Item 17. CONSUMPTION OF SELECTED MATERIALS DURING 1997

INSTRUCTIONS

1. General – The materials, parts, and supplies listed below are those commonly consumed in the manufacture, processing, or assembly of the products listed in item 18B. Please review the entire list and report separately each item consumed. Leave blank if you do not consume the item. If you use materials, parts, and supplies which are not listed, describe and report them in the "Cost of all other materials . . ." line at the end of this section. If you consumed less than \$25,000 of a listed material, include the value with "Cost of all other materials . . .," Census material code 970099 8.

Report materials, parts, and supplies purchased, transferred from other plants of your company, or withdrawn from inventory.

If quantities are requested, please use the unit of measure specified.

If the information as requested cannot be taken directly from your book records, REASONABLE ESTIMATES ARE ACCEPTABLE.

2. Valuation of Materials Consumed – The value of the materials, etc., consumed should be based on the delivered cost; i.e., the amount paid or payable after discounts and including freight and other direct charges incurred in acquiring the materials.

Materials received from other plants within your company should be reported at their full economic value (the value assigned by the shipping plant, plus the cost of freight and other handling charges).

If purchases or transfers do not differ significantly from the amounts actually put into production, you may report the cost of purchases or transfers. However, if consumption differs significantly from the amounts purchased or transferred, these amounts should be adjusted for changes in the materials and supplies inventories by adding the beginning inventory to the amount purchased or transferred and subtracting ending inventory.

3. Contract Work – Include as materials consumed those you purchased for use by others making products for you under contract. Amounts paid to the companies doing the contract work should be reported in item 10, line e, and should include freight in and out. On the other hand, materials owned by others but used at this establishment in making products for others under contract or on commission should be excluded.

4. Resales – Cost for products bought and sold or transferred from other establishments of your company and sold without further manufacture, processing, or assembly should be reported in item 10, line b, not in item 17 below. The value of these products shipped by this establishment should be reported in item 18B under Census product code 99989 00 6, "Resales."

5. Toll Operations – Tolling must be performed for customers outside your own company. If the work is done for other establishments within your company, the value of the materials consumed in the tolling operation should be reported in your cost of materials data and the processed value of the product should be reported as a product shipment and a corresponding interplant transfer.

6. Gross Weight – Where gross weight is requested (lines 12 and 22) the figures reported should represent the entire weight of the materials in the relevant form shown on the schedule and not the metal content of the material. Gross weight should not include tare.

7. Lines 15–21 – Include scrap generated in other establishments of your company and transferred to this plant, as well as scrap purchased from outside sources. Exclude home scrap.

Line No.	Materials, parts, and supplies		Census material code	Unit of measure for quantities	Consumption of purchased materials and of materials received from other establishments of your company			
					Quantity	Cost, including delivery cost (freight-in)		
						(E)		
	(A)	(B)	(C)	(D)	Millions	Thou-sands	Dollars	
1	Shapes and Forms (Except castings, forgings, and fabricated metal products)	ALUMINUM AND ALUMINUM-BASE ALLOY	Ingot	333471 1		\$		
2			All other aluminum and aluminum-base alloy shapes and forms	330009 2				
3		COPPER AND COPPER-BASE ALLOY	Refined unalloyed copper (cathodes, ingots, cakes, slabs, etc.) and blister or anode copper	333120 4	Short tons			
4			All other copper and copper-base alloy shapes and forms	330012 6

Item 18B. PRODUCTS AND SERVICES OF THIS ESTABLISHMENT DURING 1997

INSTRUCTIONS

- General - The manufactured products and services listed below are generally made in your industry. If you make products that are not listed, describe and report them in the "All other products made in this establishment" section at the end of item 18B. PLEASE DO NOT COMBINE PRODUCT LINES.

If quantities are requested, please use the unit of measure specified.

If the information as requested cannot be taken directly from your book records, REASONABLE ESTIMATES ARE ACCEPTABLE.
- Column (D-1) - Production - Report the total quantity of each product produced. If this establishment performs both smelting and refining operations, production should be reported separately for each stage. Also, within each stage, production should be reported only in the form in which the metal passes from the smelter stage to the refined stage, or is shipped from this plant, or is consumed in this plant in the manufacture of products beyond the refined metal stage. Do not report production of intermediate stages through which the metal may be processed.
- Columns (D-2) and (E) - Products Shipped and Other Receipts - Report the quantity and value of shipments of all products made in this establishment during 1992. For value of shipments, report the net selling value, f.o.b. plant, after discounts and allowances, and exclusive of freight charges and excise taxes. Include products shipped on consignment, whether or not sold at the end of the year. Exclude shipments of materials to your toll processor. Include products made for you on a toll basis whether shipped direct from the toll processor or from this plant. Exclude shipments of products made in this establishment on a toll basis for others. Report the amount you received for "commission or toll processing" on line 28, Census product code 93000 85 9.
- Contract Work - Report products made by others for you from your materials on the specific lines as if they were made in this establishment. On the other hand, do not report on the specific product lines products that you made from materials owned by others. Report only the amount that you received for "commission or contract receipts" under Census product code 93000 14 9.
- Resales - Do not report on the specific product lines those products bought and sold or transferred from other establishments of your company and sold without further manufacture. Report only a value under Census product code 99989 00 6, "Resales."

Line No.	Products and services (A)	Census product code	Unit of measure for quantities (C)	Quantity produced for all purposes	Products shipped and other receipts			
		581		582	Quantity	Value, f.o.b. plant (E)		
		(B)			(D-1)	583	584	Thou- sands
1	Copper smelter products (not of commercial grade, produced for further refining either in this plant or in other establishments, including blister or anode copper, matte, speiss, flue dust, residues, etc.)	33311 00 2	Short tons					
2	REFINED PRIMARY COPPER AND COPPER-BASE ALLOY (33312) Cathode	33312 17 4						
3	Other (including wire bar, ingot and ingot bar, cakes, slabs, shot, etc.)	33312 30 7						
4	Copper and copper-base alloy powders, paste, and flakes (copper content only)	33991 33 2	Thousand pounds
