American Community Survey
Data Tools and Resources

Discover YOUR Community
With the
American Community Survey (ACS)

AMERICAN FACTFINDER (AFF)
American FactFinder is an online data access tool developed by the U.S. Census Bureau for the public. Data users of all skill levels use AFF to search billions of ACS and other Census Bureau statistics. AFF allows users to drill down to needed statistics for many geography levels, download data files, and create customized maps.

CENSUS BUSINESS BUILDER
Census Business Builder allows small business owners and regional analysts a way to easily use key demographic and economic data in their research for opening new businesses or expanding existing ones. The Small Business Edition presents data for a single type of business, while the Regional Analyst Edition presents data for all sectors of the economy.

APPLICATION PROGRAMMING INTERFACE (API) AND THE DEVELOPERS FORUM

APIs and the Developers Forum are available to help improve access to public datasets and to encourage innovative use of data products. We invite developers to use these APIs, join our Developers Forum, and provide feedback to help the Census Bureau move forward with continued API development. The API includes the ACS Summary Files and Data Profiles, as well as other datasets.
