**NEW RESIDENTIAL CONSTRUCTION IN DECEMBER 2015**

The U.S. Census Bureau and the Department of Housing and Urban Development jointly announced the following new residential construction statistics for December 2015:

**BUILDING PERMITS**

Privately-owned housing units authorized by building permits in December were at a seasonally adjusted annual rate of 1,232,000. This is 3.9 percent ( $\pm 2.2\%$ ) below the revised November rate of 1,282,000, but is 14.4 percent ( $\pm 1.2\%$ ) above the December 2014 estimate of 1,077,000.

Single-family authorizations in December were at a rate of 740,000; this is 1.8 percent ( $\pm 2.2\%$ )\* above the revised November figure of 727,000. Authorizations of units in buildings with five units or more were at a rate of 455,000 in December.

An estimated 1,178,400 housing units were authorized by building permits in 2015. This is 12.0 percent ( $\pm 1.8\%$ ) above the 2014 figure of 1,052,100.

**HOUSING STARTS**

Privately-owned housing starts in December were at a seasonally adjusted annual rate of 1,149,000. This is 2.5 percent ( $\pm 8.6\%$ )\* below the revised November estimate of 1,179,000, but is 6.4 percent ( $\pm 12.2\%$ )\* above the December 2014 rate of 1,080,000.

Single-family housing starts in December were at a rate of 768,000; this is 3.3 percent ( $\pm 8.5\%$ )\* below the revised November figure of 794,000. The December rate for units in buildings with five units or more was 365,000.

An estimated 1,111,200 housing units were started in 2015. This is 10.8 percent ( $\pm 2.9\%$ ) above the 2014 figure of 1,003,300.

**HOUSING COMPLETIONS**

Privately-owned housing completions in December were at a seasonally adjusted annual rate of 1,013,000. This is 5.6 percent ( $\pm 10.5\%$ )\* above the revised November estimate of 959,000 and is 7.9 percent ( $\pm 11.6\%$ )\* above the December 2014 rate of 939,000.

Single-family housing completions in December were at a rate of 696,000; this is 8.8 percent ( $\pm 12.2\%$ )\* above the revised November rate of 640,000. The December rate for units in buildings with five units or more was 307,000.

An estimated 965,700 housing units were completed in 2015. This is 9.3 percent ( $\pm 3.8\%$ ) above the 2014 figure of 883,800.

***New Residential Construction data for January 2016 will be released on Wednesday, February 17, 2016, at 8:30 A.M. EST.***

**EXPLANATORY NOTES**

In interpreting changes in the statistics in this release, note that month-to-month changes in seasonally adjusted statistics often show movements which may be irregular. It may take 3 months to establish an underlying trend for building permit authorizations, 6 months for total starts, and 5 months for total completions. The statistics in this release are estimated from sample surveys and are subject to sampling variability as well as nonsampling error including bias and variance from response, nonreporting, and undercoverage. Estimated relative standard errors of the most recent data are shown in the tables. Whenever a statement such as "2.5 percent ( $\pm 3.2\%$ ) above" appears in the text, this indicates the range (-0.7 to +5.7 percent) in which the actual percent change is likely to have occurred. All ranges given for percent changes are 90-percent confidence intervals and account only for sampling variability. If a range does not contain zero, the change is statistically significant. If it does contain zero, the change is not statistically significant; that is, it is uncertain whether there was an increase or decrease. The same policies apply to the confidence intervals for percent changes shown in the tables. On average, the preliminary seasonally adjusted estimates of total building permits, housing starts and housing completions are revised three percent or less. Explanations of confidence intervals and sampling variability can be found on our web site listed above.

\* 90% confidence interval includes zero. The Census Bureau does not have sufficient statistical evidence to conclude that the actual change is different from zero.
