Population Characteristics

The Hispanic Population in the United States: March 1996 (Update)

By John Reed

C E N S U S B U R E A U

P20-502
Issued December 1997

Notice to Users

Last year, the Census Bureau announced its intention to offer more information in electronic format while reducing the number of printed reports. This change is now being implemented for the P20 Current Population Report series. Many P20 reports, such as the Hispanic Population in the United States report, will now be printed less frequently.

Instead, to keep you informed of the major findings from the Current Population Survey (CPS), short data updates will be produced periodically. These will be available in both printed and electronic forms. Additionally, the detailed tabulations that have been part of the printed reports will be updated annually in electronic form on the Internet. If you wish to obtain the new tabulations, updating the *Hispanic Population in the United States: March 1996 (Update)* (Current Population Report, P20-502), please see the "Detailed Tabulations" section at the end of this update.

Our decision to modify the format of the P20 series is based on a variety of factors. Ultimately, we hope this decision will provide users with more timely data on a wider variety of topics. If you have comments about this change or the P20 series in general, please contact us on Internet at: pop@census.gov, or write to: Chief, Population Division, U.S. Bureau of the Census, Washington, DC 20233.

Data Highlights

Detailed tabulations are now available which provide statistics on the civilian noninstitutional Hispanic population of the United States,

based on the March 1996 Current Population Survey. These tables provide information such as:

- An estimated 28.4 million persons of Hispanic origin resided in the United States in 1996, representing 10.8 percent of the total population.
- Persons of Mexican origin were the largest Hispanic group in the United States in 1996, comprising 63 percent of the total Hispanic population.
- About one-half (53 percent) of all Hispanics 25 years and over had at least a high school diploma in 1996.

Detailed Tabulations

A paper version of these tables is available as PPL-72 for \$26.00. The previous tabulation package entitled, "The Hispanic Population in the United States: March 1995" is available as PPL-71 for \$26.00. To receive a paper copy of one or both of these tabulations, please send your request along with a check or money order in the amount of \$26.00 for PPL-72 or \$26.00 for PPL-71, or \$52.00 for both tabulations, payable to **Commerce-Census-88-00-9010**, to U.S. Department of Commerce, Bureau of the Census, P.O. Box 277943, Atlanta, GA 30384-7943, or call our Statistical Information Office on 301-457-2422. Please be certain to specify which PPL you are requesting. A copy of these tabulations will be made available to any existing CPR P20 subscriber without charge, provided that the request is made within 3 months of the issue date of this report. Contact our Statistical Information Office on 301-457-2422.

The electronic version of these tables is available on the Internet, at the Census Bureau's World-Wide Web site (<http://www.census.gov>). Once on the site, click on Subjects A-Z, select "H," then select "Hispanic Origin." On the Hispanic origin page select 1996 March CPS and then select from the list of options.

For additional information on this topic, contact Manuel de la Puente or John Reed, Ethnic and Hispanic Statistics Branch, on 301-457-2403 or via Internet E-mail (mdelapue@census.gov or jreed@census.gov).

The data in the detailed tables are estimates based on a sample survey (the Current Population Survey). All survey data are subject to sampling variability as well as survey design flaws, respondent classification errors, and data processing mistakes. The Census Bureau has taken steps to minimize errors, and analytical statements have been tested and meet statistical standards. However, because of methodological differences, use caution when comparing these data with data from other sources. For information on the source of data and the accuracy of estimates, including the use and computation of standard errors, contact the Demographic Statistical Methods Division (301-457-4214).
