

Industrial Building Construction

Economic Census Shows Increase

Value of construction work by type of construction

Note: Data in this infographic include only establishments with paid employees. All figures are in current dollars for the period shown, are not adjusted for inflation, and do not reflect changes in prices. For information on how the Economic Census is conducted, see the Survey Methodology (www.census.gov/econ/census/help/methodology_disclosure/). For other information on the Economic Census reports (including a Release Schedule and information on comparability), see business.census.gov (www.census.gov/econ/census/).
