```
********************************************************************
CAUTION:

-  The variable array ENTIDSP was coded incorrectly for
   approximately 221 respondents who are married, spouse-present--
   their records lack values of ENTIDSP (entry address ID of the
   spouse).

We will post corrections once they become available.

*******************************************
*       FAMILY-LEVEL VARIABLES           *
*                                         *
* The following variables (FF-INC        *
* through FF-OTHR) were created for       *
* all persons in sample during the       *
* reference month, regardless of whether *
* they were members of families           *
* (primary families, related subfamilies,*
* or unrelated subfamilies), or were     *
* primary individuals (reference persons *
* living alone or in a household that     *
* did not include any relatives) or      *
* secondary individuals (household       *
* members unrelated to the reference     *
* person or to anyone else in the        *
* household).                             *
* These variables were created by        *
* grouping together the household's      *
* members according to the following     *
* categories:                             *
*  - Primary families, including         *
*     related subfamilies and related    *
*     individuals                         *
*  - Unrelated subfamilies               *
*  - Primary individuals                  *
*  - Secondary individuals               *
* A primary or secondary individual      *
* is considered to be a separate family  *
* units.                                  *

* This grouping can be replicated by     *
* creating a new variable based on       *
* FAMTYP and RRP.  Note that all         *
* household members with FAMTYP=0, and   *
* RRP equal to 1, 3, 4, or 5 are members *
* of the primary family.  This includes  *
* relatives of the householder           *
* who are not a member of a subfamily    *
* (related individuals).                  *
* Use FAMNUM to identify different       *
* unrelated subfamilies.                  *

D WAVFLG   32   5075   32   1
   (Surveys-On-Call: WAVFLG01-WAVFLG32)
      Missing wave imputation flag
         By reference month.
         In this panel missing wave data
         was imputed for persons who miss an
         interview and have completed interviews
         before and after the missing wave. WAVFLG
         values 1-3 denote persons in this category and
         they may now receive a positive weight.
         Data was also imputed for persons who only
         have one bounding interview or who were bounded by
         Type-Z noninterviews. Although persons in these
         situations will not receive a positive weight, their
         data is needed to compute household data such as
         household income.
      Range = (0:9)

D HIEMPLYR   32   11321   32   1
  (Surveys-On-Call: HIEMPL01-HIEMPL32)
     Own private health insurance policy
     obtained through ...'s current employer
        or union during the reference month
     Range = (0:2)
U All persons 15 or older, covered by own
  private health insurance policy
V         0 .Not applicable or not in sample
V         1 .Health insurance coverage
V           .obtained through current employer or
V           .previous employer
V         2 .Health insurance coverage not
V           .obtained through employer

*********************************************
*   The following fields (SS-PIDX through   *
*   FS-PIDX) were created for persons        *
*   covered by the indicated income         *
*   sources.  To locate the record of the   *
*   the person from whom coverage was       *
*   assigned, concatenate PPID (sample unit *
*   identifier) and PPRCSEQ (sequence number*
*   of person record).                       *
*   For example:                             *
*     Respondent's                           *
*     record:            PPID  || SSPIDX    *
*   should match                             *
*     Primary person's                       *
*     (with coverage)                        *
*     record:            PPID  || PPRCSEQ *
