

FOR RELEASE AT 8:30 AM EDT, TUESDAY, APRIL 17, 2018

MONTHLY NEW RESIDENTIAL CONSTRUCTION, MARCH 2018

Release Number: CB18-58

April 17, 2018 - The U.S. Census Bureau and the U.S. Department of Housing and Urban Development jointly announced the following new residential construction statistics for March 2018:

Building Permits

Privately-owned housing units authorized by building permits in March were at a seasonally adjusted annual rate of 1,354,000. This is 2.5 percent (± 1.4 percent) above the revised February rate of 1,321,000 and is 7.5 percent (± 1.4 percent) above the March 2017 rate of 1,260,000. Single-family authorizations in March were at a rate of 840,000; this is 5.5 percent (± 1.5 percent) below the revised February figure of 889,000.

Authorizations of units in buildings with five units or more were at a rate of 473,000 in March.

Housing Starts

Privately-owned housing starts in March were at a seasonally adjusted annual rate of 1,319,000. This is 1.9 percent (± 12.4 percent)* above the revised February estimate of 1,295,000 and is 10.9 percent (± 10.0 percent) above the March 2017 rate of 1,189,000. Single-family housing starts in March were at a rate of 867,000; this is 3.7 percent (± 11.8 percent)* below the revised February figure of 900,000. The March rate for units in buildings with five units or more was 439,000.

Housing Completions

Privately-owned housing completions in March were at a seasonally adjusted annual rate of 1,217,000. This is 5.1 percent (± 16.0 percent)* below the revised February estimate of 1,282,000, but is 1.9 percent (± 13.4 percent)* above the March 2017 rate of 1,194,000. Single-family housing completions in March were at a rate of 840,000; this is 4.7 percent (± 12.3 percent)* below the revised February rate of 881,000. The March rate for units in buildings with five units or more was 371,000.

The April report is scheduled for release on May 16, 2018. View the full schedule in the Economic Briefing Room: <www.census.gov/economic-indicators/>. The full text and tables for this release can be found at <www.census.gov/construction/nrc/>.

NOTICE

With the April 2018 release, seasonally adjusted estimates of housing units authorized by building permits will be revised back to January 2012, and seasonally adjusted estimates of housing units authorized but not started, started, under construction, and completed will be revised back to January 2013. With each April release, seasonally adjusted data will now be revised for an additional five years beyond the revision period for unadjusted data. Research has shown that this revision span should produce more reliable seasonally adjusted time series.

EXPLANATORY NOTES

In interpreting changes in the statistics in this release, note that month-to-month changes in seasonally adjusted statistics often show movements which may be irregular. It may take three months to establish an underlying trend for building permit authorizations, six months for total starts, and five months for total completions. The statistics in this release are estimated from sample surveys and are subject to sampling variability as well as nonsampling error including bias and variance from response, nonreporting, and undercoverage. Estimated relative standard errors of the most recent data are shown in the tables. Whenever a statement such as “2.5 percent (± 3.2 percent) above” appears in the text, this indicates the range (-0.7 to +5.7 percent) in which the actual percentage change is likely to have occurred. All ranges given for percentage changes are 90 percent confidence intervals and account only for sampling variability. If a range does not contain zero, the change is statistically significant. If it does contain zero, the change is not statistically significant; that is, it is uncertain whether there was an increase or decrease. The same policies apply to the confidence intervals for percentage changes shown in the tables. On average, the preliminary seasonally adjusted estimates of total building permits, housing starts and housing completions are revised 2.1 percent or less. Explanations of confidence intervals and sampling variability can be found on our website.

API

The Census Bureau’s application programming interface lets developers create custom apps to reach new users and makes key demographic, socio-economic and housing statistics more accessible than ever before. <www.census.gov/developers/>

FRED Mobile App

Receive the latest updates on the nation’s key economic indicators by downloading the FRED App <<https://fred.stlouisfed.org/fred-mobile/>> for both Apple and Android devices. FRED, the signature database of the Federal Reserve Bank of St. Louis, now incorporates the Census Bureau’s 13 economic indicators.

###

* The 90 percent confidence interval includes zero. In such cases, there is insufficient statistical evidence to conclude that the actual change is different from zero.
