Table 1. Statistics for Asian-Owned Firms by Kind of Business and Detailed Group: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 1. **Statistics for Asian-Owned Firms by Kind of Business and Detailed Group: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
[3]Data do not include crop and animal production (NAICS 111, 112).
[4]Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.
[5]Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).
[6]Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 2. Statistics for Asian-Owned Firms by State and Kind of Business: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. **Statistics for Asian-Owned Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. **Statistics for Asian-Owned Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. **Statistics for Asian-Owned Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. **Statistics for Asian-Owned Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. **Statistics for Asian-Owned Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. **Statistics for Asian-Owned Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. **Statistics for Asian-Owned Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
[3]Data do not include crop and animal production (NAICS 111, 112).
[4]Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.
[5]Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).
[6]Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 3. **Statistics for Asian-Owned Firms by State and Detailed Group: 2002**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state in which they operate, but only once in the U.S. total. For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. **Statistics for Asian-Owned Firms by State and Detailed Group: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state in which they operate, but only once in the U.S. total. For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 3. **Statistics for Asian-Owned Firms by State and Detailed Group: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state in which they operate, but only once in the U.S. total. For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Geographic area and detailed group	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—

Table 3. **Statistics for Asian-Owned Firms by State and Detailed Group: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state in which they operate, but only once in the U.S. total. For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Geographic area and detailed group	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

See footnotes at end of table.

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

See footnotes at end of table.

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

See footnotes at end of table.

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

See footnotes at end of table.

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
[3]Data do not include crop and animal production (NAICS 111, 112).
[4]Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.
[5]Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).
[6]Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Geographic area and detailed group	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
	Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Geographic area and detailed group	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
	Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Geographic area and detailed group	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
	Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Geographic area and detailed group	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
	Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Geographic area and detailed group	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
	Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Geographic area and detailed group	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
	Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Geographic area and detailed group	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 5. Statistics by Detailed Group for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Asian-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 6. Statistics for Selected Counties With 100 or More Asian-Owned Firms: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

Table 6. **Statistics for Selected Counties With 100 or More Asian-Owned Firms: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

Table 6. **Statistics for Selected Counties With 100 or More Asian-Owned Firms: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 7. **Statistics for Selected Places With 100 or More Asian-Owned Firms: 2002**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

Table 7. **Statistics for Selected Places With 100 or More Asian-Owned Firms: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

Table 7. **Statistics for Selected Places With 100 or More Asian-Owned Firms: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

Geographic area	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
	Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 7. **Statistics for Selected Places With 100 or More Asian-Owned Firms: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

Table 7. **Statistics for Selected Places With 100 or More Asian-Owned Firms: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

Geographic area	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—

Table 7. **Statistics for Selected Places With 100 or More Asian-Owned Firms: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

Table 7. **Statistics for Selected Places With 100 or More Asian-Owned Firms: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

Table 7. **Statistics for Selected Places With 100 or More Asian-Owned Firms: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

Geographic area	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—

Table 7. **Statistics for Selected Places With 100 or More Asian-Owned Firms: 2002**—Con.

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 8. Statistics for Asian-Owned Firms by Kind of Business and Receipts Size of Firm: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

2002 NAICS code	Kind of business and receipts size	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—

See footnotes at end of table.

Table 8. Statistics for Asian-Owned Firms by Kind of Business and Receipts Size of Firm: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 8. Statistics for Asian-Owned Firms by Kind of Business and Receipts Size of Firm: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 8. **Statistics for Asian-Owned Firms by Kind of Business and Receipts Size of Firm: 2002**—Con.

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
[3]Data do not include crop and animal production (NAICS 111, 112).
[4]Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.
[5]Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).
[6]Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 9. Statistics for Asian-Owned Firms With Paid Employees by Kind of Business and Employment Size of Firm: 2002

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 9. Statistics for Asian-Owned Firms With Paid Employees by Kind of Business and Employment Size of Firm: 2002—Con.

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

[1]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
[2]Data do not include crop and animal production (NAICS 111, 112).
[3]Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.
[4]Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).
[5]Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 10. Statistics for Asian-Owned Firms With No Paid Employees by Kind of Business: 2002

[Includes firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 14. **Statistics for All U.S. Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

2002 NAICS code	Geographic area and kind of business	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
		Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 14. **Statistics for All U.S. Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

2002 NAICS code	Geographic area and kind of business	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
		Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 14. **Statistics for All U.S. Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

2002 NAICS code	Geographic area and kind of business	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
		Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 14. Statistics for All U.S. Firms by State and Kind of Business: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 14. **Statistics for All U.S. Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

2002 NAICS code	Geographic area and kind of business	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
		Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 14. **Statistics for All U.S. Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 14. **Statistics for All U.S. Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

2002 NAICS code	Geographic area and kind of business	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
		Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

See footnotes at end of table.

Table 14. **Statistics for All U.S. Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

2002 NAICS code	Geographic area and kind of business	All firms[1]		Firms with paid employees				Relative standard error of estimate (percent)[2] for column—					
		Firms (number)	Sales and receipts ($1,000)	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)

Table 14. **Statistics for All U.S. Firms by State and Kind of Business: 2002**—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
[3]Data do not include crop and animal production (NAICS 111, 112).
[4]Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.
[5]Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).
[6]Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 15. Statistics for All U.S. Firms by Kind of Business and Receipts Size of Firm: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 15. Statistics for All U.S. Firms by Kind of Business and Receipts Size of Firm: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 15. **Statistics for All U.S. Firms by Kind of Business and Receipts Size of Firm: 2002**—Con.

[1]All firms data include both firms with paid employees and firms with no paid employees.
[2]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
[3]Data do not include crop and animal production (NAICS 111, 112).
[4]Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.
[5]Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).
[6]Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 16. Statistics for All U.S. Firms With Paid Employees by Kind of Business and Employment Size of Firm: 2002

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

2002 NAICS code	Kind of business and employment size	Firms (number)	Sales and receipts ($1,000)	Employees (number)	Annual payroll ($1,000)	Relative standard error of estimate (percent)[1] for column—

[1]For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
[2]Data do not include crop and animal production (NAICS 111, 112).
[3]Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.
[4]Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).
[5]Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 17. Statistics for All U.S. Firms With No Paid Employees by Kind of Business: 2002

[Includes firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

2002 NAICS code	Kind of business	Firms (number)	Sales and receipts ($1,000)	Relative standard error of estimate (percent)[1] for column—	
		A	B	A	B
	Total for all sectors	**17 449 872**	**767 409 608**	**–**	**–**
