

Match Ratio of 2010 Census and Administrative Records Persons by County

The Census Bureau is researching ways to utilize administrative records data in its decennial census and surveys. This map assesses the coverage of person data in select administrative records and third party data sources compared to the 2010 Census. Many midwestern and northeastern counties had high person match ratios. The lower match ratios were in counties in the South and particularly in the West. For the full report, see https://www.census.gov/2010census/pdf/2010_Census_Match_Study_Report.pdf.

Percents and Number of Counties

95.0 or more	N = 208
90.0 to 94.9	N = 1,611
85.0 to 89.9	N = 988
80.0 to 84.9	N = 249
Less than 80.0	N = 87

U.S. Ratio 88.6
