@

-
-PURPOSE1-

WHAT IS THIS SURVEY ALL ABOUT?

This survey provides information about:

- The cost of housing for the American public.
- The availability of housing for different segments of the American public,
such as the elderly, low income, and different minority groups.
- Trends in housing market. For example:
 - What type of housing (single family homes, condominiums, townhouses, manufactured/mobile homes, etc.) are people buying?
 - What type of fuels and appliances are being used?
 - Is the quality of housing in this country improving or getting worse for most people?
 - Is the cost of owning and maintaining a home changing?
 - Is the cost of renting changing?
 - Are people adding to their living space?
 - What proportion of our population lives in overcrowded housing?
 - Are neighborhoods getting better or worse?
- How close are we to our national goal of providing quality housing for each American?
- To provide data for the President to present an annual report to Congress.

ENTER (P) TO PROCEED WITH THE INTERVIEW.

ENTER (H) HELP WITH ANOTHER QUESTION.

@

-
-PURPOSE2-

HOW WILL THE INFORMATION BE USED?

Some uses for the information are the following:

- To evaluate the effectiveness of existing housing programs.
- To plan new programs.
- To determine the amount of money required to solve different types

of housing problems.

- To determine at what income level families of various sizes qualify for low-income housing assistance programs.
- To determine how much support low-or middle-income families should receive in the form of rent subsidies or mortgage assistance programs.
- To determine if existing mortgage programs are adequate.
- To provide data for the President to present an annual report to Congress.

ENTER (P) TO PROCEED WITH THE INTERVIEW.
ENTER (H) HELP WITH ANOTHER QUESTION.

@

-
-PURPOSE3-

HOW WAS I SELECTED FOR THIS SURVEY?

- We selected an address, not you or your family.
- If you were to move, this address would remain in the survey, not your new one.

WHY CAN'T YOU SELECT SOMEONE ELSE?

Each address is scientifically selected to represent thousands of other housing units.

ENTER (P) TO PROCEED WITH THE INTERVIEW.
ENTER (H) HELP WITH ANOTHER QUESTION.

@

-
-PURPOSE4-

IS PARTICIPATION VOLUNTARY?

- Yes.
- To produce valid and reliable results, everyone should participate.
- Decisions will be made with or without your input. By participating, your voice will be heard in Washington.

ENTER (P) TO PROCEED WITH THE INTERVIEW.
ENTER (H) HELP WITH ANOTHER QUESTION.

@

-
-PURPOSE5-

WHO SEES MY ANSWERS? I DON'T WANT ANYONE TO SEE MY ANSWERS.

- Any information you provide is confidential by law (Title 13, section 9a of the U.S. Code.)
- Individual people or homes cannot be identified in publications.
- Interviewers have taken an oath not to reveal the information. If they break this oath, they can be fined or imprisoned.

ENTER (P) TO PROCEED WITH THE INTERVIEW.
ENTER (H) HELP WITH ANOTHER QUESTION.

@

-
-PURPOSE6-

IS THIS SURVEY AUTHORIZED BY LAW?

- The Census Bureau collects the data for the Department of Housing and Urban Development under title 12, section 1701Z-1 and 2(g) of the U.S. Code.
- Your participation is voluntary but essential to the success of the survey.

ENTER (P) TO PROCEED WITH THE INTERVIEW.

ENTER (H) HELP WITH ANOTHER QUESTION.

@

-
-PURPOSE7-

HOW WILL THIS SURVEY BENEFIT ME?

- Because of the survey, Federal funds are allocated more efficiently. The survey actually saves more money than it costs.
- Government programs, such as (Select any: mortgage assistance, loans, rent assistance, low-cost housing) exist or may exist in the future that you, or someone you know, might participate in.
- The survey results are used to evaluate our progress toward providing each American with decent housing.

ENTER (P) TO PROCEED WITH THE INTERVIEW.

ENTER (H) HELP WITH ANOTHER QUESTION.

@

-
-PURPOSE8-

I CONSIDER THIS A WASTE OF MONEY.

- It actually saves more money than it costs, because the information is used to allocate housing funds more efficiently.
- To keep costs low, we only interview a sample of households, that's why your participation is so important.

CLARIFICATION OF ANSWER CHOICES

- (2) Reluctant Respondent - Refusal Followup - The respondent refuses to start or complete the AHS interview. Efforts to convince otherwise exhausted. Report to the Regional Office for support and advice.
- (3) Vacant House, Apartment or Manufactured/Mobile home - The sample unit is habitable but not occupied at the time of the AHS interview. Examples include a home/condominium for sale where the owner has already moved out, a seasonal trailer closed-up for the winter, a deteriorating home with the inside protected from the elements and the roof, walls, doors and windows in-place. The AHS conducts a special interview for a vacancy.
- (4) Noninterview - Impossible to conduct an AHS interview for one of the three

reasons below.

Type A Noninterview - An occupied sample unit whose residents are unavailable or refuse to participate.

Type B Noninterview - A sample unit currently uninhabitable (business usage, construction, deterioration) but capable of being used as a living quarters in the future.

Type C Noninterview - A sample unit destroyed and incapable of ever being lived-in again because of disaster or severe deterioration.

(0) Other Outcome/Problem Interviewing Respondent - An event not accounted for in the answer choices for this screen that prevents the start or completion of the interview.

One-Unit Building, Detached - If the structure is a one-family house and has open space on all four sides, enter code "2". Also, enter code "2" for a house with an adjoining shed or garage. A building which contains a business in addition to one housing unit is also detached, if the building has open space on all sides and no unbroken dividing wall between the housing unit and the business.

One-Unit Building Attached - Enter "3" for a structure containing only one housing unit that has unbroken wall(s), extending from ground to roof, which divides it from any other adjoining structures. Examples of "one-unit building attached" structures are those in a row of houses attached to one another (row houses or townhouses), or houses attached to nonresidential structures.

Living quarters have direct access if there is either:

- (1) An entrance to the living quarters directly from the outside of the structure, or
- (2) An entrance to the living quarters from a hall, lobby or vestibule used by the occupants of more than one unit or by the public. This means that the hall, lobby, or vestibule is not part of any unit but must be clearly separate from all units in the structure. It may be furnished or unfurnished.

Any room that serves the same purpose as a hotel lobby may be a common hall provided it is not part of any unit. If there is only one unit in the building (such as a janitor's quarters in the basement of a store), the access is direct. Living quarters do not have direct access if the only entrance to the unit is through a room or a hall of another unit.

TYPE B - OTHER TEST

In order to be a Type B- Other, a sample unit must meet one of the following conditions.

1. The sample unit serves as a government embassy, chancery, or consulate.
2. The sample unit meets the minimal conditions of a Type B but falls outside the designated Type B categories. The minimal conditions for a Type B are that the sample unit is CURRENTLY UNINHABITABLE but has the POTENTIAL of being converted or repaired and used as a living quarters in the future.

A vacant home or manufactured/mobile home is NOT a Type B- Other. A vacancy fails the Type B test because it is habitable even though unoccupied at the time of interview. The AHS has a special interview that should be completed for a vacancy.

A "Condominium" is a type of ownership in which the apartments or houses in a development are individually owned, but the common areas, such as lobbies, halls, grounds, etc are jointly owned. The owner has a deed, and, very likely, a mortgage on an individual unit. The owner also holds a common joint ownership in all common areas and hallways, entrances, elevators, etc.

Condominium ownership may cover single family houses, rowhouses, townhouses, etc., as well as apartments and manufactured/mobile homes.

"Time-shared" condominiums are also included in this category.

Code 1 Basement A basement is an enclosed space, at least partially underground, in which persons can walk upright under all or part of the building. Consider a floor to be a basement if at least half of the area is below ground level, either from floor to ceiling or from back to front of the area.

The basement can be finished and intended for living by the household, or the basement can be unfinished and may be only four walls containing the furnace or other equipment.

Code 2 Crawl Space A house is built with a crawl space if there is a space between the ground and the first floor of the house, but it is not high enough for a person to walk upright. It may be enclosed or exposed to the elements.

Code 3 Concrete Slab A house is built on a concrete slab if it is built on cement that has been poured on the ground.

"Broken down" - if MAIN heating equipment is not providing heat

at its normal heating capacity through some fault in the equipment. If the MAIN heating equipment was broken and caused discomfort, mark "yes" even if other supplementary equipment is working.

Exclude - situations where not enough heat is being provided because of lack of fuel or because of utility breakdown.

-
-BRKDN1eH-

[b]Utility interruptions[n] - if the gas, electricity or other fuel supplying the heat was cut off, whether because of power black-outs, fuel shortages, unpaid bills, or any other reason.

[b]Inadequate heating capacity[n] - if the heating equipment is providing heat at its normal capacity yet the unit is still too cold for the occupants.

[b]Inadequate insulation[b] - for air drafts through window frames, electrical outlets, or walls that are cold.

[b]Cost of heating[n] - If the occupants intentionally keep the temperature down to save money, or if the landlord turns on the heat too late in the season or turns it off too early or keeps the thermostat set low.

[b]Other[n] - specify other reasons not mentioned above.

"Sewage System" includes:

- * Septic tank/cesspool and lines from the unit, drainfields etc.
- * Sewage treatment facilities, sewer mains, sewer line from unit to the street, etc.
- * [u] Waste[n] lines inside the unit that require more attention than a plunger or liquid drain cleaner (i.e. Roto-Rooter)

Exclude simple toilet or plumbing breakdowns that occur in or near the toilet itself (i.e. stopped up toilet in J pipe would be reported under toilet breakdowns).

Also exclude stopped up drains from a sink/tub/shower. These are not considered

"sewage system breakdowns".

[bold]"Breakdowns"[normal] refers to situations in which the system malfunctioned,

not when it was temporarily shut down for maintenance. For examples of malfunctions:

septic tank being pumped because it no longer perked, tank collapse, tank explodes,

sewer main breaks, sewer treatment plant not operating due to electric failure or

water service interruption.

The system uses the answer from this item, along with the date the person moved in, to place people into mover groups. Count all persons who lived at the previous residence at the time of the move, and those who usually lived there but were temporarily away for reasons such as visiting, traveling in connection with their jobs, attending school, in general hospitals, and in other temporary locations. Include children, infants, lodgers, servants, hired hands, and anyone else who usually lived there.

Do [u]not[n] count persons who were staying at the previous residence at the time of the move, but who had a usual residence elsewhere. Persons who lived in the previous residence need not have moved to the new unit to be counted. For example, a son or daughter who remained behind or moved to another residence to attend college is not a member of the present household, but [u]should[n] be counted as a member of the previous one.

PLEASE PRESS ENTER TO CONTINUE THE INTERVIEW @

-RMOV9l_XCOSTH-

Housing costs include real estates taxes, upkeep of place, utilities, etc. Comparison should be made of the share this group actually paid in the previous unit with the share actually paid in this residence. If nothing was actually paid in the previous residence, but something is paid here, the costs increased. Conversely, if something was paid in the previous residence but nothing here, the costs decreased. If nothing was paid in either place, the costs stayed the same.

Some people take out a special mortgage called a Reverse Annuity Mortgage or Home Equity Conversion Mortgage that borrows against the equity in their homes to give them retirement money or income. Some of these loans do not have to be paid back during the owner's lifetime because it will be paid by the sale of the home when the estate is settled. Some provide monthly income over a specified period of time, after which it must be paid back.

Do you have this type of mortgage?

- (1) Yes
- (2) No

@

-
-MORT1aH-

Enter "1" (yes) if there is such a loan outstanding on the property. Most of the time if there is a debt on the property, it will be a mortgage, or in certain states, a deed of trust. Occasionally, you will come across a person whose right to occupy a property is authorized by a contract to purchase. This is also to be regarded as a mortgage.

Enter "2" (no) if the reference person or someone in the household owns the property (house and lot) outright with no mortgage or loan outstanding on the property. In a few areas of the United States, the homeowner may indicate that the land on which the house is located is not owned; the land is rented or leased from the land owner and "ground rent" is paid. In these cases, if there is not mortgage or loan on the structure, enter "2" (no).

A land contract, also known as a "contract for deed" or "agreement for sale" is an installment sale, which means you buy today but only get the title after some or all of the payments are made. If you miss a payment, you could lose some or all your equity.

Through the use of a home equity line of credit, you will be able to utilize the equity of your property and take advantage of the tax savings. Depending on your situation, lines of credit will give you the advantage to access your equity in different portions, up to a limit set by the lender, by giving you the option to withdraw the funds whenever you need, and make payments accordingly.

These are loans generally one to three percent below the current mortgage interest rate at the time the loan is made. These loans are managed through state or local governments, and financed from the proceeds from mortgage revenue bonds. The borrower makes application through the lending institution (bank, etc.) after the instruments have been publicly advertised, and these are made on a first-come, first-serve basis. An example would be loans for first-time home buyers.

Exclude federally funded VA programs.

Some mortgages have a short original term (e.g., 5 or 10 years), but with a payment schedule amortized over a longer time period (e.g., 25 or 30 years). The difference is handled by a balloon payment at the end of the term. This affords the borrower a low payment schedule during the first year of ownership with the ability to refinance or pay off the loan at

the end of the term.

The answer to this question should reflect the entire amortization schedule and not the number of years remaining if the current monthly payments were maintained. For example, a couple buys a house borrowing \$40,000 on a 5 year note with a "balloon" payment on the end, but the monthly mortgage payment reflects the \$40,000 amortized over a 30 year (rather than a 5 year) period. If the current monthly payments were maintained, it would take 30 years to pay off the note.

Some people take out a special mortgage called a Reverse Annuity Mortgage or Home Equity Conversion Mortgage that borrows against the equity in their homes to give them retirement money or income. Some of these loans do not have to be paid back during the owner's lifetime because it will be paid by the sale of the home when the estate is settled. Some provide monthly income over a specified period of time, after which it must be paid back.

Do you have this type of mortgage?
