Subject: 2013 American Community Survey Questionnaire Design Test Final
Report

Attached is the final American Community Survey Research and Evaluation report "2013 American Community Survey Questionnaire Design Test." This report summarizes the results of the Questionnaire Design Test (QDT) focused on two of the four experimental forms tested in QDT. The analysis of the other forms can be found in separate reports by Jamie Lewis Thomas in SEHSD and Stephanie Baumgardner in ACSO.

If you have any questions about this report, please contact Anne Wakim at 301-763-4296 or Jennifer Tancreto at 301-763-4250.

EXECUTIVE SUMMARY

Objective

During the 2010 American Community Survey (ACS) Content Test, the Census Bureau determined that the ACS paper questionnaire did not contain enough space to accommodate proposed content changes. Thus, we needed to test alternative questionnaire designs to accommodate future content needs on the ACS questionnaire.

In the 2013 Questionnaire Design Test, we studied the effect of a longer (36-page) questionnaire against our current 28-page form. We also studied whether changing the size of the form to a standard size (8.5" x 11") booklet of 44 pages affected response, compared to both the current 28-page and 36-page booklet forms, which are both 10.25" x 10.5" booklets.

Methodology

We implemented an experimental test with the July 2013 ACS panel data collection, running for approximately two months. Sampled households in each treatment received the standard ACS mailings. The only mailing piece that differed by treatment was the second mailing package, which included the modified paper questionnaires for this test. The test did not include Failed Edit Follow-up, Computer-Assisted Telephone Interviewing or Computer-Assisted Personal Interviewing.

We designed this test to determine which questionnaire format achieved the same or better self-administered response rates (mail response alone and Internet and mail response combined) as compared to the Control. Additionally, we examined item missing data rates and response distributions for selected questions which differed in appearance or location among the mail questionnaires to identify differences between the experimental treatments and the Control.

Research Questions and Results

- *Does changing the questionnaire format impact self-administered response rates?*

We conclude that the length or format of the tested mail questionnaires did not impact response rates since there were no significant differences in mail or overall self-administered response rates between the three treatments after both one and two months of data collection.

- *Does changing the questionnaire format impact item missing data rates of questions most affected by the new format?*

Changes to the questionnaire format did not have a consistent impact on item missing data rates for either the 36-page treatment or the 44-page treatment when compared to the 28-page form.

For each item included in the analysis, we made two comparisons. First, we compared the 36-page and the 44-page treatments to each other. Next, the treatment with the lower item missing data rate was compared to the Control. For mail responses, the 44-page questionnaire did have significantly lower item missing data rates than the 36-page for several questions.

There also were a few questions where the 36-page treatment had significantly lower item missing data rates compared to the Control. However, there were no consistent patterns in the results, so we cannot conclude that one questionnaire performed better than another questionnaire.

- *Does changing the questionnaire format impact response distributions of questions most affected by the new format?*

On an item-by-item basis, we did find some significant differences when comparing the response distributions between the two experimental treatments and the Control. However, we found no clear patterns to indicate that the response distributions were consistently impacted by the changes to the questionnaire format.

1. BACKGROUND

During the 2010 American Community Survey (ACS) Content Test, the Census Bureau determined that the ACS paper questionnaire did not contain enough space to accommodate proposed content changes. Thus, we tested alternative questionnaire designs to accommodate future content needs on the ACS questionnaire.

In the 2013 Questionnaire Design Test (QDT), we studied the effect of a longer (36-page) questionnaire against our current 28-page form. Heberlein and Baumgartner (1978) compiled many questionnaire studies and compared those studies for their effects on response rates. One aspect they looked at was the length of the questionnaire: number of pages, number of questions, and time to complete. After comparing 98 studies, they found that the number of pages was not significantly related to the response rate. A more recent study tested a 28-page questionnaire versus a 32-page questionnaire (Koloski *et al.*, 2001) and showed there was no significant difference between the two response rates. However, a study by Champion and Sear (1969) which tested three, six, and nine page surveys, found that the longer questionnaires (six and nine pages) actually had higher response rates than the shorter three-page questionnaire, which seems counter-intuitive. However, that study kept the same number of questions for each survey (as we did for the QDT), while changing the format for each questionnaire, which resulted in the longer questionnaires having more space between questions.

In the QDT, we also studied whether changing the size of the questionnaire from the current 28-page and experimental 36-page booklets (10.25" x 10.5") to a standard size (8.5" x 11") booklet affected response. Two studies (Childers and Ferrell, 1979; Johnson *et al.*, 1993) focused on response rates based on different page sizes for questionnaires using an 8.5" x 11" against a different non-standard size (8.5" x 14" and 8.5" x 5.5"). In both cases, the standard size survey 8.5" x 11" had significantly higher response rates than the non-standard size. Dillman *et al.* (2009) states that pages should be "taller than they are wide" (pg. 185) since that is the conventional format people are used to handling.

The QDT was designed primarily to help the Census Bureau decide which questionnaire format performed best on response and data quality measures. The QDT also included two additional research objectives. The first was to make the ACS questionnaire more compatible with Optical Character Recognition (OCR) software by altering the response box formats for numeric write-in fields to allow automated capture rather than keying. Currently, the ACS does not use the OCR technology available at the National Processing Center (NPC). This test looked at the quality of OCR by comparing responses obtained from keying versus OCR as a method of capture. Second, this test included one variation in the relationship and marital status questions per the Office of Management and Budget (OMB) initiative to ensure these questions provide improved measurement of coupled households (whether married or unmarried, opposite-sex or same-sex, as well as registered domestic partnerships). The results from these two additional research objectives are covered under two separate ACS Research and Evaluation (R&E) reports entitled "Evaluation of the Use of Optical Character Recognition (OCR) to Capture American Community Survey Numeric Write-ins in the 2013 Questionnaire Design Test" and "Testing Alternative Relationship and Marital Status Questions in the 2013 ACS Questionnaire Design Test."

2. METHODOLOGY

2.1 Test Overview

The initial stages of the test consisted of questionnaire design and cognitive laboratory pretesting. The cognitive testing used older respondents with low education levels since these are known characteristics associated with responding by paper rather than the Internet (Tancreto *et al.*, 2012). Most cognitive testing respondents had neutral reactions when completing the various forms and thought the questionnaires were equally easy to complete (Terry, 2013).

We implemented the experimental field test portion of the 2013 QDT for two months with the July 2013 ACS sample panel. Sampled households in each treatment received the standard ACS mailings:

- Pre-notice letter
- Initial mailing with an invitation to respond via Internet (no paper questionnaire)
- Reminder postcard
- Second mailing package which includes a paper questionnaire and an invitation to respond via Internet
- Second reminder postcard
- Additional reminder postcard for nonrespondents without phone numbers

The only mailing piece that differed by treatment was the second mailing package, which included the modified paper questionnaires for this test. The test did not include Failed Edit Follow-up (FEFU), Computer-Assisted Telephone Interviewing (CATI) or Computer-Assisted Personal Interviewing (CAPI). We designed this test to determine which questionnaire format achieved the same or better self-administered response rates (mail response alone and Internet and mail response combined) as compared to the Control. Additionally, we examined whether either of the test questionnaire formats performed better than the Control for item missing data rates and response distributions for selected questions on the forms. We analyzed only those questions with a substantial layout change on one or more treatments that could affect response behavior. Our primary focus was on the item missing data rates for mail responses, since there were no design changes to the Internet instrument.

2.2 Experimental Treatments

For this analysis, there were three treatment groups. We did not modify any of the 2013 ACS content for the treatments covered in this report. All questionnaires included a test URL different from the production URL for the Internet option in order to keep the test data separate from production data. Otherwise, the Internet instrument was identical to the production instrument.

Treatment 1: 28-Page Questionnaire (Control Treatment)

This treatment served as the control for all treatments. This questionnaire was identical to the 2013 ACS production questionnaire with 28 pages and page dimensions of 10.25" x 10.5" except for minor test-specific differences (unrelated to questionnaire design) that were made to all questionnaires in the test¹. See Attachment A for a copy of the questionnaire.

Treatment 2: 36-Page Questionnaire

For this treatment, the mail questionnaire was 36 pages with the current ACS page dimensions of

¹ All QDT questionnaires had test-specific URLs, OMB form numbers and approval information, as well as a test-specific contact phone number for Telephone Questionnaire Assistance.

10.25" x 10.5". Like the questionnaires in the production ACS and the Control treatment, we folded the questionnaire for mailing and mailed it in an 11.5" x 6" envelope. The layouts of the basic demographic and housing sections were identical to those sections on the 28-page Control questionnaire. The detailed demographics section contained an extra page for each of the five person sections on the form, increasing the number of pages to five per person. We distributed the same detailed person questions across the five pages, allowing for more spacing between questions on all pages, as compared to the Control questionnaire. Since the booklet format requires us to add pages in increments of four, the increase in the number of pages for the detailed person questions resulted in a total of eight additional pages. Therefore, at the end of the questionnaire, we had three blank pages with a note indicating that the pages were left blank intentionally. See Attachment B for a copy of the questionnaire.

Treatment 3: 44-page (8.5" x 11") Questionnaire

For this treatment, the mail questionnaire was 44 pages with standard letter paper dimensions of 8.5"x11". The questionnaire was mailed flat in a 9" x 11 5/8" envelope since it could not be folded without damaging the form. We reformatted all sections of the form to accommodate the smaller page dimensions but the content remained the same as the 28-page Control and the 36-page questionnaire. The basic demographic section at the front of the questionnaire remained at two columns per page, with each column approximately one inch narrower than the Control form. The housing and detailed persons sections decreased from three columns per page to two, with each column approximately half an inch wider than in the Control. The changes in the width of the columns, as compared to the Control, resulted in many questions having word wrapping that differs from the Control and the 36-page questionnaires. The housing section increased from three pages to four, and the detailed person section increased from five pages to seven pages per person. See Attachment C for a copy of the questionnaire.

2.3 Sample Design

Each of the two experimental treatments and the Control had a sample of 10,000 mailable addresses resulting in 30,000 total mailable sample addresses selected for our analysis. We used a nearest neighbor sampling approach for random allocation among the treatments.² Sample sizes were designed to measure a 2.23 percentage point difference in the overall self-response rates among the treatments, at the $\alpha=0.10$ level, controlling for three comparisons.

The QDT was the first Methods Panel test to select a separate control sample instead of using the corresponding ACS production monthly panel for the Control. We required a test specific URL for our Internet application to keep our test data separate from production data. We were concerned that response rates, specifically Internet response rates, may be depressed in the QDT treatment groups because the ACS home page or an Internet search engine would misdirect respondents to the production application. If we had used the ACS production panel as the Control for the QDT (as we have in past Methods Panel tests), the Control group would have had the advantage of being able to log in to the production instrument more conveniently than logging into the test instrument. We tried to reduce the effects of respondents being misdirected to the production instrument by rendering a login error and simultaneously, and somewhat transparently, redirecting them to the correct QDT login page. A comparison of response between the Control and ACS production confirmed that the overall self-response rate (as of July, 2013³) was significantly higher for production cases. The difference in overall self-response rates between production and the Control was 1.1 percent (SE 0.5 percent). While there was no significant difference in the mail response rates, the Internet response rates for ACS Production was 1.1 percentage points higher (SE 0.5 percent) than our Control, supporting our hypothesis that the

² Samples of 10,000 addresses were also selected for the other two experimental treatments for a total of 50,000 addresses in the QDT. The random allocation was done among the four experimental treatments and the Control.

³ We can only compare through the end of July since CATI started on August 1 for ACS production. CATI calls serve as reminders for respondents to complete their ACS survey, thus affecting the self-response rates. The QDT did not have CATI.

advantages in the ease of finding and logging into the production URL would result in higher Internet response for production respondents.

2.4 Research Questions

In advance of the test, we identified a series of research questions to help assess the success of the various treatments. We list the research questions here, and provide answers to these questions in Section 4 of this report.

- Does changing the questionnaire format impact self-administered response rates?
- Does changing the questionnaire format impact item missing data rates of questions most affected by the new format?
- Does changing the questionnaire format impact response distributions of questions most affected by the new format?

2.5 Analysis Design

The test followed a typical one-month ACS mailing strategy to collect self-response data. The initial mailing with an invitation to respond via Internet (no paper questionnaire) was sent on June 24, 2013. The paper questionnaires were included in the second package mailed on July 11, 2013. Data collection ran for two months, ending on August 29 (49 days after the mailing of the paper questionnaire). This allowed sufficient time for the receipt of mail responses, the primary focus of QDT. There were no CATI or CAPI nonresponse follow-up operations for any of the treatments. We calculated estimates after one month and two months of data collection. Since our analysis concentrated on the mail response rates, the primary comparisons for this test are based on the two-month estimates. The one-month estimates are also of interest to assess the response rates we might expect prior to the start of CATI in a normal ACS production environment.

The analyses of self-response rates and item missing data rates used t-tests for the comparisons, where adjustments were made for multiple comparisons. To analyze self-response rates, we used the Bonferroni-Holm Multiple Comparison Procedure⁴, which is a modification of the simple Bonferroni procedure. To analyze item missing data rates we used the simple Bonferroni procedure since we only had two comparisons. We used Rao-Scott chi-square tests to analyze the item response distributions. All results were weighted to reflect the probability of selection into the sample.

2.5.1 Self-response Rate Analysis

We analyzed combined self-response rates reflecting responses across all self-response modes (Internet, mail and Telephone Questionnaire Assistance (TQA)⁵). We also analyzed response rates separately for the mail (including TQA⁶) and Internet modes. We focused on the differences in response rates for the mail mode between treatments because the paper questionnaire was the only difference in the mailing pieces. However, it is not enough to look at the impact on mail response rates only. We also assessed the potential impact of the paper questionnaire on overall response. The questionnaires people received may have influenced them to respond by Internet rather than paper, or they may have been

⁴ A simple Bonferroni adjustment keeps the experiment-wise error rate at $\alpha = 0.10$ by dividing the acceptable α - level by the number of comparisons. The Bonferroni-Holm Multiple Comparison procedure is a more powerful modification of the simple Bonferroni procedure which also keeps the experiment-wise error rate at $\alpha = 0.10$ (Westfall *et al.*, 1999).

⁵ TQA allows respondents to call a toll-free number to receive help completing the survey. Respondents can either complete the mail or Internet form or complete it over the phone with a TQA interviewer.

⁶ TQA responses were included as mail responses, as they are in ACS production.

discouraged from responding at all, and thus the paper questionnaire would have affected overall response.

To analyze combined self-response, we calculated the overall self-administered response rate for each treatment as the percent of mailable and deliverable⁷ addresses with a non-blank⁸ mail or TQA response or a complete or sufficient partial⁹ Internet response, as follows:

$$\text{Overall Self-administered Response Rate} = \frac{\text{\# of mailable and deliverable sample addresses that provided a non-blank return by mail or TQA, or a complete or sufficient partial response by Internet}}{\text{Total \# of mailable and deliverable sample addresses}} * 100$$

This rate is different from most response rates that ACS publishes since the lack of a CAPI mode means that we cannot identify vacant and nonexistent housing units for removal from the rate's denominator.¹⁰

In addition to the overall self-response, we analyzed response by mail and Internet separately, using similar definitions. If a household responded by both mail and Internet, it was counted as a mail response only.

To analyze response by mail, we calculated the Mail Response Rate as:

$$\text{Mail Response Rate} = \frac{\text{\# of mailable and deliverable sample addresses that provided a non-blank return by mail or TQA}}{\text{Total \# of mailable and deliverable sample addresses}} * 100$$

To analyze response by Internet, we calculated the Internet Response Rate as:

$$\text{Internet Response Rate} = \frac{\text{\# of mailable and deliverable sample addresses that provided a complete or sufficient partial return by Internet}}{\text{Total \# of mailable and deliverable sample addresses}} * 100$$

We made the following three comparisons:

- 36-page compared to 44-page
- 36-page compared to Control
- 44-page compared to Control

To test for significant differences between the treatments, we used t-tests with adjustments for multiple comparisons using the Bonferroni-Holm Multiple Comparison Procedure to keep the experiment-wise error rate to $\alpha = 0.10$. For each comparison, the better treatment is the one with the significantly higher

⁷ Unless a response was received, we removed any address where the initial or second mailing was returned by the Postal Service as Undeliverable As Addressed from the universe of mailable and deliverable households.

⁸ A blank form is one in which there are no data defined persons and no usable telephone number provided by the respondent. To qualify as a data defined person, enough data must be provided for the person to meet certain minimum requirements established for the ACS.

⁹ A sufficient partial interview is one in which the respondent reached the *pick next person* screen for households with two or more persons OR the *place of birth* screen for households with only one person, but did not reach the *presummary* screen.

¹⁰ This will cause the response rate to be lower than if we were able to identify vacant and nonexistent units.

self- response rate. If both test treatments are significantly better than the Control, the winning test treatment is the one with the higher self-administered response rate.

2.5.2 Item Missing Data Rate Analysis

For this analysis, we included only those questions with a substantial layout change on one or more treatments that could possibly affect response behavior. Staff in the Decennial Statistical Studies Division (DSSD) and the American Community Survey Office (ACSO) worked together with subject matter experts in the Population Division (POP) and Social, Economic and Housing Statistics Division (SEHSD) to determine the specific ACS questions to evaluate. We should note that we had no hypothesis for any of the questions that the format changes would actually result in differential missing data.

The focus of our analysis was the Mail Item Missing Data Rate, which includes only mailable and deliverable addresses that provided a nonblank return by mail. The rate was computed as follows:

$$\text{Mail Item Missing Data Rate} = \frac{\text{\# of missing responses to question, for mail mode}}{\text{\# of households or people in question's universe, for mail mode}} * 100$$

We also calculated an Overall Item Missing Data Rate, using mailable and deliverable addresses that provided a nonblank return¹¹ by mail or Internet¹², as follows:

$$\text{Overall Item Missing Data Rate} = \frac{\text{\# of missing responses to question, over all modes}}{\text{\# of households or people in question's universe, over all modes}} * 100$$

We analyzed overall item missing data rates to assess the potential impact that changes to the form design could have on the ACS estimates. Note, however, that production ACS includes the results of CATI and CAPI, which are not reflected in the QDT estimates.

We applied the Content Reinterview Survey (CRS) (Murphy, 2012) analysis universe definitions since those definitions were discussed in detail for the CRS with the POP and SEHSD subject matter experts. If the responses necessary to make universe determinations were missing, we excluded the person or household from the calculation of the item missing data rate.

For each of these questions, we made the following comparisons for the item missing data rates:

- 36-page to 44-page
- Winning test treatment compared to Control

Our analysis identified those items with significant differences in item missing data rates between treatments. The better treatment for a given item was the one with the lower item missing data rate. Ideally, we would have liked to compare both experimental treatments to the Control. However, we did not have sufficient statistical power to make three comparisons. Therefore, we picked a winner between the 36-page and the 44-page to compare to the Control on an item-by-item basis. The winner

¹¹ Because this is a test of mail questionnaire design, we used the mail return data if there were both mail and Internet responses for an address.

¹² We did not get data from TQA responses for this analysis, so we exclude them from the item missing data rates.

between the 36-page and 44-page is the treatment with the lower item nonresponse rate, even if the difference is not significant.

2.5.3 Response Distribution Analysis

For this analysis, we studied the same questions chosen for the analysis of item missing data rates. We estimated response distributions for the selected questions and performed Rao-Scott chi-square tests to determine if the response distributions differed between treatments. Our focus was on the response distributions for mail responses. We made the following comparisons:

- 36-page to Control
- 44-page to Control

3. ASSUMPTIONS AND LIMITATIONS

3.1 Assumptions

Because this is a test of mail questionnaire design, we selected the returned mail questionnaire when there was both a mail and an Internet response for an address. There were 63 duplicate (mail and Internet) responses for the 36-page treatment, 62 for the 44-page, and 83 for the Control.

3.2 Limitations

We computed item missing data rates using pre-edited data, so the rates do not reflect final ACS item allocation rates. Since we did not check for responses such as “don’t know” or “refuse”, the item missing data rates could be slightly underestimated for items that require an open-ended write-in response (Ancestry, Field of Degree, Industry and Occupation). During the normal editing process, such responses would have been identified and subjected to imputation as nonresponses.

If the responses necessary to determine if a household or person belongs in the universe for a given question are missing, the person or household was excluded from the calculation of the item missing data rate. Therefore, when a respondent break-offs, specifically on the Internet, it may limit the universe available for certain items, which may result in underestimates of the overall item missing data rates.

The 44-page questionnaire was mailed unfolded in a 9” x 11 5/8” envelope whereas questionnaires for the other treatments were folded and mailed in 11.5” x 6” envelopes. The resulting differences in the envelope size and shape may have influenced response.

4. RESULTS

In the following sections, we analyze the data to answer the research questions in Section 2.4.

4.1 Does changing the questionnaire format impact the self-administered response rates?

Changes to the questionnaire did not affect self-response, our key measure, for mail responses or the overall response rate with mail and Internet responses combined.

Tables 1 and 2 show the one- and two-month response rates, respectively. There are no significant differences between any of the response rates for the three treatments after both one and two months of data collection. Self-response rates were not impacted by the length of the paper questionnaire or the size of the outbound mailing package under the current ACS mailing strategy. This finding is important, since previous literature has been unclear regarding the impact of length and size of questionnaires.

Table 1. One-month Self-administered Response Rates and Mail Response Rates (excluding Undeliverable as Addressed) by Experimental Treatment (through July 31, 2013)

	Experimental Treatment					
	36-page	44-page (8.5x11)	Control (28-page)	36-page – 44-page	36-page – Control	44-page – Control
Overall Response Rate (SE)	44.8 (0.5)	44.7 (0.5)	45.2 (0.5)	0.1 (0.6)	-0.4 (0.7)	-0.4 (0.7)
Mail Response Rate (SE)	17.9 (0.3)	17.9 (0.3)	18.4 (0.5)	0.0 (0.5)	-0.5 (0.5)	-0.5 (0.6)
INT Response Rate (SE)	26.9 (0.5)	26.8 (0.5)	26.8 (0.5)	0.0 (0.7)	0.1 (0.7)	0.0 (0.7)

4.2 Does changing the questionnaire format impact item missing data rates of questions most affected by the new format?

For this question, we focused on the mail item missing data rates, which include only mailable and deliverable addresses that provided a nonblank return by mail. We also analyzed item missing data rates over all responses, mail and Internet combined. We wanted to determine if any significant differences in the mail item missing data rates also appeared when looking at the overall missing data rates. As noted in Section 2.5.2, the analysis included those questions where there were substantial format changes that could possibly affect response behavior.

Table 3 on page 10 contains the mail item missing data rates at the end of two months of data collection; significant differences are in bold print with footnotes to indicate the winning treatment, i.e., the treatment with the lower item missing data rate. For the basic demographic questions, the results in Table 3 show no significant differences for any of the comparisons. Looking at the comparisons

between the 36-page and 44-page questionnaires, there are a few items in the detailed person section (Ancestry, Worked Last Week, and Combined Work) and one item in the housing section (Monthly Gas Costs), where the item missing data rates are lower for the 44-page questionnaire; and there are no questions where the 36-page form has lower item missing data rates. We offer the following specific observations:

- The mail item missing data rates for Combined Work and Work Last Week are lower for the 44-page form compared to the 36-page form. These two items are closely related. Work Last Week corresponds to question P29a alone (Work Last Week). Combined Work also takes into account the response to Question P29b (Any Work Last Week). Those questions appear at the top of the first column on the 44-page form, whereas on the 36-page form they appear at the top of the last (third column).
- Looking at Ancestry we see the largest significant difference (4.3 percent with a SE of 1.4 percent) in mail item missing data rates between the experimental treatments, with the 44-page form having the lower missing data rate.

We can offer some conjecture as to what might have happened. While item nonresponse is relatively high for Ancestry in general, we hypothesize that respondents may have been confused by the skip instruction for the Field of Degree (FOD) question which immediately precedes Ancestry. Those who did not need to answer FOD (those without an undergraduate degree) may have skipped over both questions in error. We think this happened more frequently on the 36-page form. We explored the data further and looked at the response pattern where there was no response for Ancestry, but there was a response for the language question after ancestry. For people without a Bachelor's degree (who should skip FOD), the 36-page form had higher item missing data rates for ancestry. We did not find similar differences among people with a Bachelor's degree. Part of the problem may be that both FOD and Ancestry are write-in questions. Due to the proximity of the write-in spaces, we conjecture that people may not have perceived them as separate write-ins. This could be more problematic on the 36-page form. The narrower columns may make the write-in spaces appear closer together. The difference in column width also affected the word-wrapping of the skip instruction. On the 36-page form the word "SKIP" appears at the beginning of a line, making it more prominent upon a quick read of the instruction.

Next, for each item analyzed, we compared the experimental treatment with the lower mail item missing data rate, whether significant or not, to the Control. Although the 44-page form had lower missing data rates than the 36-page form for some items, it was never significantly lower than the Control. We conjecture that the size and number of columns per page on the 44-page compared to the 36-page may have impacted response, but we cannot explain why those differences do not appear in the comparison between the 44-page and the Control, since the Control has the same page size/layout as the 36-page form. We did, however, find that the 36-page questionnaire had significantly lower missing data rates than the Control for a few questions, including FOD. Respondents may have been influenced by the change in layout involving FOD. FOD appears at the top of the third column on the 36-page questionnaire; whereas, on the Control form, it appears at the bottom of the second column. There are also two housing questions where the 36-page form had lower missing data rates than the Control. Since the housing section is identical between the 36-page and Control form, we have no conjecture as to what may be causing those differences.

In summary, although our analysis of mail item missing data rates showed a few differences on an item-by-item basis, it did not reveal any substantive problems associated with the different treatments.

¹ 44-page significantly lower than 36-page

² 36-page significantly lower than Control

³ Worked Last Week and Any Work Last Week form the Combined Work variable. If both were missing, then Combined Work was counted as missing.

Table 4 on page 12 shows overall item missing data rates at the end of two months of data collection; significant differences are in bold print and are footnoted to indicate the winning treatment, i.e., the treatment with the lower item missing data rate. Here we see that only one question, Monthly Gas Costs, showed a significant difference between treatments for the mail missing data rate and still had a significant difference for the overall missing data rate. While there are other variables with significant differences in overall missing data rates between treatments, those findings are attributable to variations in Internet response only and not to differences in the paper questionnaires, since we did not find similar results in the mail response analysis. We have no explanation for the variations in Internet response among treatments, other than random variation from the sample.

⁶ Worked Last Week and Any Work Last Week form the Combined Work variable. If both were missing, then Combined Work was counted as missing.

4.3 Does changing the questionnaire format impact response distributions of questions most affected by the new format?

In addition to analyzing item missing data rates, we analyzed mail only response distributions for each of the selected questions. We compared both the 36-page questionnaire and the 44-page questionnaire to the Control. To analyze Industry and Occupation, however, we only compared the 44-page questionnaire to the Control, since there were no differences in the layout of the questions between the 36-page and the Control.

For a response to be included in the distribution analysis, it had to be in the universe for the question. We used the same universe definitions as those used to analyze item missing data rates. Missing data were excluded from the distribution analysis. For each question, we defined mutually exclusive response categories. These categories are shown in Tables 5- 15 in the Appendix.

For Hispanic Origin (see Table 6 in the Appendix), each person was placed into one of six mutually exclusive Hispanic Origin categories, based on responses to the question as a whole, i.e., all of the checkboxes as well as the Hispanic origin(s) corresponding to the coded write-in response, if present. If the first check box was marked (indicating the person was non-Hispanic) and other checkboxes were marked (indicating the person was Hispanic), we dropped the person from the analysis. To analyze Race (see Table 7 in the Appendix), we formed seven mutually exclusive categories based on the checkboxes marked and the race or races that correspond to the coded write-ins. Coded write-ins also were used to categorize responses for Field of Degree (see Table 10 in the Appendix) based on the first Field of Degree code and Ancestry (see Table 11 in the Appendix) based on the first ancestry code. To analyze Industry (see Table 14 in the Appendix) and Occupation (see Table 15 in the Appendix), we used the industry codes (coded from responses to questions P42 and P43) and occupation codes (coded from responses to questions P45 and P46), respectively.

In our analysis of mail responses, we identified a few questions where there were significant differences in response distributions between the experimental treatments compared to the Control, based on Rao-Scott chi-square tests, at the 10 percent significance level. Tables 5 – 15 in the Appendix show the results of all the testing.

For the 36-page treatment compared to the Control, we found significance for Monthly Gas Costs (see Table 8 in the Appendix) and Mortgage Payment Amount (see Table 9 in the Appendix). As noted earlier, the layout of the housing questions for the 36-page treatment and the Control are the same, so this difference cannot be due to different layouts. We have no hypothesis as to why these differences appeared.

For the 44-page treatment compared to the Control, we found significance for Mortgage Payment Amount (see Table 9 in the Appendix), Field of Degree (see Table 10 in the Appendix), and Layoff from a Job (see Table 13 in the Appendix). The factors driving these differences may be related to the size of the form or the form layout. There are substantial differences in the forms for Field of Degree. Field of Degree appears at the top of the page, in the first column (of two) on the 44-page form. It is on a separate page than the other schooling questions. On the Control form it appears at the bottom of the page, in the middle column (of three). Layoff from a Job appears at the top of the Control form, in the first column. For the 44-page form, it is the last question on the page. It is unclear, however, how these differences would have affected the distribution of responses among those people who answered the questions.

5. SUMMARY

The length or format of the questionnaires as well as the size of the mailing envelope did not affect self-response, our key measure, for mail responses or mail and Internet responses combined. We hypothesize that the mandatory nature of the survey influenced people to respond regardless of the length and format of the questionnaire they received.

Changes to the questionnaire format did not have a consistent impact on item missing data rates for either the 36-page treatment or the 44-page treatment when compared to the current 28-page form. Focusing on mail responses, we did find some significant differences in our analysis of item missing data rates. There were a few questions where item missing data rates were lower for the 44-page questionnaire compared with the 36-page questionnaire. We also found a small number of questions where there were significant differences in our analysis of response distributions, mainly in comparisons where the 44-page treatment differed from the Control. Our results, however, were too weak and inconsistent to choose the 44-page treatment as the better treatment, overall.

In summary, our results do not conclusively point to one treatment as superior to any other.

6. NEXT STEPS

An alternative questionnaire design may eventually be needed to accommodate new questions on the current ACS questionnaire, specifically in the detailed person section. However, as this test was being conducted, the Census Bureau was directed to initiate a thorough review of content in the ACS, with the aim of ensuring that only necessary burden is placed on ACS respondents. This effort may make it less likely that the survey will need additional room on the questionnaire for new questions, making a format change unnecessary.

We tested two new questionnaire formats and both emerged as reasonable alternatives to the 28-page form. Future decisions should reflect cost considerations. The cost analysis performed by the ASCO has shown that the 44-page questionnaire is the more expensive choice due to additional mailing costs for the larger size envelope with no mitigating gain in terms of increased self-response (Roberts, forthcoming).

Acknowledgments

We would like to thank the following Census Bureau staff for their valuable contributions and assistance in the development and analysis of this project: Cheryl Aiken, David Bartholomew, Stephanie Baumgardner, Jenny Bowers, Gail Denby, Patricia Goerman, Deborah Griffin, Steven Hefter, Rachel Horwitz, Todd Hughes, Don Keathley, Colleen Hughes Keating, Agnes Kee, Rose Kreider, Amy Lauger, Jeannine Magers, Louisa Miller, Patty Murphy, Bonita Oldham, David Raglin, Andrew Roberts, Rita Schuler, Tavia Simmons, Nicholas Von Stein, Jennifer Tancreto, Rodney Terry, Anthony Tersine, Jamie Lewis Thomas, Beth Tyszka, and Tammy Worth .

Attachment A: Example Questionnaire for Control Treatment

ACS-1(X)QD28 - Control Treatment Questionnaire

FRONT COVER

U.S. DEPARTMENT OF COMMERCE
Economics and Statistics Administration
U.S. CENSUS BUREAU

THE American Community Survey

Start Here

Respond online today at:
<https://respond.census.gov/qdt>
OR
Complete this form and mail it back as soon as possible.

This form asks for information about the people who are living or staying at the address on the mailing label and about the house, apartment, or mobile home located at the address on the mailing label.

 **If you need help or have questions about completing this form, please call 1-888-595-1327.** The telephone call is free.

Telephone Device for the Deaf (TDD):
Call 1-800-562-8330. The telephone call is free.

¿NECESITA AYUDA? Si usted habla español y necesita ayuda para completar su cuestionario, llame sin cargo alguno al **1-888-369-3615**. Usted también puede completar su entrevista por teléfono con un entrevistador que habla español. O puede responder por Internet en: <https://respond.census.gov/qdt>

For more information about the American Community Survey, visit our web site at: <http://www.census.gov/acs/www/>

➔ Please print today's date.
Month Day Year

➔ Please print the name and telephone number of the person who is filling out this form. We may contact you if there is a question.

Last Name

First Name MI

Area Code + Number

 -

➔ How many people are living or staying at this address?

- **INCLUDE** everyone who is living or staying here for more than 2 months.
- **INCLUDE** yourself if you are living here for more than 2 months.
- **INCLUDE** anyone else staying here who does not have another place to stay, even if they are here for 2 months or less.
- **DO NOT INCLUDE** anyone who is living somewhere else for more than 2 months, such as a college student living away or someone in the Armed Forces on deployment.

Number of people

➔ Fill out pages 2, 3, and 4 for everyone, including yourself, who is living or staying at this address for more than 2 months. Then complete the rest of the form.

ACS-1(X)QD28

DETAILED PERSON SECTION

Person 1

→ Please copy the name of Person 1 from page 2, then continue answering questions below.

Last Name

First Name MI

7 Where was this person born?

In the United States – *Print name of state.*

Outside the United States – *Print name of foreign country, or Puerto Rico, Guam, etc.*

8 Is this person a citizen of the United States?

Yes, born in the United States → *SKIP to question 10a*

Yes, born in Puerto Rico, Guam, the U.S. Virgin Islands, or Northern Marianas

Yes, born abroad of U.S. citizen parent or parents

Yes, U.S. citizen by naturalization – *Print year of naturalization*

No, not a U.S. citizen

9 When did this person come to live in the United States? Print numbers in boxes.

Year

10 a. At any time IN THE LAST 3 MONTHS, has this person attended school or college? Include only nursery or preschool, kindergarten, elementary school, home school, and schooling which leads to a high school diploma or a college degree.

No, has not attended in the last 3 months → *SKIP to question 11*

Yes, public school, public college

Yes, private school, private college, home school

b. What grade or level was this person attending? Mark (X) ONE box.

Nursery school, preschool

Kindergarten

Grade 1 through 12 – *Specify grade 1 – 12*

College undergraduate years (freshman to senior)

Graduate or professional school beyond a bachelor's degree (for example: MA or PhD program, or medical or law school)

11 What is the highest degree or level of school this person has COMPLETED? Mark (X) ONE box. If currently enrolled, mark the previous grade or highest degree received.

NO SCHOOLING COMPLETED

No schooling completed

NURSERY OR PRESCHOOL THROUGH GRADE 12

Nursery school

Kindergarten

Grade 1 through 11 – *Specify grade 1 – 11*

12th grade – **NO DIPLOMA**

HIGH SCHOOL GRADUATE

Regular high school diploma

GED or alternative credential

COLLEGE OR SOME COLLEGE

Some college credit, but less than 1 year of college credit

1 or more years of college credit, no degree

Associate's degree (for example: AA, AS)

Bachelor's degree (for example: BA, BS)

AFTER BACHELOR'S DEGREE

Master's degree (for example: MA, MS, MEng, MEd, MSW, MBA)

Professional degree beyond a bachelor's degree (for example: MD, DDS, DVM, LLB, JD)

Doctorate degree (for example: PhD, EdD)

F Answer question 12 if this person has a bachelor's degree or higher. Otherwise, SKIP to question 13.

12 This question focuses on this person's BACHELOR'S DEGREE. Please print below the specific major(s) of any BACHELOR'S DEGREES this person has received. (For example: chemical engineering, elementary teacher education, organizational psychology)

13 What is this person's ancestry or ethnic origin?

(For example: Italian, Jamaican, African Am., Cambodian, Cape Verdean, Norwegian, Dominican, French Canadian, Haitian, Korean, Lebanese, Polish, Nigerian, Mexican, Taiwanese, Ukrainian, and so on.)

14 a. Does this person speak a language other than English at home?

Yes

No → *SKIP to question 15a*

b. What is this language?

For example: Korean, Italian, Spanish, Vietnamese

c. How well does this person speak English?

Very well

Well

Not well

Not at all

15 a. Did this person live in this house or apartment 1 year ago?

Person is under 1 year old → *SKIP to question 16*

Yes, this house → *SKIP to question 16*

No, outside the United States and Puerto Rico – *Print name of foreign country, or U.S. Virgin Islands, Guam, etc., below; then SKIP to question 16*

No, different house in the United States or Puerto Rico

b. Where did this person live 1 year ago?

Address (Number and street name)

Name of city, town, or post office

Name of U.S. county or municipio in Puerto Rico

Name of U.S. state or Puerto Rico **ZIP Code**

ACS-1(X)QD28
 DETAILED PERSON SECTION (CONT'D)

Person 1 (continued)

16 Is this person CURRENTLY covered by any of the following types of health insurance or health coverage plans? Mark "Yes" or "No" for EACH type of coverage in items a-h.

	Yes	No
a. Insurance through a current or former employer or union (of this person or another family member)	<input type="checkbox"/>	<input type="checkbox"/>

 Yes
 No

c. Does this person have difficulty dressing or bathing?
 Yes
 No

H Answer question 19 if this person is 15 years old or over. Otherwise, SKIP to the questions for Person 2 on page 12.

19 Because of a physical, mental, or emotional condition, does this person have difficulty doing errands alone such as visiting a doctor's office or shopping?
 Yes
 No

20 What is this person's marital status?
 Now married
 Widowed
 Divorced
 Separated
 Never married → SKIP to **I**

21 In the PAST 12 MONTHS did this person get -

	Yes	No
a. Married?	<input type="checkbox"/>	<input type="checkbox"/>
b. Widowed?	<input type="checkbox"/>	<input type="checkbox"/>
c. Divorced?	<input type="checkbox"/>	<input type="checkbox"/>

22 How many times has this person been married?
 Once
 Two times
 Three or more times

23 In what year did this person last get married?
 Year

I Answer question 24 if this person is female and 15 - 50 years old. Otherwise, SKIP to question 25a.

24 Has this person given birth to any children in the past 12 months?
 Yes
 No

25 a. Does this person have any of his/her own grandchildren under the age of 18 living in this house or apartment?
 Yes
 No → SKIP to question 26

b. Is this grandparent currently responsible for most of the basic needs of any grandchildren under the age of 18 who live in this house or apartment?
 Yes
 No → SKIP to question 26

c. How long has this grandparent been responsible for these grandchildren?
 If the grandparent is financially responsible for more than one grandchild, answer the question for the grandchild for whom the grandparent has been responsible for the longest period of time.

Less than 6 months
 6 to 11 months
 1 or 2 years
 3 or 4 years
 5 or more years

26 Has this person ever served on active duty in the U.S. Armed Forces, Reserves, or National Guard? Mark (X) ONE box.

Never served in the military → SKIP to question 29a
 Only on active duty for training in the Reserves or National Guard → SKIP to question 28a
 Now on active duty
 On active duty in the past, but not now

27 When did this person serve on active duty in the U.S. Armed Forces? Mark (X) a box for EACH period in which this person served, even if just for part of the period.

September 2001 or later
 August 1990 to August 2001 (including Persian Gulf War)
 May 1975 to July 1990
 Vietnam era (August 1964 to April 1975)
 February 1965 to July 1964
 Korean War (July 1950 to January 1955)
 January 1947 to June 1950
 World War II (December 1941 to December 1946)
 November 1941 or earlier

28 a. Does this person have a VA service-connected disability rating?
 Yes (such as 0%, 10%, 20%, ... , 100%)
 No → SKIP to question 29a

b. What is this person's service-connected disability rating?
 0 percent
 10 or 20 percent
 30 or 40 percent
 50 or 60 percent
 70 percent or higher

ACS-1(X)QD28
 DETAILED PERSON SECTION (CONT'D)

Person 1 (continued)

29 a. **LAST WEEK**, did this person work for pay at a job (or business)?
 Yes → SKIP to question 34
 No – Did not work (or retired)

b. **LAST WEEK**, did this person do ANY work for pay, even for as little as one hour?
 Yes
 No → SKIP to question 35a

30 At what location did this person work **LAST WEEK**? If this person worked at more than one location, print where he or she worked most last week.

a. **Address (Number and street name)**

If the exact address is not known, give a description of the location such as the building name or the nearest street or intersection.

b. **Name of city, town, or post office**

c. **Is the work location inside the limits of that city or town?**
 Yes
 No, outside the city/town limits

d. **Name of county**

e. **Name of U.S. state or foreign country**

f. **ZIP Code**

31 How did this person usually get to work **LAST WEEK**? If this person usually used more than one method of transportation during the trip, mark (X) the box of the one used for most of the distance.

<input type="checkbox"/> Car, truck, or van	<input type="checkbox"/> Motorcycle
<input type="checkbox"/> Bus or trolley bus	<input type="checkbox"/> Bicycle
<input type="checkbox"/> Streetcar or trolley car	<input type="checkbox"/> Walked
<input type="checkbox"/> Subway or elevated	<input type="checkbox"/> Worked at home → SKIP to question 39a
<input type="checkbox"/> Railroad	<input type="checkbox"/> Other method
<input type="checkbox"/> Ferryboat	
<input type="checkbox"/> Taxicab	

J Answer question 32 if you marked "Car, truck, or van" in question 31. Otherwise, SKIP to question 33.

32 How many people, including this person, usually rode to work in the car, truck, or van **LAST WEEK**?
 Person(s)

33 What time did this person usually leave home to go to work **LAST WEEK**?
 Hour Minute a.m.
 p.m.

34 How many minutes did it usually take this person to get from home to work **LAST WEEK**?
 Minutes

K Answer questions 35 – 38 if this person did NOT work last week. Otherwise, SKIP to question 39a.

35 a. **LAST WEEK**, was this person on layoff from a job?
 Yes → SKIP to question 35c
 No

b. **LAST WEEK**, was this person **TEMPORARILY** absent from a job or business?
 Yes, on vacation, temporary illness, maternity leave, other family/personal reasons, bad weather, etc. → SKIP to question 38
 No → SKIP to question 36

c. Has this person been informed that he or she will be recalled to work within the next 6 months OR been given a date to return to work?
 Yes → SKIP to question 37
 No

36 During the **LAST 4 WEEKS**, has this person been **ACTIVELY** looking for work?
 Yes
 No → SKIP to question 38

37 **LAST WEEK**, could this person have started a job if offered one, or returned to work if recalled?
 Yes, could have gone to work
 No, because of own temporary illness
 No, because of all other reasons (in school, etc.)

38 When did this person last work, even for a few days?
 Within the past 12 months
 1 to 5 years ago → SKIP to **L**
 Over 5 years ago or never worked → SKIP to question 47

39 a. During the **PAST 12 MONTHS** (52 weeks), did this person work 50 or more weeks? Count paid time off as work.
 Yes → SKIP to question 40
 No

b. How many weeks **DID** this person work, even for a few hours, including paid vacation, paid sick leave, and military service?
 50 to 52 weeks
 48 to 49 weeks
 40 to 47 weeks
 27 to 39 weeks
 14 to 26 weeks
 13 weeks or less

40 During the **PAST 12 MONTHS**, in the **WEEKS WORKED**, how many hours did this person usually work each **WEEK**?
 Usual hours worked each **WEEK**

ACS-1(X)QD28
 DETAILED PERSON SECTION (CONT'D)

Person 1 (continued)

L Answer questions 41 – 46 if this person worked in the past 5 years. Otherwise, SKIP to question 47.

41 – 46 CURRENT OR MOST RECENT JOB ACTIVITY. Describe clearly this person's chief job activity or business last week. If this person had more than one job, describe the one at which this person worked the most hours. If this person had no job or business last week, give information for his/her last job or business.

41 Was this person – Mark (X) ONE box.

- an employee of a PRIVATE FOR-PROFIT company or business, or of an individual, for wages, salary, or commissions?
- an employee of a PRIVATE NOT-FOR-PROFIT, tax-exempt, or charitable organization?
- a local GOVERNMENT employee (city, county, etc.)?
- a state GOVERNMENT employee?
- a Federal GOVERNMENT employee?
- SELF-EMPLOYED in own NOT INCORPORATED business, professional practice, or farm?
- SELF-EMPLOYED in own INCORPORATED business, professional practice, or farm?
- working WITHOUT PAY in family business or farm?

42 For whom did this person work? If now on active duty in the Armed Forces, mark (X) this box → and print the branch of the Armed Forces.
 Name of company, business, or other employer

43 What kind of business or industry was this? Describe the activity at the location where employed. (For example: hospital, newspaper publishing, mail order house, auto engine manufacturing, bank)

44 Is this mainly – Mark (X) ONE box.

- manufacturing?
- wholesale trade?
- retail trade?
- other (agriculture, construction, service, government, etc.)?

45 What kind of work was this person doing? (For example: registered nurse, personal manager, supervisor of order department, secretary, accountant)

46 What were this person's most important activities or duties? (For example: patient care, directing hiring policies, supervising order clerks, typing and filing, reconciling financial records)

47 INCOME IN THE PAST 12 MONTHS
 Mark (X) the "Yes" box for each type of income this person received, and give your best estimate of the TOTAL AMOUNT during the PAST 12 MONTHS. (NOTE: The "past 12 months" is the period from today's date one year ago up through today.)
 Mark (X) the "No" box to show types of income NOT received.
 If net income was a loss, mark the "Loss" box to the right of the dollar amount.
 For income received jointly, report the appropriate share for each person – or, if that's not possible, report the whole amount for only one person and mark the "No" box for the other person.

a. Wages, salary, commissions, bonuses, or tips from all jobs. Report a mount before deductions for taxes, bonds, dues, or other items.

Yes → \$ _____ .00
 No TOTAL AMOUNT for past 12 months

b. Self-employment income from own nonfarm businesses or farm businesses, including proprietorships and partnerships. Report NET income after business expenses.

Yes → \$ _____ .00 Loss
 No TOTAL AMOUNT for past 12 months

c. Interest, dividends, net rental income, royalty income, or income from estates and trusts. Report even small amounts credited to an account.

Yes → \$ _____ .00 Loss
 No TOTAL AMOUNT for past 12 months

d. Social Security or Railroad Retirement.

Yes → \$ _____ .00
 No TOTAL AMOUNT for past 12 months

e. Supplemental Security Income (SSI).

Yes → \$ _____ .00
 No TOTAL AMOUNT for past 12 months

f. Any public assistance or welfare payments from the state or local welfare office.

Yes → \$ _____ .00
 No TOTAL AMOUNT for past 12 months

g. Retirement, survivor, or disability pensions. Do NOT include Social Security.

Yes → \$ _____ .00
 No TOTAL AMOUNT for past 12 months

h. Any other sources of income received regularly such as Veterans' (VA) payments, unemployment compensation, child support or alimony. Do NOT include lump sum payments such as money from an inheritance or the sale of a home.

Yes → \$ _____ .00
 No TOTAL AMOUNT for past 12 months

48 What was this person's total income during the PAST 12 MONTHS? Add entries in questions 47a to 47h; subtract any losses; if net income was a loss, enter the amount and mark (X) the "Loss" box next to the dollar amount.

OR \$ _____ .00 Loss
 None TOTAL AMOUNT for past 12 months

→ Continue with the questions for Person 2 on the next page. If no one is listed as person 2 on page 2, SKIP to page 28 for mailing instructions.

Mailing Instructions

➔ Please make sure you have...

- listed all names and answered the questions on pages 2, 3, and 4
- answered all Housing questions
- answered all Person questions for each person.

➔ Then...

- put the completed questionnaire into the postage-paid return envelope. If the envelope has been misplaced, please mail the questionnaire to:
**U.S. Census Bureau
 P.O. Box 5240
 Jeffersonville, IN 47199-5240**
- make sure the barcode above your address shows in the window of the return envelope.

Thank you for participating in the American Community Survey.

For Census Bureau Use

POP <input type="text"/>	EDIT <input type="text"/>	PHONE <input type="text"/>	JIC1 <input type="text"/>	JIC2 <input type="text"/>
EDIT CLERK <input type="text"/>	TELEPHONE CLERK <input type="text"/>		JIC3 <input type="text"/>	JIC4 <input type="text"/>

The Census Bureau estimates that, for the average household, this form will take 40 minutes to complete, including the time for reviewing the instructions and answers. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: Paperwork Project 0607-0936, U.S. Census Bureau, 4600 Silver Hill Road, AMSD - 3K138, Washington, D.C. 20233. You may e-mail comments to Paperwork@census.gov; use "Paperwork Project 0607-0936" as the subject. Please DO NOT RETURN your questionnaire to this address. Use the enclosed preaddressed envelope to return your completed questionnaire.

Respondents are not required to respond to any information collection unless it displays a valid approval number from the Office of Management and Budget. This 8-digit number appears in the bottom right on the front cover of this form.

HOUSING SECTION

Housing

→ Please answer the following questions about the house, apartment, or mobile home at the address on the mailing label.

1 Which best describes this building?
Include all apartments, flats, etc., even if vacant.

A mobile home
 A one-family house detached from any other house
 A one-family house attached to one or more houses
 A building with 2 apartments
 A building with 3 or 4 apartments
 A building with 5 to 9 apartments
 A building with 10 to 19 apartments
 A building with 20 to 49 apartments
 A building with 50 or more apartments
 Boat, RV, van, etc.

2 About when was this building first built?

2000 or later - *Specify year* →

1990 to 1999
 1980 to 1989
 1970 to 1979
 1960 to 1969
 1950 to 1959
 1940 to 1949
 1939 or earlier

3 When did PERSON 1 (listed on page 2) move into this house, apartment, or mobile home?

Month Year

A *Answer questions 4 - 6 if this is a HOUSE OR A MOBILE HOME; otherwise, SKIP to question 7a.*

4 How many acres is this house or mobile home on?

Less than 1 acre → *SKIP to question 6*
 1 to 9.9 acres
 10 or more acres

5 IN THE PAST 12 MONTHS, what were the actual sales of all agricultural products from this property?

None
 \$1 to \$999
 \$1,000 to \$2,499
 \$2,500 to \$4,999
 \$5,000 to \$9,999
 \$10,000 or more

6 Is there a business (such as a store or barber shop) or a medical office on this property?

Yes
 No

7 a. How many separate rooms are in this house, apartment, or mobile home?
Rooms must be separated by built-in archways or walls that extend out at least 6 inches and go from floor to ceiling.

- *INCLUDE bedrooms, kitchens, etc.*
- *EXCLUDE bathrooms, porches, balconies, foyers, halls, or unfinished basements.*

Number of rooms

b. How many of these rooms are bedrooms?
Count as bedrooms those rooms you would list if this house, apartment, or mobile home were for sale or rent. If this is an efficiency/studio apartment, print "0".

Number of bedrooms

8 Does this house, apartment, or mobile home have -

	Yes	No
a. hot and cold running water?	<input type="checkbox"/>	<input type="checkbox"/>
b. a flush toilet?	<input type="checkbox"/>	<input type="checkbox"/>
c. a bathtub or shower?	<input type="checkbox"/>	<input type="checkbox"/>
d. a sink with a faucet?	<input type="checkbox"/>	<input type="checkbox"/>
e. a stove or range?	<input type="checkbox"/>	<input type="checkbox"/>
f. a refrigerator?	<input type="checkbox"/>	<input type="checkbox"/>
g. telephone service from which you can both make and receive calls? <i>Include cell phones.</i>	<input type="checkbox"/>	<input type="checkbox"/>

9 At this house, apartment, or mobile home - do you or any member of this household own or use any of the following computers?
EXCLUDE GPS devices, digital music players, and devices with only limited computing capabilities, for example: household appliances.

	Yes	No
a. Desktop, laptop, netbook, or notebook computer	<input type="checkbox"/>	<input type="checkbox"/>
b. Handheld computer, smart mobile phone, or other handheld wireless computer	<input type="checkbox"/>	<input type="checkbox"/>
c. Some other type of computer <i>Specify</i> ↗	<input type="checkbox"/>	<input type="checkbox"/>

10 At this house, apartment, or mobile home - do you or any member of this household access the Internet?

Yes, with a subscription to an Internet service
 Yes, without a subscription to an Internet service → *SKIP to question 12*
 No Internet access at this house, apartment, or mobile home → *SKIP to question 12*

11 At this house, apartment, or mobile home - do you or any member of this household subscribe to the Internet using -

	Yes	No
a. Dial-up service?	<input type="checkbox"/>	<input type="checkbox"/>
b. DSL service?	<input type="checkbox"/>	<input type="checkbox"/>
c. Cable modem service?	<input type="checkbox"/>	<input type="checkbox"/>
d. Fiber-optic service?	<input type="checkbox"/>	<input type="checkbox"/>
e. Mobile broadband plan for a computer or a cell phone?	<input type="checkbox"/>	<input type="checkbox"/>
f. Satellite Internet service?	<input type="checkbox"/>	<input type="checkbox"/>
g. Some other service? <i>Specify service</i> ↗	<input type="checkbox"/>	<input type="checkbox"/>

ACS-1(X)QD36
 DETAILED PERSON SECTION (CONT'D)

Person 1 (continued)

31 How did this person usually get to work LAST WEEK? If this person usually used more than one method of transportation during the trip, mark (X) the box of the one used for most of the distance.

<input type="checkbox"/> Car, truck, or van	<input type="checkbox"/> Motorcycle
<input type="checkbox"/> Bus or trolley bus	<input type="checkbox"/> Bicycle
<input type="checkbox"/> Streetcar or trolley car	<input type="checkbox"/> Walked
<input type="checkbox"/> Subway or elevated	<input type="checkbox"/> Worked at home → SKIP to question 39a
<input type="checkbox"/> Railroad	<input type="checkbox"/> Other method
<input type="checkbox"/> Ferryboat	
<input type="checkbox"/> Taxicab	

J Answer question 32 if you marked "Car, truck, or van" in question 31. Otherwise, SKIP to question 33.

32 How many people, including this person, usually rode to work in the car, truck, or van LAST WEEK?

Person(s)

33 What time did this person usually leave home to go to work LAST WEEK?

Hour Minute

 :

a.m. p.m.

34 How many minutes did it usually take this person to get from home to work LAST WEEK?

Minutes

K Answer questions 35 – 38 if this person did NOT work last week. Otherwise, SKIP to question 39a.

35 a. LAST WEEK, was this person on layoff from a job?

Yes → SKIP to question 36c
 No

b. LAST WEEK, was this person TEMPORARILY absent from a job or business?

Yes, on vacation, temporary illness, maternity leave, other family/personal reasons, bad weather, etc. → SKIP to question 38
 No → SKIP to question 36

c. Has this person been informed that he or she will be recalled to work within the next 6 months OR been given a date to return to work?

Yes → SKIP to question 37
 No

36 During the LAST 4 WEEKS, has this person been ACTIVELY looking for work?

Yes
 No → SKIP to question 38

37 LAST WEEK, could this person have started a job if offered one, or returned to work if recalled?

Yes, could have gone to work
 No, because of own temporary illness
 No, because of all other reasons (in school, etc.)

38 When did this person last work, even for a few days?

Within the past 12 months
 1 to 5 years ago → SKIP to **L** on the next page
 Over 5 years ago or never worked → SKIP to question 47

39 a. During the PAST 12 MONTHS (52 weeks), did this person work 50 or more weeks? Count paid time off as work.

Yes → SKIP to question 40
 No

b. How many weeks DID this person work, even for a few hours, including paid vacation, paid sick leave, and military service?

50 to 52 weeks
 48 to 49 weeks
 40 to 47 weeks
 27 to 39 weeks
 14 to 26 weeks
 13 weeks or less

40 During the PAST 12 MONTHS, in the WEEKS WORKED, how many hours did this person usually work each WEEK?

Usual hours worked each WEEK

ACS-1(X)QD36
 DETAILED PERSON SECTION (CONT'D)

Person 1 (continued)

L Answer questions 41 – 46 if this person worked in the past 5 years. Otherwise, SKIP to question 47.

41 – 46 CURRENT OR MOST RECENT JOB ACTIVITY. Describe clearly this person's chief job activity or business last week. If this person had more than one job, describe the one at which this person worked the most hours. If this person had no job or business last week, give information for his/her last job or business.

41 Was this person – Mark (X) ONE box.

an employee of a PRIVATE FOR-PROFIT company or business, or of an individual, for wages, salary, or commissions?

an employee of a PRIVATE NOT-FOR-PROFIT, tax-exempt, or charitable organization?

a local GOVERNMENT employee (city, county, etc.)?

a state GOVERNMENT employee?

a Federal GOVERNMENT employee?

SELF-EMPLOYED in own NOT INCORPORATED business, professional practice, or farm?

SELF-EMPLOYED in own INCORPORATED business, professional practice, or farm?

working WITHOUT PAY in family business or farm?

42 For whom did this person work? If now on active duty in the Armed Forces, mark (X) this box →

Name of company, business, or other employer

43 What kind of business or industry was this? Describe the activity, at the location where employed. (For example: hospital, newspaper publishing, mail order house, auto engine manufacturing, bank)

44 Is this mainly – Mark (X) ONE box.

manufacturing?

wholesale trade?

retail trade?

other (agriculture, construction, service, government, etc.)?

45 What kind of work was this person doing? (For example: registered nurse, personnel manager, supervisor of order department, secretary, accountant)

46 What were this person's most important activities or duties? (For example: patient care, directing hiring policies, supervising order clerks, typing and filing, reconciling financial records)

47 INCOME IN THE PAST 12 MONTHS

Mark (X) the "Yes" box for each type of income this person received, and give your best estimate of the TOTAL AMOUNT during the PAST 12 MONTHS. (NOTE: The "past 12 months" is the period from today's date one year ago up through today.)

Mark (X) the "No" box to show types of income NOT received.

If net income was a loss, mark the "Loss" box to the right of the dollar amount.

For income received jointly, report the appropriate share for each person – or, if that's not possible, report the whole amount for only one person and mark the "No" box for the other person.

a. Wages, salary, commissions, bonuses, or tips from all jobs. Report amount before deductions for taxes, bonds, dues, or other items.

Yes → \$.00 No

TOTAL AMOUNT for past 12 months

b. Self-employment income from own nonfarm businesses or farm businesses, including proprietorships and partnerships. Report NET income after business expenses.

Yes → \$.00 No

TOTAL AMOUNT for past 12 months Loss

c. Interest, dividends, net rental income, royalty income, or income from estates and trusts. Report even small amounts credited to an account.

Yes → \$.00 No

TOTAL AMOUNT for past 12 months Loss

d. Social Security or Railroad Retirement.

Yes → \$.00 No

TOTAL AMOUNT for past 12 months

e. Supplemental Security Income (SSI).

Yes → \$.00 No

TOTAL AMOUNT for past 12 months

f. Any public assistance or welfare payments from the state or local welfare office.

Yes → \$.00 No

TOTAL AMOUNT for past 12 months

g. Retirement, survivor, or disability pensions. Do NOT include Social Security.

Yes → \$.00 No

TOTAL AMOUNT for past 12 months

h. Any other sources of income received regularly such as Veterans' (VA) payments, unemployment compensation, child support or alimony. Do NOT include lump sum payments such as money from an inheritance or the sale of a home.

Yes → \$.00 No

TOTAL AMOUNT for past 12 months

48 What was this person's total income during the PAST 12 MONTHS? Add entries in questions 47a to 47h; subtract any losses. If net income was a loss, enter the amount and mark (X) the "Loss" box next to the dollar amount.

None OR \$.00 Loss

TOTAL AMOUNT for past 12 months Loss

HOUSING SECTION

Housing

➔ Please answer the following questions about the house, apartment, or mobile home at the address on the mailing label.

1 Which best describes this building?
Include all apartments, flats, etc., even if vacant.

- A mobile home
- A one-family house detached from any other house
- A one-family house attached to one or more houses
- A building with 2 apartments
- A building with 3 or 4 apartments
- A building with 5 to 9 apartments
- A building with 10 to 19 apartments
- A building with 20 to 49 apartments
- A building with 50 or more apartments
- Boat, RV, van, etc.

2 About when was this building first built?

- 2000 or later – *Specify year*
←
- 1990 to 1999
- 1980 to 1989
- 1970 to 1979
- 1960 to 1969
- 1950 to 1959
- 1940 to 1949
- 1939 or earlier

3 When did PERSON 1 (listed on page 2) move into this house, apartment, or mobile home?

Month Year

A Answer questions 4 – 6 if this is a HOUSE OR A MOBILE HOME; otherwise, SKIP to question 7a.

4 How many acres is this house or mobile home on?

- Less than 1 acre → *SKIP to question 6*
- 1 to 9.9 acres
- 10 or more acres

5 IN THE PAST 12 MONTHS, what were the actual sales of all agricultural products from this property?

- None
- \$1 to \$999
- \$1,000 to \$2,499
- \$2,500 to \$4,999
- \$5,000 to \$9,999
- \$10,000 or more

6 Is there a business (such as a store or barber shop) or a medical office on this property?

- Yes
- No

7 a. How many separate rooms are in this house, apartment, or mobile home? Rooms must be separated by built-in archways or walls that extend out at least 6 inches and go from floor to ceiling.

- INCLUDE bedrooms, kitchens, etc.
- EXCLUDE bathrooms, porches, balconies, foyers, halls, or unfinished basements.

Number of rooms

b. How many of these rooms are bedrooms?
Count as bedrooms those rooms you would list if this house, apartment, or mobile home were for sale or rent. If this is an efficiency/studio apartment, print "0".

Number of bedrooms

ACS-1(X)QD85
HOUSING SECTION (CONT'D)

Housing (continued)

c. IN THE PAST 12 MONTHS, what was the cost of water and sewer for this house, apartment, or mobile home? If you have lived here less than 12 months, estimate the cost.

Past 12 months' cost – Dollars

\$

OR

Included in rent or condominium fee

No charge

d. IN THE PAST 12 MONTHS, what was the cost of oil, coal, kerosene, wood, etc., for this house, apartment, or mobile home? If you have lived here less than 12 months, estimate the cost.

Past 12 months' cost – Dollars

\$

OR

Included in rent or condominium fee

No charge or these fuels not used

15 IN THE PAST 12 MONTHS, did you or any member of this household receive benefits from the Food Stamp Program or SNAP (the Supplemental Nutrition Assistance Program)? Do NOT include WIC, the School Lunch Program, or assistance from food banks.

Yes

No

16 Is this house, apartment, or mobile home part of a condominium?

Yes → **What is the monthly condominium fee?**
For renters, answer only if you pay the condominium fee in addition to your rent; otherwise, mark the "None" box.

Monthly amount – Dollars

\$

OR

None

No

17 Is this house, apartment, or mobile home – Mark (X) ONE box.

Owned by you or someone in this household with a mortgage or loan? *Include home equity loans.*

Owned by you or someone in this household free and clear (without a mortgage or loan)?

Rented?

Occupied without payment of rent? → **SKIP to C**

B Answer questions 18a and b if this house, apartment, or mobile home is RENTED. Otherwise, SKIP to question 19.

18 a. What is the monthly rent for this house, apartment, or mobile home?

Monthly amount – Dollars

\$

b. Does the monthly rent include any meals?

Yes

No

C Answer questions 19 – 23 if you or any member of this household OWNS or IS BUYING this house, apartment, or mobile home. Otherwise, SKIP to E on the next page.

19 About how much do you think this house and lot, apartment, or mobile home (and lot, if owned) would sell for if it were for sale?

Amount – Dollars

\$

20 What are the annual real estate taxes on THIS property?

Annual amount – Dollars

\$

OR

None

21 What is the annual payment for fire, hazard, and flood insurance on THIS property?

Annual amount – Dollars

\$

OR

None

ACS-1(X)QD85

DETAILED PERSON SECTION

Person 1

6 Please copy the name of Person 1 from page 2, then continue answering questions below.

Last Name

First Name MI

7 Where was this person born?

In the United States – Print name of state.

Outside the United States – Print name of foreign country, or Puerto Rico, Guam, etc.

8 Is this person a citizen of the United States?

Yes, born in the United States → SKIP to question 10a

Yes, born in Puerto Rico, Guam, the U.S. Virgin Islands, or Northern Marianas

Yes, born abroad of U.S. citizen parent or parents

Yes, U.S. citizen by naturalization – Print year of naturalization →

No, not a U.S. citizen

9 When did this person come to live in the United States? Print numbers in boxes.

Year

10 a. At any time IN THE LAST 3 MONTHS, has this person attended school or college? Include only nursery or preschool, kindergarten, elementary school, home school, and schooling which leads to a high school diploma or a college degree.

No, has not attended in the last 3 months → SKIP to question 11

Yes, public school, public college

Yes, private school, private college, home school

b. What grade or level was this person attending? Mark (X) ONE box.

Nursery school, preschool

Kindergarten

Grade 1 through 12 – Specify grade 1 – 12 →

College undergraduate years (freshman to senior)

Graduate or professional school beyond a bachelor's degree (for example: MA or PhD program, or medical or law school)

11 What is the highest degree or level of school this person has COMPLETED? Mark (X) ONE box. If currently enrolled, mark the previous grade or highest degree received.

NO SCHOOLING COMPLETED

No schooling completed

NURSERY OR PRESCHOOL THROUGH GRADE 12

Nursery school

Kindergarten

Grade 1 through 11 – Specify grade 1 – 11 →

12th grade – NO DIPLOMA

HIGH SCHOOL GRADUATE

Regular high school diploma

GED or alternative credential

COLLEGE OR SOME COLLEGE

Some college credit, but less than 1 year of college credit

1 or more years of college credit, no degree

Associate's degree (for example: AA, AS)

Bachelor's degree (for example: BA, BS)

AFTER BACHELOR'S DEGREE

Master's degree (for example: MA, MS, MEng, MEd, MSW, MBA)

Professional degree beyond a bachelor's degree (for example: MD, DDS, DVM, LLB, JD)

Doctorate degree (for example: PhD, EdD)

ACS-1(X)QD85
DETAILED PERSON SECTION (CONT'D)

Person 1 (continued)

F Answer question 12 if this person has a bachelor's degree or higher. Otherwise, SKIP to question 13.

12 This question focuses on this person's BACHELOR'S DEGREE. Please print below the specific major(s) of any BACHELOR'S DEGREES this person has received. (For example: chemical engineering, elementary teacher education, organizational psychology)

13 What is this person's ancestry or ethnic origin?

(For example: Italian, Jamaican, African Am., Cambodian, Cape Verdean, Norwegian, Dominican, French Canadian, Haitian, Korean, Lebanese, Polish, Nigerian, Mexican, Taiwanese, Ukrainian, and so on.)

14 a. Does this person speak a language other than English at home?

Yes

No → SKIP to question 15a

b. What is this language?

(For example: Korean, Italian, Spanish, Vietnamese)

c. How well does this person speak English?

Very well

Well

Not well

Not at all

15 a. Did this person live in this house or apartment 1 year ago?

Person is under 1 year old → SKIP to question 16

Yes, this house → SKIP to question 16

No, outside the United States and Puerto Rico - Print name of foreign country, or U.S. Virgin Islands, Guam, etc., below; then SKIP to question 16

No, different house in the United States or Puerto Rico

b. Where did this person live 1 year ago?

Address (Number and street name)

Name of city, town, or post office

Name of U.S. county or municipio in Puerto Rico

Name of U.S. state or Puerto Rico

ZIP Code

16 Is this person CURRENTLY covered by any of the following types of health insurance or health coverage plans? Mark "Yes" or "No" for EACH type of coverage in items a - h.

	Yes	No
a. Insurance through a current or former employer or union (of this person or another family member)	<input type="checkbox"/>	<input type="checkbox"/>
b. Insurance purchased directly from an insurance company (by this person or another family member)	<input type="checkbox"/>	<input type="checkbox"/>
