GENERAL INSTRUCTIONS FOR EACH SECTION
(Use your unique username and password provided to report via Internet: econhelp.census.gov/bps)
(Answers to Frequently Asked Questions can be found at www.census.gov/permitsfaq)

1. PERIOD IN WHICH PERMITS WERE ISSUED – Include all privately-owned residential permits which were authorized during the month or year shown.

2. GEOGRAPHIC COVERAGE – If there has been a change in the area covered by your office, enter explanations in space provided next to selections 051–054 as applicable. If more space is needed, continue in Section 5. To review our latest information on your office’s coverage, see www.census.gov/construction/bps/pdf/footnote.pdf. Report discrepancies by either entering in Section 5, calling 1–800–845–8244 with the information or e-mailing us at EID.RCB.BPS@census.gov.

051 (Discontinued) – Permits are no longer required, by law, to build new residential buildings (i.e., new homes, new apartments).

052 (Merged) – Another jurisdiction has taken over the responsibility of issuing permits for your office; your office has taken over the responsibility of issuing permits for another office.

053 (Split) – Permit office no longer covers a particular jurisdiction because: (1) that area now issues its own building permits; (2) another jurisdiction issues the permits for that area; or (3) that area no longer requires permits.

054 (Extraterritorial Jurisdiction (ETJ)/Annexation) – Permit office is now responsible for additional land area outside of its original boundaries. Also include new housing units permitted in the annexed land area/ETJ in Section 3. Also report in Section 5, if your permit office officially changed its name, had a spelling correction, or political description change (i.e., from town to city, city to village, etc.).

3. NEW HOUSING UNITS – Summarize information for number of buildings, number of housing units, and valuation of construction as shown on the building or zoning permit. Enter the valuation as shown on the permit. If no valuation is listed, enter the best estimated value. If no value is required, annotate in Section 5. When the acronym "NVR" (No Value Required) appears in the address label area, comments referencing value are no longer necessary.

INSTRUCTIONS FOR CLASSIFYING RESIDENTIAL BUILDINGS

Residential buildings are buildings containing one or more housing units. A housing unit is a house, an apartment, a group of rooms or a single room intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants live separately from any other individuals in the building and which have a direct access from the outside of the building or through a common hall.

Some jurisdictions issue separate permits for individual units of a multifamily building. In this case, report the total number of units expected in a multifamily building when the first units are authorized. If the total number of buildings, units and valuation for the entire project is unknown, indicate in Section 5 or contact our staff. Do NOT report permits for individual units in multifamily buildings separately.

Some jurisdictions issue building permits for residential construction in phases: foundation, shell or superstructure, and interior finishing. In this case, include the number of buildings, housing units and valuation for the intended building when the shell or superstructure permit is issued. Include foundation and interior finishing permits only when issued separately and a valuation of construction is available. In these two cases, enter the valuation in Section 3b–e, depending on the number of housing units in the intended superstructure, and zero for the buildings and units.

PERMITS TO INCLUDE

- Enter a building in only one category in Section 3. If you cannot determine a category, please call our staff.
- If a building has mixed residential and nonresidential use, enter the housing units based on the residential portion of the building. Please estimate the valuation based on the residential portion of the building only.
- Classify all buildings that are being totally rebuilt on an existing foundation as new construction.
- Type of ownership (e.g. condominium, cooperative, timeshare, etc.) is NOT considered when classifying a building.
