

Figure 4.

Percentage of Children Under the Age of 19 Without Health Insurance Coverage by Selected Characteristics: 2020 and 2021

(Population as of March of the following year, children under age 19)

* Denotes a statistically significant change between 2020 and 2021 at the 90 percent confidence level.

¹ Federal surveys give respondents the option of reporting more than one race. Therefore, two basic ways of defining a race group are possible. A group, such as Asian, may be defined as those who reported Asian and no other race (the race-alone or single-race concept) or as those who reported Asian regardless of whether they also reported another race (the race-alone-or-in-combination concept). This table shows estimates for the race-alone population.

² Medicaid expansion status as of January 1, 2021. Expansion states on or before January 1, 2021, include AK, AR, AZ, CA, CO, CT, DC, DE, HI, IA, ID, IL, IN, KY, LA, MA, MD, ME, MI, MN, MT, ND, NE, NH, NJ, NM, NV, NY, OH, OR, PA, RI, UT, VA, VT, WA, and WV.
