

2007 Survey of Business Owners

Release Date: 4/1/2011

Table 5. Summary Statistics for Native Hawaiian- and Other Pacific Islander-Owned (NHOPI-Owned) Firms by State (Percent Changes): 2002 to 2007

NOTE. The data include firms with paid employees and firms with no paid employees. Data are based on the 2007 Economic Census, and the estimates of business ownership by gender, ethnicity, race, and veteran status are based on the 2007 Survey of Business Owners. Detail may not add to total due to rounding or because a Hispanic firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate, but only once in the U.S. and state totals for all sectors. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Introductory Text and Survey Methodology at <http://www.census.gov/econ/sbo>.

These data are available in comma separated value (CSV) format at http://www2.census.gov/econ/sbo/07/final/tables/nhopi_table5.csv.

2007 Survey of Business Owners

Release Date: 4/1/2011

Table 5. Summary Statistics for Native Hawaiian- and Other Pacific Islander-Owned (NHOPI-Owned) Firms by State (Percent Changes): 2002 to 2007

NOTE. The data include firms with paid employees and firms with no paid employees. Data are based on the 2007 Economic Census, and the estimates of business ownership by gender, ethnicity, race, and veteran status are based on the 2007 Survey of Business Owners. Detail may not add to total due to rounding or because a Hispanic firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate, but only once in the U.S. and state totals for all sectors. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Introductory Text and Survey Methodology at <http://www.census.gov/econ/sbo>.

These data are available in comma separated value (CSV) format at http://www2.census.gov/econ/sbo/07/final/tables/nhopi_table5.csv.

Release Date: 4/1/2011

Table 5. Summary Statistics for Native Hawaiian- and Other Pacific Islander-Owned (NHOPI-Owned) Firms by State (Percent Changes): 2002 to 2007

NOTE. The data include firms with paid employees and firms with no paid employees. Data are based on the 2007 Economic Census, and the estimates of business ownership by gender, ethnicity, race, and veteran status are based on the 2007 Survey of Business Owners. Detail may not add to total due to rounding or because a Hispanic firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate, but only once in the U.S. and state totals for all sectors. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Introductory Text and Survey Methodology at <http://www.census.gov/econ/sbo>.

These data are available in comma separated value (CSV) format at http://www2.census.gov/econ/sbo/07/final/tables/nhopi_table5.csv.

Release Date: 4/1/2011

Table 5. Summary Statistics for Native Hawaiian- and Other Pacific Islander-Owned (NHOPI-Owned) Firms by State (Percent Changes): 2002 to 2007

NOTE. The data include firms with paid employees and firms with no paid employees. Data are based on the 2007 Economic Census, and the estimates of business ownership by gender, ethnicity, race, and veteran status are based on the 2007 Survey of Business Owners. Detail may not add to total due to rounding or because a Hispanic firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate, but only once in the U.S. and state totals for all sectors. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Introductory Text and Survey Methodology at <http://www.census.gov/econ/sbo>.
