## Data Files

Data files recently released by the Census Bureau

Files available on diskette ("floppies") for IBM compatible microcomputers also are listed.

An ever increasing variety of data files and product information (including this publication) can be accessed via the Internet. (See "Internet New PDF Publications" section for more information.)

# How to Order

## Publications

Most Census Bureau publications are available through the Census Bureau's Customer Services or the Government Printing Office (GPO). They are also available in PDF

format through the Census Bureau's web site. The new publication entries in this *Monthly Product Announcement* direct you to the right source and, if available via Internet, the web site's URL.

Both Customer Services and the GPO accept phone or fax orders when you charge to VISA, MasterCard, or a deposit account. GPO also accepts the Discover card. Both offer express

service for off-the-shelf products for an extra charge when you order by phone.

Generally, if you order 100 copies or more of a publication sent to one address, you may take a 25-percent discount.

## Data Files

To order data files, use the Census Bureau order form or order by phone or fax, unless the entry gives other instructions.

Technical documentation accompanies each file, or it often may be ordered separately, using the Census Bureau form.

Files on computer tape are offered on tape reels or tape cartridges. The tape cartridges are IBM 3480 compatible (operable with StorageTek 4780 tape subsystems and Digital Equipment Corporation VAX TA90 subsystems).

When mass-produced, files on CD-ROM also are listed in the "Data Files" section earlier in this publication. Other tape files can be produced on CD-ROM by special order for the price of the tape. See the discussion under "Data Files."

Some data files are available on diskettes for IBM and compatible microcomputers.

## Priority Service

Customer Services offers priority service for CD-ROMs for an extra \$25 fee when you order by phone or fax. Orders received before 2:00 p.m. eastern time are processed and shipped the same day.

Technical documentation for all products included is associated with that address. Technical documentation for all products included is accessible via the Window software. You can also view your own files through the CountyScope™ window.

The cost for the first metro county is \$400. For the first nonmetro county, assuming no metro counties are included, the cost is \$300. Additional metro counties are \$100, and additional nonmetro counties are \$60 when purchased simultaneously. All of the counties for a metro area will fit on a single CD, except for the five largest metro areas.
