1/Seasonality was detected in the data; therefore, data are adjusted to extract the effects of seasonality from the original series to reveal the series devoid of seasonal effects.

2/Data includes exports, shipments to Alaska, Hawaii, Puerto Rico, offshore military locations, and quantities shipped to consignees. Data excludes shipments of resales and imports from manufacturing establishments.

3/Data are limited to stocks at manufacturing establishments. Prior month end-of-month stocks plus current month production minus current month shipments may not equal current month end-of-month stocks due to breakage, stock adjustments, and resales. Total stocks for the end of a year are shown in December of that year.

4/Data are revised from January to July based on data audits with several reporting establishments. Detailed data will be revised in the 2005 annual summary, tentatively scheduled for release in July 2006.

5/Data are revised based on the summary report, M327G(04)-13, "Glass Containers," issued August 2005.

Note: One thousand gross = 144,000.
