Women’s History Month: March 2017

The roots of National Women’s History Month go back to March 8, 1857, when women from various New York City factories staged a protest over working conditions. The first Women's Day Celebration in the United States was also in New York City in 1909, but Congress did not establish National Women's History Week until 1981 to be commemorated annually the second week of March. In 1987, Congress expanded the week to a month. Every year since, Congress has passed a resolution for Women’s History Month, and the president has issued a proclamation.

Population

163.2 million
The number of females in the United States as of July 2015. The number of males was 158.2 million.
Source: Vintage 2015 Population Estimates
http://factfinder.census.gov/bkmk/table/1.0/en/PEP/2015/PEPAGESEX

2 to 1
The approximate ratio by which women age 85 and older outnumbered men in 2015 (4.1 million to 2.1 million).
Source: Vintage 2015 Population Estimates

Jobs

76.1 million
The number of females age 16 and older who participated in the civilian labor force in 2015. Women comprised 47.4 percent of the civilian labor force in 2015.
Source: 2015 American Community Survey, Table DP03
http://factfinder.census.gov/bkmk/table/1.0/en/ACS/15_1YR/DP03

43.9%
The percentage of life, physical and social science scientists who were women in 2015, the highest percentage of women among all computer, engineering and science occupations. There were 24.8 percent of computer and mathematical occupations and 14.0 percent of architecture and engineering occupations held by women.
63.0%  

The percentage of social scientists who were women in 2012, the heaviest representation of women among all STEM (science, technology, engineering and math) fields. Among other STEM fields, women comprised approximately 14.0 percent of engineers, 45.0 percent of mathematicians and statisticians, and 47.0 percent of life scientists. The rates of mathematicians and statisticians, and life scientists are not statistically different from each other. Business

$1.4 trillion
The estimated receipts from women-owned firms in the United States in 2012, rising 18.7 percent from $1.2 trillion in 2007.
Source: 2012 Survey of Business Owners
9.9 million
The estimated number of women-owned firms in the United States in 2012, up from 7.8 million or 26.8 percent in 2007.
Source: 2012 Survey of Business Owners

35.8%
The estimated percentage of U.S. firms that were owned by women in 2012. They constituted the majority of firms in the health care and social assistance sector (62.5 percent), the educational services sector (54.2 percent) and the “other services” sector (51.8 percent). For comparison, women accounted for 51.4 percent of the 18-and-older population in the United States in 2012.

114,103
The number of women-owned firms that had paid employees and were in business less than two years in the United States in 2014. The health care and social assistance sector had the most women-owned businesses with 177,127 firms or 16.8 percent.
Source: 2014 Annual Survey of Entrepreneurs

Voting
43.0%
The percentage of female citizens age 18 and older who reported voting in the 2014 election. By comparison, 40.8 percent of their male counterparts reported voting.
Source: Voting and Registration in the Election of November 2014, Table 2

Motherhood
43.5 million
The estimated number of mothers ages 15 to 50 in the United States in 2014.
Source: Current Population Survey: 2014, Detailed Table 2

2.0
The average number of children that women ages 40 to 44 had given birth to as of 2014, down
from 3.1 children in 1976, the year the Census Bureau first began collecting such data. The percentage of women in this age group who had ever given birth was 84.8 percent in 2014, down from 89.9 percent in 1976.
Source: 2014 Current Population Survey, Historical Table 2

Marriage

67.4 million
The number of married women age 18 and older (including those who were separated or had an absent spouse) in 2016.
Source: Families and Living Arrangements: 2016, Table A1
www.census.gov/hhes/families/data/cps2016A.html

5.0 million
The number of stay-at-home mothers nationwide in 2016, compared with 209,000 stay-at-home fathers.
Source: Families and Living Arrangements: 2016, Historical Table SHP-1
www.census.gov/hhes/families/files/shp1.xls

Following is a list of observances typically covered by the Census Bureau’s *Facts for Features* series:

African-American History Month (February)
Super Bowl (first Sunday in February)
Valentine’s Day (Feb. 14)
Women’s History Month (March)
Irish-American Heritage Month (March)/St. Patrick’s Day (March 17)
Earth Day (April 22)
Asian/Pacific American Heritage Month (May)
Older Americans Month (May)
Mother’s Day (2nd Sunday in May)
Hurricane Season Begins (June 1)
Father’s Day (third Sunday in June)
The Fourth of July (July 4)
Anniversary of Americans with Disabilities Act (July 26)
Back to School (August)
Labor Day (1st Monday in September)
Grandparents Day (1st Sunday after Labor Day)
Hispanic Heritage Month (Sept. 15-Oct. 15)
Unmarried and Single Americans Week (3rd week of September)
Halloween (Oct. 31)
American Indian/Alaska Native Heritage Month (November)
Veterans Day (Nov. 11)
Thanksgiving Day (4th Thursday in November)
The Holiday Season (December)

*Editor’s note:* The preceding data were collected from a variety of sources and may be subject to sampling variability and other sources of error. Facts for Features are customarily released about two months before an observance in order to accommodate publication production timelines.
