

A PROFILE OF U.S. IMPORTING AND EXPORTING COMPANIES, 2023-2024

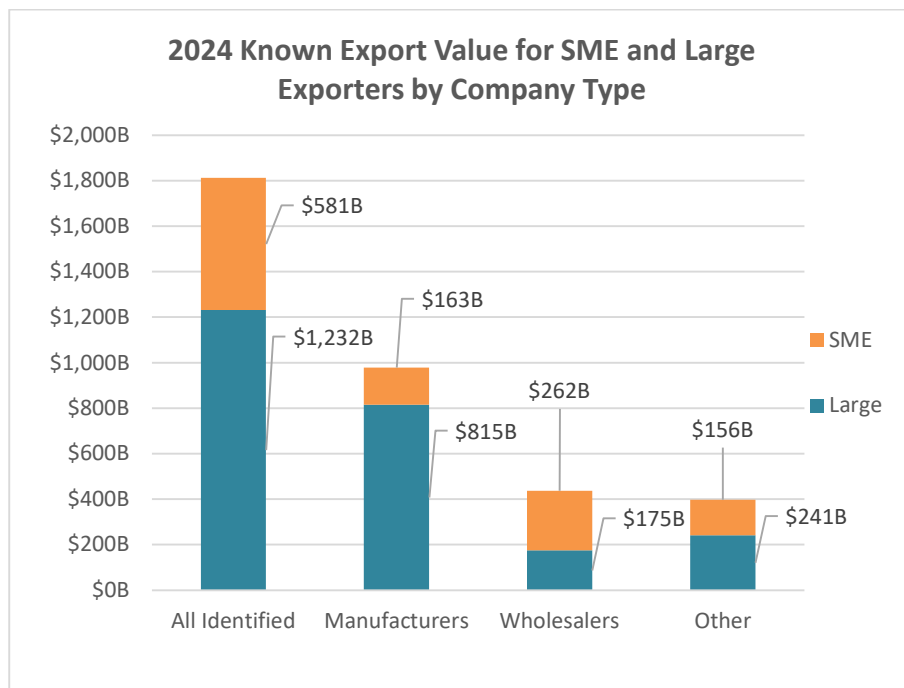

Release Number: CB26-73

The U.S. Census Bureau, Department of Commerce, releases the report, *A Profile of U.S. Importing and Exporting Companies, 2023 - 2024*. This report provides information on identified U.S. companies and their known export or import value. Identified companies are enterprise-level companies from the 2024 Business Register to which import or export transactions records were linked. The known export or import value is the dollar-value of export or import transactions linked to these identified companies. Using the information from the Census Business Register, this report details trade data by various company characteristics of U.S. exporting and importing companies. For the full report or to view the explanatory notes on how these statistics are gathered and compiled, go to https://www.census.gov/foreign-trade/Press-Release/profile_index.html

Exports

Identified U.S. exporting companies (“exporters”) accounted for a known export value of \$1,813 billion, or 87.9 percent of the total value of exported goods in 2024 (\$2,062 billion). This is an increase of 1.8 percent from the 2023 known export value of \$1,781 billion.

Large exporters accounted for over 67 percent (\$1,232 billion) of the known export value, while small- and medium-sized enterprises (SME) accounted for the remaining \$581 billion. Large exporters accounted for 83.3 percent of exports by *manufacturers*, 40.1 percent by *wholesalers*, and 60.7 percent by *other* exporters.

Of the 271,250 identified exporters in 2024, 24.4 percent were *manufacturers*, 30.6 percent were *wholesalers*, and 45.0 percent were classified as *other*. Additionally, 93,290 of these identified exporters did not report exports in 2023.

The known export value of single location exporters declined by 6.4 percent and increased by 4.3 percent for multiple location exporters.

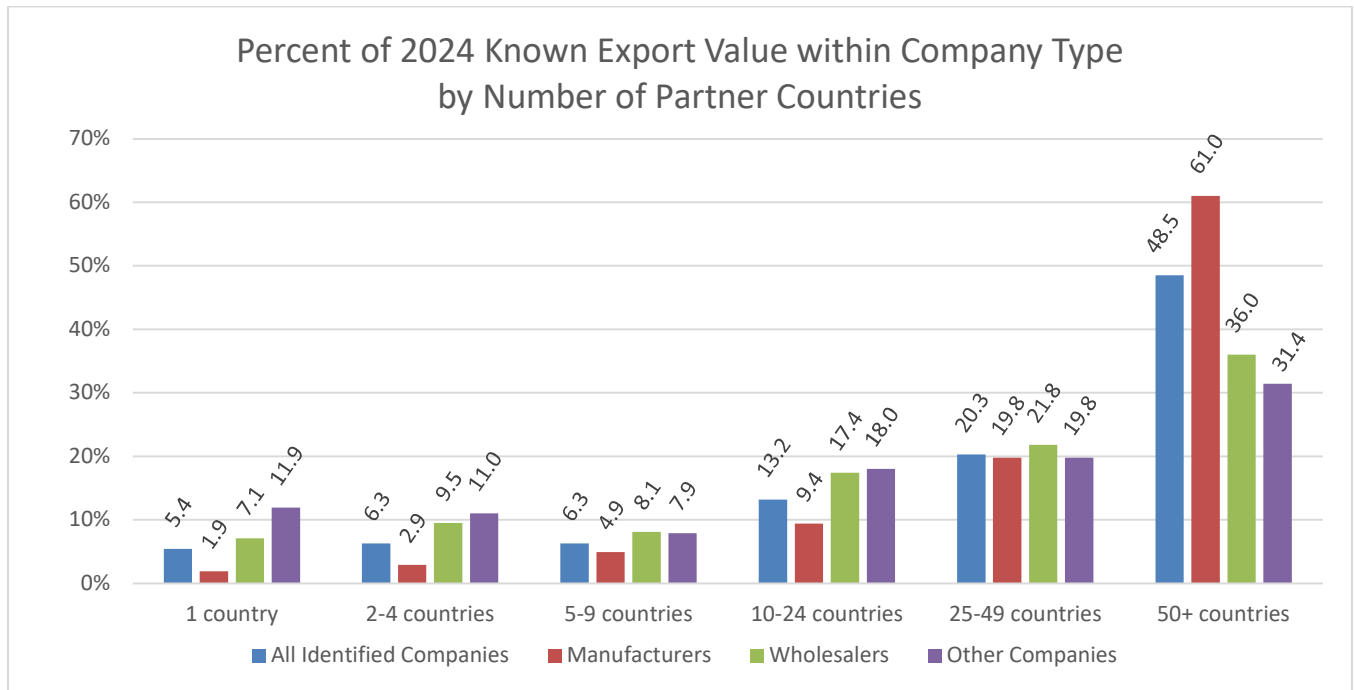

Large exporters reported that 44.7 percent of their exports were related party trade, while SME exporters reported only 23.0 percent were related party trade. Multiple location exporters reported that 42.6 percent of their known export value was related party trade, while single location exporters reported only 20.1 percent as related party.

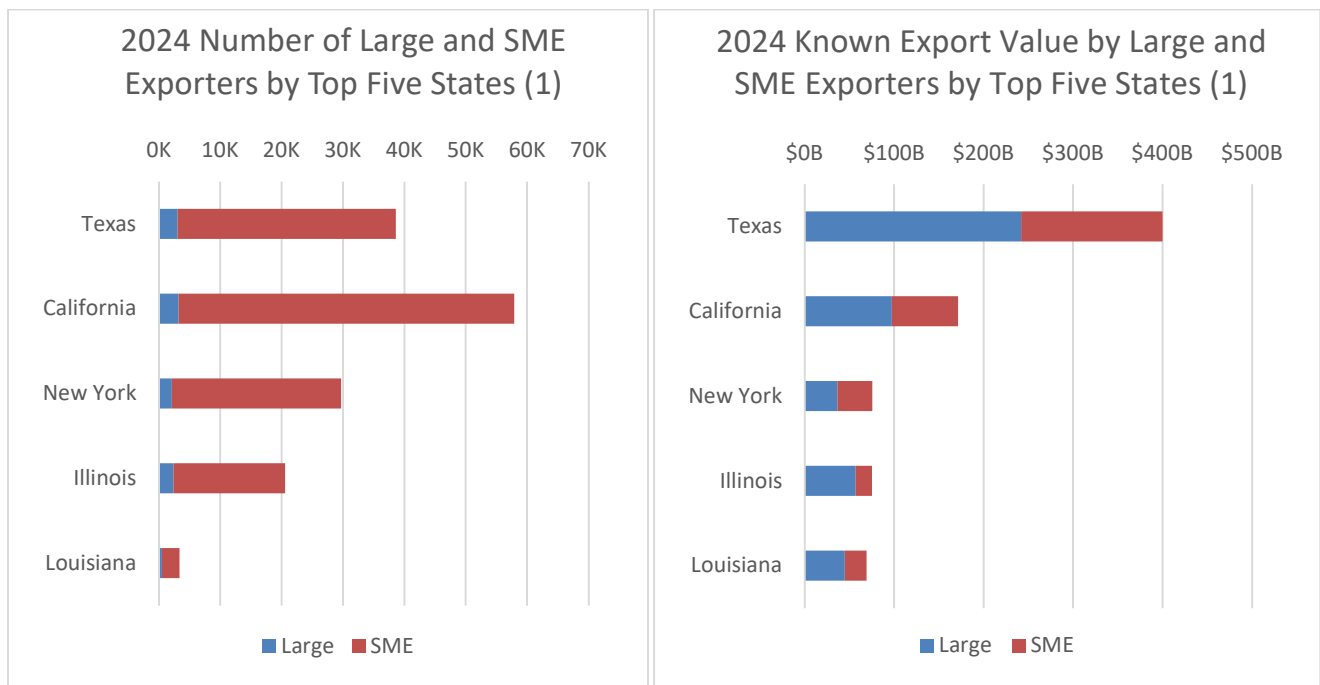

Of all North American Industry Classification System (NAICS) subsectors, 336 (Transportation Equipment Manufacturing) had the highest known export value at \$262 billion in 2024. 43.1 percent of the known export value of SME exporters is attributable to NAICS subsectors 424 (\$126 billion) and 423 (\$125 billion), both *wholesalers* subsectors.

The top fifty *manufacturers* accounted for 48.6 percent of the known export value of all *manufacturers* in 2024.

In 2024, 60.0 percent of exporters reported exporting to only one country, and accounted for 5.4 percent of the known export value. Only 2.0 percent of exporters reported exporting to 25 or more countries but accounted for 68.8 percent of the known export value.

Nearly one-quarter (21.4 percent) of identified exporters reported exports from California (9.5 percent of the known export value), 14.2 percent of identified exporters reported exports from Texas, which accounted for the largest portion of the known export value at 22.1 percent. California and Florida continue to have the largest number of SME exporters reporting exports, with a combined 36.7 percent of SME exporters reporting exports from at least one of these two states.

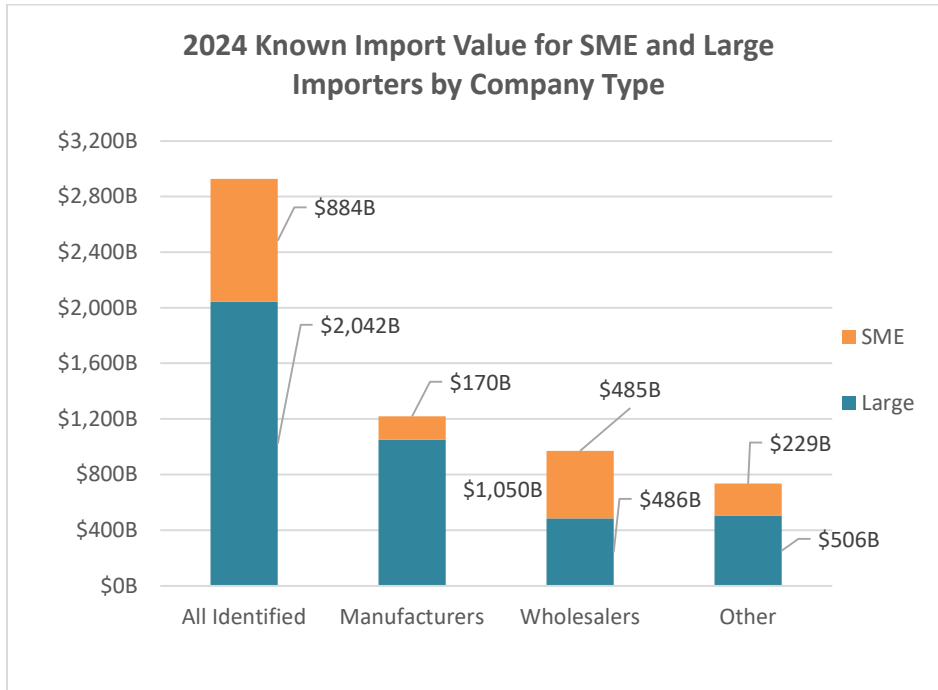

(1) Top five states determined by known export value.

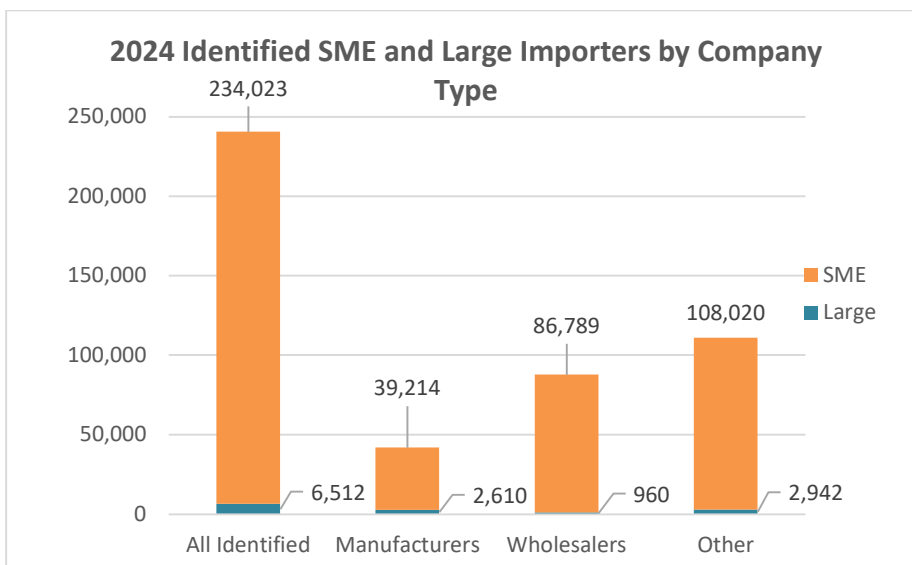

Imports

Identified U.S. importing companies (“importers”) accounted for a known import value of \$2,926 billion, or 89.6 percent of the total value of imported goods in 2024 (\$3,266 billion). This is an increase of 6.7 percent from the 2023 known import value of \$2,743 billion.

Large importers accounted for two-thirds of the known import value (\$2,042 billion), as was the case with large exporters. Large importers accounted for 86.1 percent of known imports by *manufacturers*, 50.1 percent by *wholesalers*, and 68.9 percent by *other* importers.

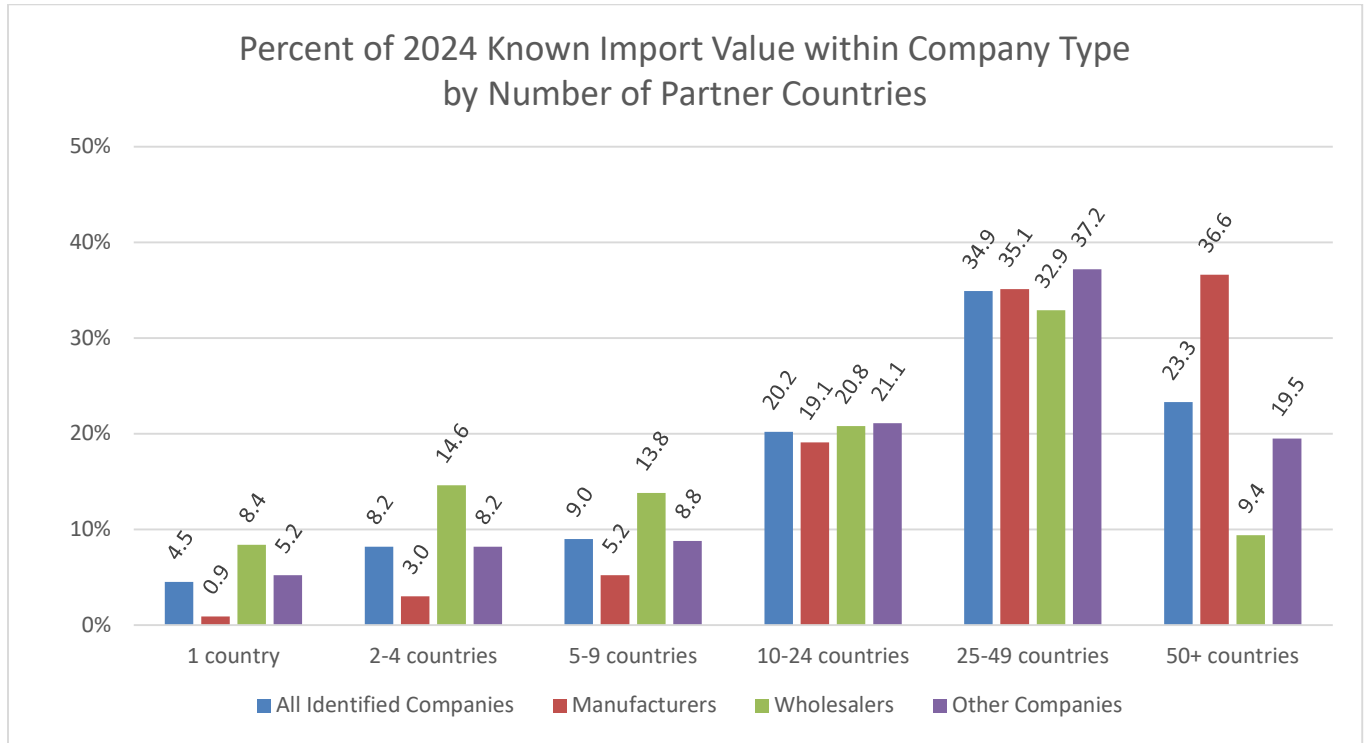

Of the 240,535 identified importers in 2024 (a decline of 0.8 percent from 2023), 17.4 percent were *manufacturers*, 36.5 percent were *wholesalers*, and 46.1 percent were classified as *other*.

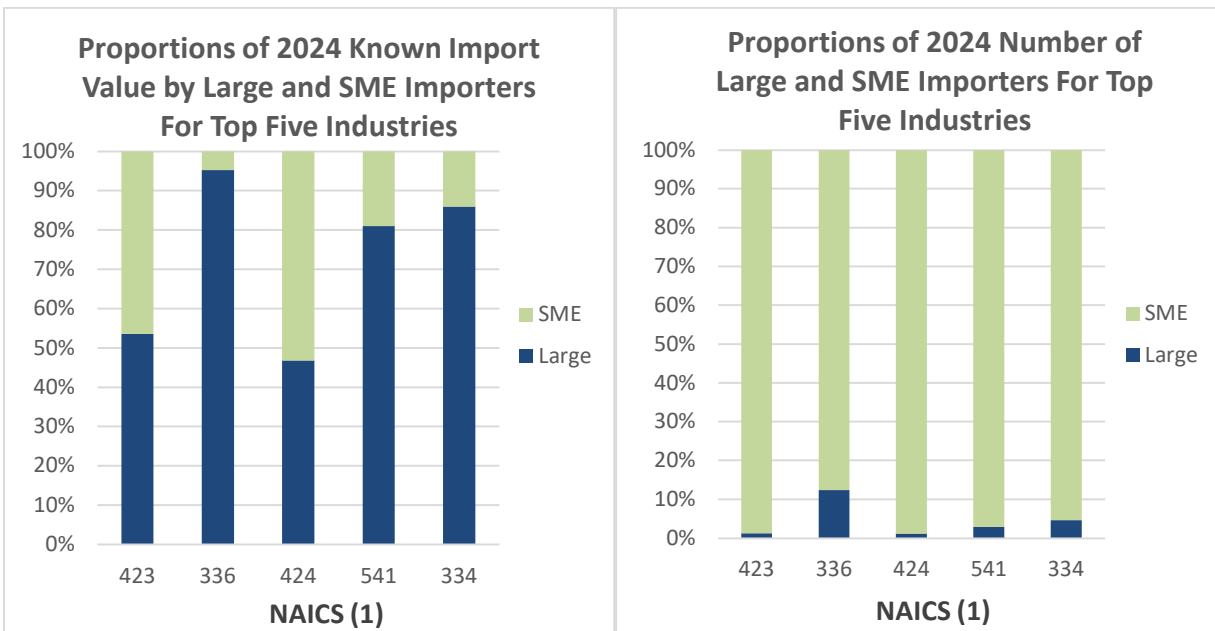

The top twenty importing *manufacturers* accounted for 37.7 percent of the known import value by *manufacturers* (\$1,220 billion) in 2024.

Classes of importers--- *manufacturers, wholesalers and other companies* importing from 25 or more countries accounted for between 42.3 and 71.7 percent of the known import value respectively in their classes.

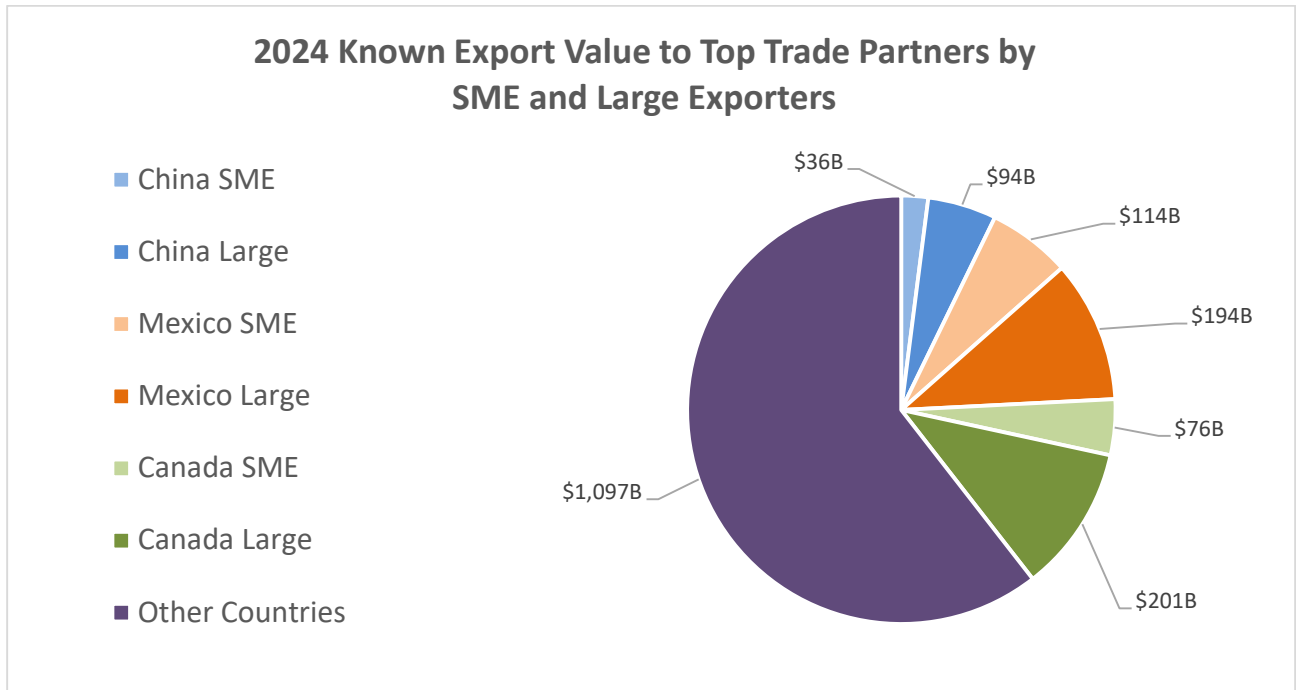

Of the top five 3-digit North American Industry Classification System (NAICS) subsectors for known import value, SME importers accounted for 98.7 percent of identified importers within NAICS 423 (Merchant Wholesalers, Durable Goods) and 98.9 percent of 424 (Merchant Wholesalers, Nondurable Goods).

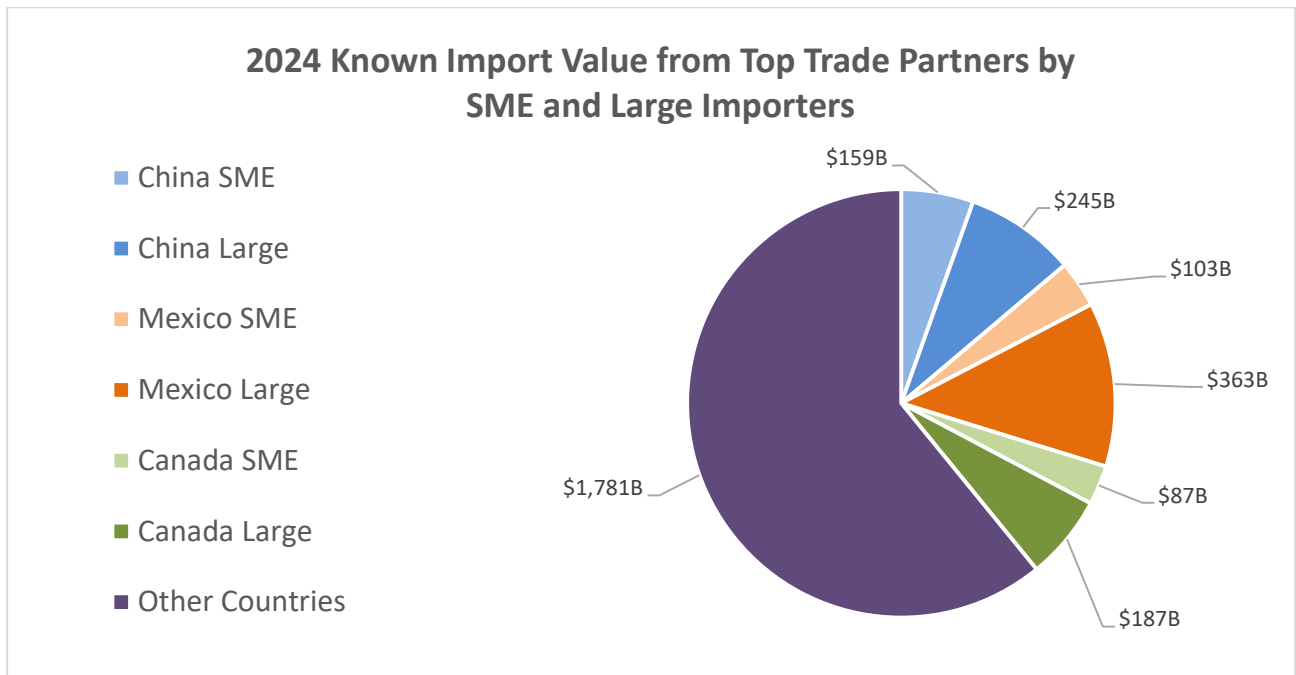

(1) NAICS definitions: 423 – “Merchant Wholesalers, Durable Goods”, 336 – “Transportation Equipment Manufacturing”, 424 – “Merchant Wholesalers, Nondurable Goods”, 541 – “Petroleum and Coal Products Manufacturing”, 334 – “Computer and Electronic Product Manufacturing”, 325 – “Chemical Manufacturing”

Comparing Import and Export Markets

The top three trading partners (China, Mexico and Canada) accounted for 39.1 percent of the known import value and 39.5 percent of the known export value.

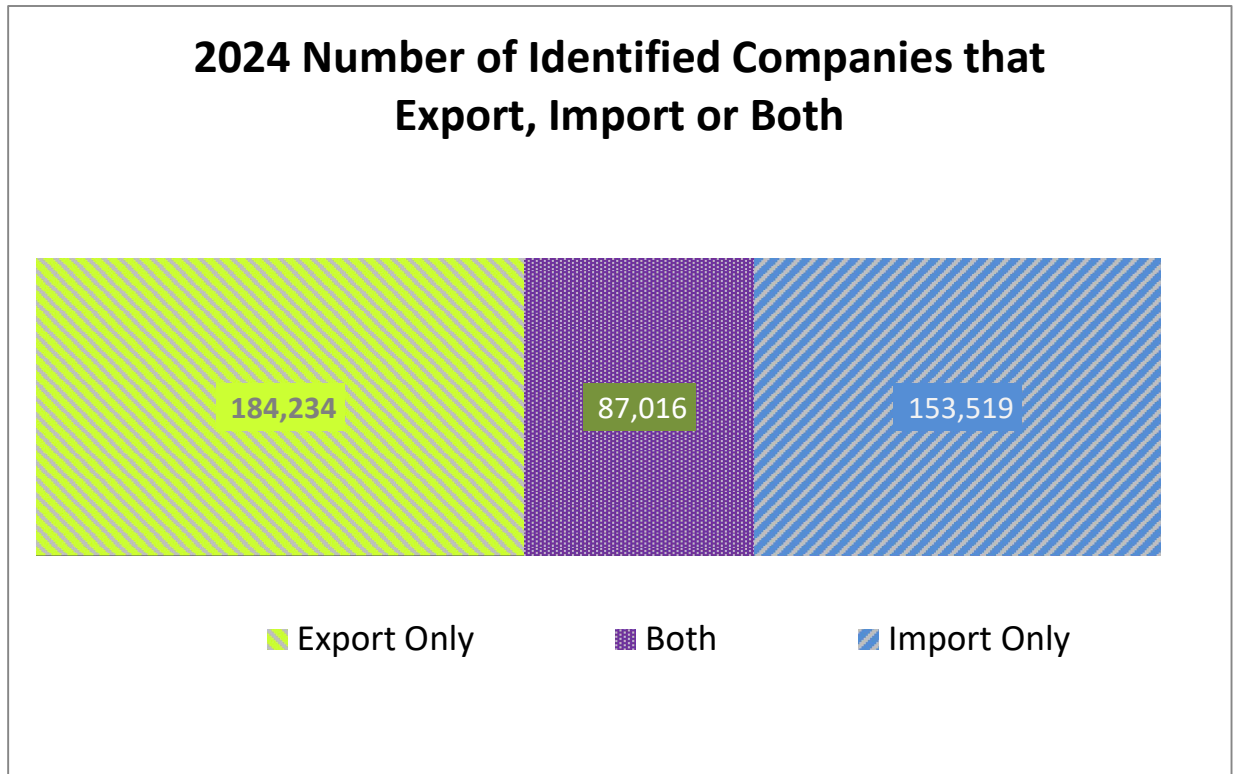

SME importers accounted for 22.2 percent of the imports from Mexico, China 39.4 percent, and Canada 31.8 percent.

Companies that both Imported and Exported

Out of the 271,250 exporters and 240,535 importers, 87,016 companies reported both imports and exports in 2024.

Of the companies reporting exports to Canada (91,731) or Mexico (53,547) in 2024, 12.2 percent reported imports from Canada and 15.8 percent reported imports from Mexico, respectively.

Large companies accounted for 88.2 percent of exports and 89.8 percent of imports to and from Canada by companies that traded bilaterally with Canada.

(1) Includes Canadian electricity and natural gas imports

(2) Includes all import or export trade value for the data-year and are derived from the separate U.S. International Trade in Goods and Services (FT900) report data.

(3) "US & foreign governments" includes foreign military sales, embassy transactions and other types of governmental trade.

(4) Beginning in 2023, "Articles exported and returned, not advanced or improved in condition" under Imports and "US & Foreign Government" trade in exports includes a portion of the Known Import or Known Export Value leading to a certain degree of additivity loss within this table. This convention is done for statistical purposes.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Cumulative percents are cumulative proportions relative to a particular sector's totals.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2024.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This table is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Cumulative percents are cumulative proportions relative to a particular sector's totals.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2023.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This table is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total general imports that could be matched to specific companies.

(2) Cumulative percents are cumulative proportions relative to a particular sector's totals.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2023.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This table is compiled using data from import trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total general imports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2023 or 2024.

(3) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This table is compiled using data from import trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total exports and U.S. total general imports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2023.

(3) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This table is compiled using data from export and import trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Detail may not sum to 100 percent because companies may export to both related and nonrelated parties.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2024.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This table is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Detail may not sum to 100 percent because companies may import from both related and nonrelated parties.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2023.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This table is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2023.

(3) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This table is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2024.

Note: This table is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

Table 5b
2023 Exports by Company Employment Size
to World Areas and Selected Countries

Value in millions of dollars. Details may not equal totals due to rounding. (D) - Represents suppressed to avoid disclosure.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2023.

Note: This table is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total general imports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2024.

Note: This table is compiled using data from import trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total exports or U.S. total general imports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2023.

Note: This table is compiled using data from export and import trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Detail may not sum to total because companies may export from more than one state.

(3) Includes transactions not reported by state and low-value estimates.

(4) Small and Medium sized companies are defined as those companies with fewer than 500 employees, those with missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2024.

Note: This table is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total general imports that could be matched to specific companies.

(2) Detail may not sum to total because companies may import to more than one state.

(3) Includes transactions not reported by state and low-value estimates.

(4) Small and Medium sized companies are defined as those companies with fewer than 500 employees, those with missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2024.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Small and Medium sized companies are defined as those companies with fewer than 500 employees, those with missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2024.

(3) A 2-digit NAICS code is the most detailed NAICS available for some companies. A NAICS code such as "11X" implies that only 2 NAICS digits have been defined (e.g., it is only known for certain that a company is classified within NAICS sector 11). "XXX" represents an unclassified company. For information on partially defined NAICS codes, see the explanatory notes.

Note: This table is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total general imports that could be matched to specific companies.

(2) Small and Medium sized companies are defined as those companies with fewer than 500 employees, those with missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2024.

(3) A 2-digit NAICS code is the most detailed NAICS available for some companies. A NAICS code such as "11X" implies that only 2 NAICS digits have been defined (e.g., it is only known for certain that a company is classified within NAICS sector 11). "XXX" represents an unclassified company. For information on partially defined NAICS codes, see the explanatory notes.

Note: This table is compiled using data from import trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.

(1) Known value is defined as the portion of U.S. total general imports that could be matched to specific companies.

(2) Small and Medium sized companies are defined as those companies with fewer than 500 employees, those with missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2023.

(3) A 2-digit NAICS code is the most detailed NAICS available for some companies. A NAICS code such as "11X" implies that only 2 NAICS digits have been defined (e.g., it is only known for certain that a company is classified within NAICS sector 11). "XXX" represents an unclassified company. For information on partially defined NAICS codes, see the explanatory notes.

Note: This table is compiled using data from import trade information and the Business Register. For information on nonsampling errors and other data limitations, see the explanatory notes.
