

FOR RELEASE AT 10:00 AM EDT, MONDAY, OCTOBER 26, 2020

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, September 2020

Release Number: CB 20-162 FT-900A (20-09)

October 26, 2020 — The U.S. Census Bureau announced today that preliminary September steel imports were \$1.1 billion (1.1 million metric tons) compared to the preliminary August totals of \$1.1 billion (1.2 million metric tons).

The September change in steel imports based on metric tonnage reflected decreases in reinforcing bars and cold rolled sheets. Increases occurred in hot rolled sheets; heavy structural shapes; and hot dipped galvanized sheets and strips. Decreases occurred primarily with Mexico and Turkey. Increases occurred primarily with Brazil, Taiwan, and Japan.

The year to date final statistics through August 2020 showed steel imports of 14.9 million metric tons compared with 18.8 million metric tons through August 2019. The largest commodity decrease occurred primarily in oil country goods. Increases occurred primarily in tin free steel, used rails, and light shaped bars. The largest country decreases occurred with Russia. Increases occurred primarily with Turkey, Brazil, and Mexico.

The October report is scheduled for release on November 24, 2020. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
