

**AN OVERVIEW OF SELECTED POPULATION PROFILES –
A NEW DATA PRODUCT PROPOSED FOR THE
AMERICAN COMMUNITY SURVEY**

**Meetings of the Census Advisory Committee on the African American Population, the
American Indian and Alaska Native Populations, the Asian Population, the Hispanic
Population, and the Native Hawaiian and Other Pacific Islander Populations**

April 25 - 27, 2005

**Douglas Hillmer, ACSO and Jorge delPinal, POP
U.S. Census Bureau**

This draft document is being provided to the Census Bureau's Advisory Committees prior to upcoming meetings. It is preliminary in nature and in the early stages of development. As such, it is subject to revision. Our intent in making this working document available at this time is to inform ongoing discussions related to the American Community Survey.

An Overview of Selected Population Profiles – A New Data Product Proposed for the American Community Survey (ACS)

In the Federal Register notice from May, 2004, that described our planned changes to the existing ACS data products, we included this short description of a new product that we are now calling, Selected Population Profiles.

This new product would provide certain characteristics from the Tabular Profiles for a specific race or ethnic group (e.g., Alaska Natives) or other population subgroup (e.g., people ages 60 and over).

Many of the comments on our Federal Register notice were quite supportive of this proposed new product. We have decided to incorporate Selected Population Profiles into our annual data products. These profiles will deal with a variety of different populations, including many of the smaller race, ethnic, and ancestry groups. Currently we are proposing the creation of a Selected Population Profile for population groups such as:

- Children,
- Grandchildren,
- Teenagers,
- Native and Foreign-born Populations,
- People ages 65 and over,
- People ages 60 and over, and
- People at specified levels of poverty in the past 12 months.

Selected Population Profiles are also proposed for a large number of specific race, ethnic, and ancestry groups such as:

- Chippewa alone or in combination,
- Columbian,
- Guamanian or Chamorro alone or in any combination,
- Hispanic or Latino,
- Italian,
- Native Hawaiian alone,
- Sioux alone, and
- Vietnamese alone.

We plan to have single-year, 3-year and 5-year Selected Population Profiles that will allow for production of data for increasingly smaller geographic areas and groups. As with all other data products, we must assure that there is no disclosure of individual person characteristics. Additionally, we must assure that the estimates in a Selected Population Profile for a geographic area meet the standards of statistical reliability enforced for all ACS data products. Starting with sample year 2004 (data released in 2005), we will confine the release of these profiles to populations that meet the above criteria in the nation, the states, and in selected sub-state areas.

Attachment 1 is an example of a proposed Selected Population Profile for the Hispanic or Latino Population. As you will note, these profiles include a wide spectrum of demographic, socioeconomic, and housing data. Attachment 2 is a list of the SF4 iterated population groups.

Questions:

1. Should we include estimates for a comparison population in the selected Population Profiles as is shown in the attached example? If so, how should we identify that comparison group?
2. Are there any other specific populations, not already Summary File 4 (SF4) iteration groups (see attachment 2 for a complete list) that you think we should consider in developing our plans for this new product line?

FOOTNOTE:

The data in this table refer to the race, Hispanic or Latino origin, American Indian or Alaska Native, or ancestry of the householder.

SF-4 Characteristic Iterations

This appendix lists the 336 possible iterations for Summary File 4. The iterations comprise the total population, 132 race groups, 78 American Indian and Alaska Native tribe categories (reflecting 39 individual tribes), 39 Hispanic or Latino groups, and 86 ancestry groups.
