terms

Annual payroll. Annual payroll consists of the combined amount of wages paid, tips reported, and other compensation including salaries, vacation allowances, bonuses, commissions, sick-leave pay, and the value of payments-in-kind (such as free meals and lodging) paid to all employees during the calendar year before deductions for social security, income tax, insurance, union dues, etc. All forms of compensation are included, whether or not subject to income tax or FICA tax, with the exception of annuities, third-party sick pay, and supplemental unemployment compensation benefits (even if income tax was withheld). For corporations, total payroll includes compensation paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners.

Employment. Employment includes all employees, full-time and part-time, reported on a firm's payroll during specified pay periods in 1997. Persons on paid sick leave, paid holidays, and paid vacations are included as employees, as are salaried officers and executives of corporations. However, proprietors and partners of unincorporated businesses are not considered as employees.

The derivation of the 1997 employment figures vary somewhat among the different industries. For firms in the minerals, manufacturing, and construction industries, employment represents an annual average of the number of "production workers" on the payroll for any part of the pay periods including the 12th of March, May, August, and November, plus the number of "all other employees" on the payroll during the March 12th pay period. For the other industries covered by the economic censuses and for those industries not covered, employment consists of all employees on the payroll of a firm during the pay period including March 12.

Establishment. An establishment is a business or industrial unit at a single physical location which produces or distributes goods or performs services.

Ethnicity. The ethnic categories listed on the survey questionnaires are consistent with those mandated by the Office of Management and Budget. These standards were developed by both the Executive Branch and Congress.

Firm. A firm is a business consisting of one domestic establishment or more that the reporting firm specified under its ownership or control at the end of 1997. If a company owned or controlled other companies, all establishments of the subsidiaries are included as part of the owning or controlling company. In this report, the terms company and firm are used interchangeably.

Legal form of organization. The five legal forms of organization included in this report are:

1. **C corporation.** Any legally incorporated business, except subchapter S, under state laws.
2. **Subchapter S corporation.** A legally incorporated business under state laws. A subchapter S corporation is a special IRS designation for legally incorporated businesses with 75 or fewer shareholders who, because of tax advantages, elect to be taxed as individual shareholders rather than as corporations.
3. **Individual proprietorship.** An unincorporated business owned by an individual. Also included in this category are self-employed persons. The business may be the only occupation of an individual or the secondary activity of an individual who works full time for someone else.
4. **Partnership.** An unincorporated business owned by two or more persons.
5. **Other.** Included in this group are cooperatives, estates, receiverships, and businesses classified as unknown legal forms of organization.

Race. The race categories listed on the survey questionnaires are consistent with those mandated by the Office of Management and Budget. These standards were developed by both the Executive Branch and Congress.

Sales and receipts. Sales and receipts are defined as the receipts for goods produced or distributed or services provided. Excluded from sales are nonoperating receipts, returns on investments, and interest.

For firms with multiple locations, sales and receipts are reported for each location or establishment of the firm. These sales and receipts include estimated values assigned to intra-company transfers of goods and services among establishments within the same company. The value of a firm's sales and receipts as shown in this publication is the aggregate of these establishment receipts. Because of duplication, the aggregates of these establishments' sales and receipts ordinarily exceed a firm's total net sales and receipts, which reflect only commercial transactions with outside customers.

Appendix C. Geographic Notes

ALABAMA

Arab is in Cullman and Marshall Counties.

Birmingham is in Jefferson and Shelby Counties.

Boaz is in Etowah and Marshall Counties.

Childersburg is in Shelby and Talladega Counties.

Decatur is in Limestone and Morgan Counties.

Dothan is in Dale, Henry, and Houston Counties.

Enterprise is in Coffee and Dale Counties.

Glencoe is in Calhoun and Etowah Counties.

Haleyville is in Marion and Winston Counties.

Hoover is in Jefferson and Shelby Counties.

Huntsville is in Limestone and Madison Counties.

Leeds is in Jefferson, St. Clair, and Shelby Counties.

Madison is in Limestone and Madison Counties.

Oxford is in Calhoun and Talladega Counties.

Phenix City is in Lee and Russell Counties.

Piedmont is in Calhoun and Cherokee Counties.

Prattville is in Autauga and Elmore Counties.

Southside is in Calhoun and Etowah Counties.

Spanish Fort was incorporated in July 1993.

Sumiton is in Jefferson and Walker Counties.

Tallassee is in Elmore and Tallapoosa Counties.

Trussville is in Jefferson and St. Clair Counties; it annexed into St. Clair County in May 1992.

Vestavia Hills is in Jefferson and Shelby Counties.

Winfield is in Fayette and Marion Counties.

ALASKA

Skagway-Hoonah-Angoon Census Area was renamed from Skagway-Yakutat-Angoon Census Area in September 1992 when Yakutat Borough organized from part of its area.

Yakutat Borough was organized from part of the Skagway-Yakutat-Angoon Census Area (renamed Skagway-Hoonah-Angoon Census Area) in September 1992.

ARIZONA

Apache Junction is in Maricopa and Pinal Counties.

Queen Creek is in Maricopa and Pinal Counties; it annexed into Pinal County in December 1993.

Sedona is in Coconino and Yavapai Counties.

ARKANSAS

Fairfield Bay is in Cleburne and Van Buren Counties; it was incorporated in July 1993.

Springdale is in Benton and Washington Counties.

CALIFORNIA

Buellton was incorporated in February 1992.

Calabasas was incorporated in April 1991, but this change was not submitted to the Census Bureau until November 1992.

Grover Beach name was changed from Grover City in December 1992.

Industry does not qualify as a "place" for the economic census based on its 1990 population but is included because of its dense concentration of economic activity.

Malibu was incorporated in March 1991, but this change was not submitted to the Census Bureau until January 1993.

Shasta Lake was incorporated in July 1993.

Truckee was incorporated in March 1993.

Vernon does not qualify as a "place" for the economic census based on its 1990 population but is included because of its dense concentration of economic activity.

Windsor was incorporated in July 1992.

U.S. Census Bureau, 1997 Economic Census

COLORADO

Arvada is in Adams and Jefferson Counties.

Aurora is in Adams, Arapahoe, and Douglas Counties.

Berthoud is in Larimer and Weld Counties; it annexed into Weld County in December 1996.

Brighton is in Adams and Weld Counties.

Broomfield is in Adams, Boulder, Jefferson, and Weld Counties.

Littleton is in Arapahoe, Douglas, and Jefferson Counties.

Longmont is in Boulder and Weld Counties.

Northglenn is in Adams and Weld Counties.

Superior is in Boulder and Jefferson Counties.

Thornton is in Adams and Weld Counties.

Westminster is in Adams and Jefferson Counties.

Windsor is in Larimer and Weld Counties; it annexed into Larimer County in November 1994.

CONNECTICUT

Danielson. See "Killingly town balance."

Groton. See "Groton town balance."

Groton town balance. The term "balance" after the town refers to the portion of a town excluding an incorporated place recognized for the 1997 Economic Census. Groton town balance contains all of Groton town except the incorporated place of Groton.

Killingly town balance. The term "balance" after the town refers to the portion of a town excluding an incorporated place recognized for the 1997 Economic Census. Killingly town balance contains all of Killingly town except the incorporated place of Danielson.

Milford. See "Milford (consolidated city)."

Milford (consolidated city) is coextensive with Milford town. It includes Woodmont, which is not populous enough for separate tabulation. Therefore, "Milford" refers to the whole consolidated city.

DELAWARE

Milford is in Kent and Sussex Counties.

Smyrna is in Kent and New Castle Counties.

DISTRICT OF COLUMBIA

There are no geographic notes for the District of Columbia.

FLORIDA

Atlantic Beach. See "Jacksonville (consolidated city)."

Aventura was incorporated in November 1995.

De Bary was incorporated in December 1993.

Deltona was incorporated in December 1995.

Jacksonville Beach. See "Jacksonville (consolidated city)."

Jacksonville (balance). See "Jacksonville (consolidated city)."

Jacksonville (consolidated city) is coextensive with Duval County. It includes Atlantic Beach, Jacksonville Beach, and Neptune Beach, which are tabulated separately. "Jacksonville (balance)," which is a place equivalent, includes Baldwin, which is not populous enough for separate tabulation.

Longboat Key is in Manatee and Sarasota Counties.

Neptune Beach. See "Jacksonville (consolidated city)."

Pinecrest was incorporated in March 1996.

St. Pete Beach name was changed from St. Petersburg Beach in April 1994.

Wellington was incorporated in December 1995.

Weston was incorporated in September 1996.

GEORGIA

Athens-Clarke County. See "Athens-Clarke County (consolidated city)."

Athens-Clarke County (consolidated city) is coextensive with Clarke County. It includes Winterville and Bogart (part in Clarke County), which are not populous enough for separate tabulation. Therefore, "Athens-Clarke County" refers to the whole consolidated city.

Atlanta is in DeKalb and Fulton Counties.

Auburn is in Barrow and Gwinnett Counties.

Augusta-Richmond County (balance). See "Augusta-Richmond County (consolidated city)."

Augusta-Richmond County (consolidated city) is coextensive with Richmond County. It includes Hephzibah, which is tabulated separately. "Augusta-Richmond County (balance)," which is a place equivalent, includes Blythe (part in Richmond County), which is not populous enough for separate tabulation. The governments of Augusta and Richmond County dissolved and consolidated in January 1996.

Austell is in Cobb and Douglas Counties.

Bremen is in Carroll and Haralson Counties.

U.S. Census Bureau, 1997 Economic Census

GEORGIA—Con.

Buford is in Gwinnett and Hall Counties.

College Park is in Clayton and Fulton Counties.

Columbus. See "Columbus (consolidated city)."

Columbus (consolidated city) is coextensive with Muscogee County. It includes Bibb City, which is not populous enough for separate tabulation. Therefore, "Columbus" refers to the whole consolidated city.

Fitzgerald is in Ben Hill and Irwin Counties.

Fort Oglethorpe is in Catoosa and Walker Counties.

Hephzibah. See "Augusta-Richmond County (consolidated city)."

LaGrange is a spelling correction from La Grange.

Lithia Springs was incorporated in February 1993.

Loganville is in Gwinnett and Walton Counties.

Macon is in Bibb and Jones Counties.

Manchester is in Meriwether and Talbot Counties.

Palmetto is in Coweta and Fulton Counties.

Perry is in Houston and Peach Counties.

Royston is in Franklin, Hart, and Madison Counties.

Social Circle is in Newton and Walton Counties.

Vidalia is in Montgomery and Toombs Counties.

Villa Rica is in Carroll and Douglas Counties.

Waycross is in Pierce and Ware Counties.

West Point is in Harris and Troup Counties.

HAWAII

Hawaii has no incorporated places in the sense of functioning governmental units; however, in agreement with Hawaiian law, the Census Bureau reports data for "census designated places" (CDPs) which have been designated as place equivalents. Those CDPs, only for the state of Hawaii, with 2,500 or more population are recognized.

Honolulu CDP. Aliamanu and Fort Shafter were erroneously reported separately as CDPs for the 1992 Economic Census. Aliamanu and Fort Shafter were corrected and made part of the Honolulu CDP.

Honolulu County is coextensive with Honolulu city which is not recognized for the economic census; however, Honolulu CDP is recognized for the economic census.

Island of Lanai. See "Maui County."

Island of Molokai. See "Maui County."

HAWAII—Con.

Maui County consists of four islands. The state requested that two of the islands, Lanai and Molokai, be recognized as "places" for the economic census. Included on the island of Molokai is the nonfunctioning county of Kalawao.

Waihee-Waiehu is a spelling correction from Waihee-Waiehue.

IDAHO

Burley is in Cassia and Minidoka Counties.

Pocatello is in Bannock and Power Counties.

ILLINOIS

Algonquin is in Kane and McHenry Counties.

Arlington Heights is in Cook and Lake Counties; it annexed into Lake County prior to 1990, but this change was not submitted to the Census Bureau until April 1995.

Aurora is in DuPage, Kane, Kendall, and Will Counties; it annexed into Kendall and Will Counties in December 1995.

Barrington is in Cook and Lake Counties.

Barrington Hills is in Cook, Kane, Lake, and McHenry Counties.

Bartlett is in Cook, DuPage, and Kane Counties.

Batavia is in DuPage and Kane Counties.

Bedford Park does not qualify as a "place" for the economic census based on its 1990 population but is included because of its dense concentration of economic activity.

Bensenville is in Cook and DuPage Counties.

Bolingbrook is in DuPage and Will Counties.

Buffalo Grove is in Cook and Lake Counties.

Burr Ridge is in Cook and DuPage Counties.

Casey is in Clark and Cumberland Counties.

Centralia is in Clinton, Marion, and Washington Counties.

Channahon is in Grundy and Will Counties.

Chicago is in Cook and DuPage Counties.

Coal City is in Grundy and Will Counties.

Coal Valley is in Henry and Rock Island Counties.

Collinsville is in Madison and St. Clair Counties.

Colona resulted from the merger of Green Rock (reported in the 1992 Economic Census) and Colona (not populous enough for separate tabulation in the 1992 Economic Census) in May 1995.

ILLINOIS—Con.

Columbia is in Monroe and St. Clair Counties; it annexed into St. Clair County in January 1993.

Deerfield is in Cook and Lake Counties.

Dwight is in Grundy and Livingston Counties.

East Dundee is in Cook and Kane Counties.

Elgin is in Cook and Kane Counties.

Elk Grove Village is in Cook and DuPage Counties.

Elmhurst is in Cook and DuPage Counties; it annexed into Cook County in July 1992.

Fox Lake is in Lake and McHenry Counties.

Fox River Grove is in Lake and McHenry Counties.

Hanover Park is in Cook and DuPage Counties.

Hinsdale is in Cook and DuPage Counties.

Hoffman Estates is in Cook and Kane Counties.

Huntley is in Kane and McHenry Counties.

Island Lake is in Lake and McHenry Counties.

Joliet is in Kendall and Will Counties; it annexed into Kendall County in June 1996.

Lemont is in Cook, DuPage, and Will Counties.

Madison is in Madison and St. Clair Counties.

Marion is in Johnson and Williamson Counties; it annexed into Johnson County in September 1993.

Matteson is in Cook and Will Counties; it annexed into Will County in February 1990, but this change was not submitted to the Census Bureau until May 1995.

Minooka is in Grundy and Will Counties.

Montgomery is in Kane and Kendall Counties.

Naperville is in DuPage and Will Counties.

New Baden is in Clinton and St. Clair Counties.

Oak Brook is in Cook and DuPage Counties.

Orland Park is in Cook and Will Counties; it annexed into Will County in January 1996.

Park Forest is in Cook and Will Counties.

Pekin is in Peoria and Tazewell Counties.

Peoria Heights is in Peoria, Tazewell, and Woodford Counties.

Roselle is in Cook and DuPage Counties.

St. Charles is in DuPage and Kane Counties.

Sandwich is in DeKalb and Kendall Counties.

ILLINOIS—Con.

Sauk Village is in Cook and Will Counties.

Schaumburg is in Cook and DuPage Counties.

Steger is in Cook and Will Counties.

Streator is in La Salle and Livingston Counties.

Tinley Park is in Cook and Will Counties.

University Park is in Cook and Will Counties.

Virden is in Macoupin and Sangamon Counties.

West Peoria was incorporated in November 1993.

Wheeling is in Cook and Lake Counties.

Woodridge is in Cook, DuPage, and Will Counties; it annexed into Cook County in June 1993.

INDIANA

Batesville is in Franklin and Ripley Counties.

Beach Grove. See "Indianapolis (consolidated city)."

Chesterfield is in Delaware and Madison Counties.

Cumberland is in Hancock and Marion Counties; see "Indianapolis (consolidated city)."

Dunkirk is in Blackford and Jay Counties.

Edinburgh is in Bartholomew and Johnson Counties.

Elwood is in Madison and Tipton Counties.

Indianapolis (balance). See "Indianapolis (consolidated city)."

Indianapolis (consolidated city) includes all of Marion County except Beech Grove, Lawrence, Southport, and Speedway, which are tabulated separately. The consolidated city includes Cumberland (part in Marion County), which also is tabulated separately. "Indianapolis (balance)," which is a place equivalent, includes Clermont, Crows Nest, Homecroft, Meridian Hills, North Crows Nest, Rocky Ripple, Spring Hill, Warren Park, Williams Creek, and Wynnedale, which are not populous enough for separate tabulation.

Lawrence. See "Indianapolis (consolidated city)."

Nappanee is in Elkhart and Kosciusko Counties.

Southport. See "Indianapolis (consolidated city)."

Speedway. See "Indianapolis (consolidated city)."

IOWA

Carlisle is in Polk and Warren Counties.

Clive is in Dallas and Polk Counties.

Dyersville is in Delaware and Dubuque Counties.

U.S. Census Bureau, 1997 Economic Census

IOWA—Con.

Forest City is in Hancock and Winnebago Counties.

Grimes is in Dallas and Polk Counties.

Sheldon is in O'Brien and Sioux Counties.

Shenandoah is in Fremont and Page Counties.

Urbandale is in Dallas and Polk Counties.

West Des Moines is in Dallas and Polk Counties.

Wilton is in Cedar and Muscatine Counties.

KANSAS

Bonner Springs is in Johnson and Wyandotte Counties.

Herington is in Dickinson and Morris Counties.

Manhattan is in Pottawatomie and Riley Counties.

Mulvane is in Sedgwick and Sumner Counties.

KENTUCKY

Corbin is in Knox and Whitley Counties.

Williamstown is in Grant and Pendleton Counties; it annexed into Pendleton County in May 1993.

LOUISIANA

De Ridder is in Beauregard and Vernon Parishes.

Eunice is in Acadia and St. Landry Parishes.

New Llano is a spelling correction from Newllano.

Shreveport is in Bossier and Caddo Parishes.

St. Gabriel was incorporated in August 1994.

MAINE

There are no geographic notes for the state of Maine.

MARYLAND

Hampstead is in Baltimore and Carroll Counties.

Mount Airy is in Carroll and Frederick Counties.

Takoma Park is in Montgomery and Prince George's Counties.

MASSACHUSETTS

There are no geographic notes for the state of Massachusetts.

MICHIGAN

Clare is in Clare and Isabella Counties.

Commerce township balance. The term "balance" after the township refers to the portion of a township excluding an incorporated place recognized for the 1997 Economic Census. Commerce township balance contains all of Commerce township except the incorporated place of Wolverine Lake.

Eastpointe name was changed from East Detroit in July 1992.

Grosse Pointe Shores is in Macomb and Wayne Counties.

Holland is in Allegan and Ottawa Counties.

Lake Orion. See "Orion township balance."

Lansing is in Eaton and Ingham Counties.

Midland is in Bay and Midland Counties.

Milan is in Monroe and Washtenaw Counties.

Niles is in Berrien and Cass Counties.

Northville is in Oakland and Wayne Counties.

Orion township balance. The term "balance" after the township refers to the portion of a township excluding an incorporated place recognized for the 1997 Economic Census. Orion township balance contains all of Orion township except the incorporated place of Lake Orion.

Oxford. See "Oxford township balance."

Oxford township balance. The term "balance" after the township refers to the portion of a township excluding an incorporated place recognized for the 1997 Economic Census. Oxford township balance contains all of Oxford township except the incorporated place of Oxford.

Romeo. See "Washington township balance."

South Haven is in Allegan and Van Buren Counties.

Traverse City is in Grand Traverse and Leelanau Counties.

Washington township balance. The term "balance" after the township refers to the portion of a township excluding an incorporated place recognized for the 1997 Economic Census. Washington township balance contains all of Washington township except the incorporated place of Romeo.

Wolverine Lake. See "Commerce township balance."

MINNESOTA

Blaine is in Anoka and Ramsey Counties.

Chanhassen is in Carver and Hennepin Counties.

Dayton is in Hennepin and Wright Counties.

Granite Falls is in Chippewa and Yellow Medicine Counties.

Hastings is in Dakota and Washington Counties.

Lake City is in Goodhue and Wabasha Counties.

Le Sueur is in Le Sueur and Sibley Counties; it annexed into Sibley County in October 1990, but this change was not submitted to the Census Bureau until June 1997.

Mankato is in Blue Earth, Le Sueur, and Nicollet Counties.

New Prague is in Le Sueur and Scott Counties.

Northfield is in Dakota and Rice Counties.

North Mankato is in Blue Earth and Nicollet Counties.

Oak Grove was incorporated in December 1993.

Princeton is in Mille Lacs and Sherburne Counties.

Rockford is in Hennepin and Wright Counties.

St. Anthony is in Hennepin and Ramsey Counties.

St. Cloud is in Benton, Sherburne, and Stearns Counties.

Sartell is in Benton and Stearns Counties.

Spring Lake Park is in Anoka and Ramsey Counties.

Staples is in Todd and Wadena Counties.

Wadena is in Otter Tail and Wadena Counties.

White Bear Lake is in Ramsey and Washington Counties.

MISSISSIPPI

Baldwyn is in Lee and Prentiss Counties.

Hattiesburg is in Forrest and Lamar Counties.

Jackson is in Hinds, Madison, and Rankin Counties.

Nettleton is in Lee and Monroe Counties.

MISSOURI

Cameron is in Clinton and DeKalb Counties.

Cape Girardeau is in Cape Girardeau and Scott Counties.

Centralia is in Audrain and Boone Counties.

MISSOURI—Con.

Crawford County is the only county outside New England that is split by an MA boundary. Sullivan city, in Crawford and Franklin Counties, is completely within the St. Louis, MO-IL MSA; the remainder of Crawford County outside of Sullivan city is not in any MA. However, Crawford County is excluded from economic census data tabulations for the St. Louis, MO-IL MSA.

Excelsior Springs is in Clay and Ray Counties.

Hannibal is in Marion and Ralls Counties.

Independence is in Clay and Jackson Counties.

Jefferson City is in Callaway and Cole Counties.

Joplin is in Jasper and Newton Counties.

Kansas City is in Cass, Clay, Jackson, and Platte Counties.

Lee's Summit is in Cass and Jackson Counties.

Marceline is in Chariton and Linn Counties.

Monett is in Barry and Lawrence Counties.

Monroe City is in Marion, Monroe, and Ralls Counties.

Mountain Grove is in Texas and Wright Counties.

Oak Grove is in Jackson and Lafayette Counties.

Osage Beach is in Camden and Miller Counties.

Park Hills resulted from the merger of Flat River (reported in the 1992 Economic Census) and Elvins, Esther, and Rivermines (not populous enough for separate tabulation in the 1992 Economic Census) in January 1994.

Pacific is in Franklin and St. Louis Counties.

Portageville is in New Madrid and Pemiscot Counties.

Scott City is in Cape Girardeau and Scott Counties.

Sikeston is in New Madrid and Scott Counties.

Springfield is in Christian and Greene Counties.

Sugar Creek is in Clay and Jackson Counties.

Sullivan is in Crawford and Franklin Counties; see "Crawford County."

Vanadalia is in Audrain and Ralls Counties.

Wildwood was incorporated in September 1995.

Windsor is in Henry and Pettis Counties.

MONTANA

Butte-Silver Bow. See "Butte-Silver Bow (consolidated city)."

U.S. Census Bureau, 1997 Economic Census

MONTANA—Con.

Butte-Silver Bow (consolidated city) is coextensive with Silver Bow County. It includes Walkerville, which is not populous enough for separate tabulation. Therefore, "Butte-Silver Bow" refers to the whole consolidated city.

NEBRASKA

There are no geographic notes for the state of Nebraska.

NEVADA

West Wendover was incorporated in July 1991, but this change was not submitted to the Census Bureau until May 1992.

NEW HAMPSHIRE

There are no geographic notes for the state of New Hampshire.

NEW JERSEY

Glen Ridge was incorporated in May 1993.

North Caldwell was incorporated in January 1992.

NEW MEXICO

Corrales is in Bernalillo and Sandoval Counties.

Espanola is in Rio Arriba and Sante Fe Counties.

Rio Rancho is in Bernalillo and Sandoval Counties; it annexed into Bernalillo County in January 1994.

NEW YORK

Airmont. See "Ramapo town balance."

Amherst town balance. The term "balance" after the town refers to the portion of a town excluding an incorporated place recognized for the 1997 Economic Census. Amherst town balance contains all of Amherst town except the incorporated place of Williamsville.

Amityville. See "Babylon town balance."

Ardsley. See "Greenburgh town balance."

Attica is in Genesee and Wyoming Counties.

Babylon. See "Babylon town balance."

Babylon town balance. The term "balance" after the town refers to the portion of a town excluding an incorporated place recognized for the 1997 Economic Census. Babylon town balance contains all of Babylon town except the incorporated places of Amityville, Babylon, and Lindenhurst.

1–800–233–6132

Please correct errors in name, address, and ZIP Code. ENTER street and number if not shown.

INSTRUCTIONS — PLEASE READ

The purpose of this questionnaire is to collect information about the gender, race, and ethnic background of business owners in the United States for the year 1997. The business owner(s) should complete this questionnaire even if the business has since been sold, reorganized, or discontinued. Data provided by you will be used only for statistical purposes and will be kept strictly confidential. The race and ethnic categories have been established by the Office of Management and Budget to assure uniform reporting to all Federal agencies.

These data are needed to evaluate the extent and growth of business ownership in order to provide a framework for assessing and directing Federal, state, and local government business assistance programs. The Small Business Administration and the Minority Business Development Agency use these data when allocating resources for their business assistance programs. The data are also widely used by private firms and individuals to evaluate their own businesses and markets, by the media for news stories, and by researchers and academia for determining firm characteristics.

We estimate that it will take 10 minutes or less to complete this questionnaire. If you have any comments regarding these estimates or any other aspect of this survey, send them to the Associate Director for Administration/Controller, Attn: Paperwork Reduction Project 0607-0854, Room 3104, Federal Building 3, Bureau of the Census, Washington, DC 20233. You are not required to respond to any information collection unless it displays a valid approval number from the Office of Management and Budget. This 8-digit number appears at the top of this page.

Publication Program

1997 COMPANY STATISTICS (CS) SERIES

EC97CS-1–Company Summary

Data include all businesses (minority-, nonminority-, women-, and male-owned) and are presented by industry classifications and/or geographic area (states, MAs, counties, and places), size of firm (employment and receipts), and legal form of organization (individual proprietorships, partnerships, and corporations).

EC97CS-2–Women-Owned Business Enterprises

Data are presented by industry classifications and/or geographic area (states, MAs, counties, and places), size of firm (employment and receipts), and legal form of organization (individual proprietorships, partnerships, and corporations).

Minority-Owned Business Enterprises

EC97CS-3 – Black
EC97CS-4 – Hispanic
EC97CS-5 – Asians and Pacific Islanders
EC97CS-6 – American Indians and Alaska Natives
EC97CS-7 – Summary

Data are presented by industry classifications and/or geographic area (states, MAs, counties, and places), size of firm (employment and receipts), and legal form of organization (individual proprietorships, partnerships, and corporations).

EC97CS-8–Business Expenses

This report presents operating expenses data at the National level. Industries for which data are presented on an SIC basis are Merchant Wholesale Trade, Retail Trade, Service Industries, Communications, Transportation and Warehousing, and Travel Agencies. Industries for which data are presented on a NAICS (North American Industry Classification System) basis include Manufactures, Mineral Industries, and Construction. Unpublished SIC-based expenses data on Auxiliary Establishments to Manufactures, Mineral Industries, and Construction are available on request. Operating expenses include annual payroll, supplemental labor costs, rent, advertising, utilities, etc. Sales and receipts data also are provided, as well as inventories, purchases, and measures of value produced for merchant wholesale and retail trades.

ELECTRONIC MEDIA FOR THE CS SERIES

All data from the Surveys of Minority- and Women-Owned Business Enterprises reports (EC97CS-1–CS-7) and the Business Expenses report (EC97CS-8) are available on the Census Bureau Internet site (*www.census.gov)*. Complete data from the Surveys of Minority- and Women-Owned Business Enterprises reports and most of the data from the Business Expenses report are available on compact discs (CD-ROM) for sale by the Census Bureau. For more information, including a description of electronic and printed reports, see the Internet site, or write to U.S. Census Bureau, Washington, DC 20233-0800, or call Customer Services at 301-457-4100.
