<sup>1</sup>Statistics presented for years ending in 2 and 7 are census data. Interim census years are derived in a representative sample of manufacturing establishments canvassed in the Annual Survey of Manufactures (ASM).

<sup>2</sup>For the census, a company is defined as a business organization consisting of one establishment or more under common ownership or control.

<sup>3</sup>Includes establishments with payroll at any time during the year.

<sup>4</sup>Number of employees figures represent average number of production workers for pay period that includes the 12th of March, May, August, and November plus other employees for payroll period that includes the 12th of March.

Note: The data in this table are based on the 2002 Economic Census and the 2002 Annual Survey of Manufactures (ASM). To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain sampling errors and nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C.

**Table 2. Industry Statistics for Selected States: 2002**

[States that are a disclosure or with less than 100 employees are not shown. Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, explanation of terms, and geographical definitions, see note at end of table. For information on geographic areas followed by \*, see Appendix D. For meaning of abbreviations and symbols, see introductory text]

| Industry and geographic area  | All establishments <sup>2</sup> |       |                           | All employees       |                   | Production workers  |               |                 | Value added (\$1,000) | Total cost of materials (\$1,000) | Total value of shipments (\$1,000) | Total capital expenditures (\$1,000) |
|---|---------------------------------|-------|---------------------------|---------------------|-------------------|---------------------|---------------|-----------------|-----------------------|-----------------------------------|------------------------------------|--------------------------------------|
|   | E <sup>1</sup>                  | Total | With 20 employees or more | Number <sup>3</sup> | Payroll (\$1,000) | Number <sup>3</sup> | Hours (1,000) | Wages (\$1,000) |                       |                                   |                                    |                                      |
| 333312, Commercial laundry, drycleaning, and pressing machine manufacturing |                                 |       |                           |                     |                   |                     |               |                 |                       |                                   |                                    |                                      |
| United States.....  | 1                               | 58    | 24                        | 3 025               | 107 496           | 2 081               | 4 035         | 61 578          | 250 176               | 224 551                           | 479 158                            | 13 586                               |
| Illinois .....  | 1                               | 8     | 4                         | 346                 | 14 712            | 224                 | 497           | 7 025           | 35 336                | 35 724                            | 70 887                             | 910                                  |

<sup>1</sup>Some payroll and sales data for small single-establishment companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate statistics for these small establishments. This technique was also used for a small number of other establishments whose reports were not received at the time data were tabulated. The following symbols are shown where estimated data account for 10 percent or more of the figures shown: 1–10 to 19 percent; 2–20 to 29 percent; 3–30 to 39 percent; 4–40 to 49 percent; 5–50 to 59 percent; 6–60 to 69 percent; 7–70 to 79 percent; 8–80 to 89 percent; 9–90 percent or more.

<sup>2</sup>Includes establishments with payroll at any time during the year.

<sup>3</sup>Number of employees figures represent average number of production workers for pay period that includes the 12th of March, May, August, and November plus other employees for payroll period that includes the 12th of March.

Note: The data in this table are based on the 2002 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C. For geographical definitions, see Appendix D.

**Table 3. Detailed Statistics by Industry: 2002**

[Data based on the 2002 Economic Census and the 2002 Annual Survey of Manufactures (ASM). For information on confidentiality protection, sampling error, nonsampling error, and explanation of terms, see note 2 at end of table. For meaning of abbreviations and symbols, see introductory text]

| Item   | Value              |
|--|--------------------|
| <b>333312, Commercial laundry, drycleaning, and pressing machine manufacturing</b>         |                    |
| Companies <sup>1</sup> .....   | number.. 56        |
| All establishments <sup>2</sup> .....  | number.. 58        |
| Establishments with 1 to 19 employees .....  | number.. 34        |
| Establishments with 20 to 99 employees .....   | number.. 16        |
| Establishments with 100 employees or more .....  | number.. 8         |
| All employees <sup>3</sup> .....   | number.. 3 025     |
| Total compensation .....   | \$1,000.. 131 184  |
| Annual payroll .....   | \$1,000.. 107 496  |
| Total fringe benefits .....  | \$1,000.. 23 688   |
| Production workers, average for year .....   | number.. 2 081     |
| Production workers on March 12 .....   | number.. 2 045     |
| Production workers on May 12 .....   | number.. 2 095     |
| Production workers on August 12 .....  | number.. 2 074     |
| Production workers on November 12 .....  | number.. 2 107     |
| Production worker hours .....  | 1,000.. 4 035      |
| Production worker wages .....  | \$1,000.. 61 578   |
| Total cost of materials .....  | \$1,000.. 224 551  |
| Materials, parts, containers, packaging, etc., used .....                                  | \$1,000.. 205 052  |
| Resales .....  | \$1,000.. 14 233   |
| Purchased fuels .....  | \$1,000.. 1 074    |
| Purchased electricity .....  | \$1,000.. 2 389    |
| Contract work .....  | \$1,000.. 1 803    |
| Quantity of electricity purchased for heat and power .....                                 | 1,000 kWh.. 36 756 |
| Quantity of electricity generated less sold for heat and power .....                       | 1,000 kWh.. -      |
| Total value of shipments .....   | \$1,000.. 479 158  |
| Primary products value of shipments .....  | \$1,000.. 451 020  |
| Secondary products value of shipments .....  | \$1,000.. 2 025    |
| Total miscellaneous receipts .....   | \$1,000.. 26 113   |
| Value of resales .....   | \$1,000.. 20 491   |
| Contract receipts .....  | \$1,000.. 555      |
| Other miscellaneous receipts .....   | \$1,000.. 5 067    |
| Primary products specialization ratio .....  | percent.. 100      |
| Value of primary products shipments made in all industries .....                           | \$1,000.. 574 375  |
| Value of primary products shipments made in this industry .....                            | \$1,000.. 451 020  |
| Value of primary products shipments made in other industries .....                         | \$1,000.. 123 355  |
| Coverage ratio .....   | percent.. 79       |
| Value added .....  | \$1,000.. 250 176  |
| Total inventories, beginning of year .....   | \$1,000.. 91 505   |
| Finished goods inventories .....   | \$1,000.. 27 345   |
| Work-in-process inventories .....  | \$1,000.. 14 835   |
| Materials and supplies inventories .....   | \$1,000.. 49 325   |
| Total inventories, end of year .....   | \$1,000.. 82 320   |
| Finished goods inventories .....   | \$1,000.. 24 516   |
| Work-in-process inventories .....  | \$1,000.. 13 233   |
| Materials and supplies inventories .....   | \$1,000.. 44 571   |
| Gross value of depreciable assets (acquisition costs) at beginning of year .....           | \$1,000.. 149 945  |
| Total capital expenditures (new and used) .....  | \$1,000.. 13 586   |
| Buildings and other structures (new and used) .....  | \$1,000.. 1 509    |

| Management consulting and administrative services <sup>4</sup> .....                       | \$1,000.. 742      |
| Taxes and license fees <sup>4</sup> .....  | \$1,000.. 4 767    |
| All other expenses <sup>4</sup> .....  | \$1,000.. 13 400   |

<sup>1</sup>For the census, a company is defined as a business organization consisting of one establishment or more under common ownership or control.

<sup>2</sup>Includes establishments with payroll at any time during the year.

<sup>3</sup>Number of employees figures represent average number of production workers for pay period that includes the 12th of March, May, August, and November plus other employees for payroll period that includes the 12th of March.

<sup>4</sup>Based on 2002 Annual Survey of Manufactures (ASM) sample data.

<sup>5</sup>A response coverage ratio is derived for this item by calculating the ratio of the weighted employment (establishment data multiplied by sample weight) for those Annual Survey of Manufactures (ASM) establishments that reported to the weighted total employment for all ASM establishments classified in this industry.

Note 1: The amounts shown for other expenses reflect only those services that establishments purchase from other companies.

Note 2: The data in this table are based on the 2002 Economic Census and the 2002 Annual Survey of Manufactures (ASM). To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain sampling errors and nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C.

**Table 4. Industry Statistics by Employment Size: 2002**

[Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, and explanation of terms, see note at end of table. For meaning of abbreviations and symbols, see introductory text]

| Employment size class   | E <sup>1</sup> | All establishments <sup>2</sup> | All employees       |                   | Production workers  |               |                 | Value added (\$1,000) | Total cost of materials (\$1,000) | Total value of shipments (\$1,000) | Total capital expenditures (\$1,000) |
|---|----------------|---------------------------------|---------------------|-------------------|---------------------|---------------|-----------------|-----------------------|-----------------------------------|------------------------------------|--------------------------------------|
|   |                |                                 | Number <sup>3</sup> | Payroll (\$1,000) | Number <sup>3</sup> | Hours (1,000) | Wages (\$1,000) |                       |                                   |                                    |                                      |
| 333312, Commercial laundry, drycleaning, and pressing machine manufacturing |                |                                 |                     |                   |                     |               |                 |                       |                                   |                                    |                                      |

<sup>1</sup>Some payroll and sales data for small single-establishment companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate statistics for these small establishments. This technique was also used for a small number of other establishments whose reports were not received at the time data were tabulated. The following symbols are shown where estimated data account for 10 percent or more of the figures shown: 1–10 to 19 percent; 2–20 to 29 percent; 3–30 to 39 percent; 4–40 to 49 percent; 5–50 to 59 percent; 6–60 to 69 percent; 7–70 to 79 percent; 8–80 to 89 percent; 9–90 percent or more.

<sup>2</sup>Includes establishments with payroll at any time during the year.

<sup>3</sup>Number of employees figures represent average number of production workers for pay period that includes the 12th of March, May, August, and November plus other employees for payroll period that includes the 12th of March.

<sup>4</sup>Some payroll and sales data for small single-establishment companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate statistics for these small establishments. Data are also included in respective size classes shown.

Note: The data in this table are based on the 2002 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C.

Note 1: For some establishments, data have been estimated from central unit values that are based on quantity-value relationships of reported data. The following symbols are used when percentage of each quantity figure estimated in this manner equals or exceeds 10 percent of published figure: p-10 to 19 percent estimated; q-20 to 29 percent estimated. If 30 percent or more is estimated, figure is replaced by S.

Note 2: The data in this table are based on the 2002 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C.

Table 6b. **Product Class Shipments for Selected States: 2002 and 1997**

[Not applicable for this report.]

**Table 7. Materials Consumed by Kind: 2002 and 1997**

[Includes quantity and cost of materials consumed or put into production by establishments classified only in this industry. Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, and explanation of terms, see note 2 at end of table. For meaning of abbreviations and symbols, see introductory text]
