## **Preliminary: U.S. Imports for Consumption of Steel Products July 2009**

The U.S. Census Bureau announced today that preliminary July steel imports were **\$1.0 billion (0.9 million metric tons)** compared to the preliminary June totals of \$0.9 billion (0.8 million metric tons).

The July change in steel imports based on metric tonnage reflected an increase primarily in blooms, billets, and slabs. Monthly increases occurred primarily with Japan, Mexico, and Korea.

The year to date final statistics through June 2009 showed steel imports of 7.8 million metric tons compared to 14.5 million metric tons through June 2008. The largest commodity decrease was in blooms, billets, and slabs. The largest country decrease was with Canada.

**Notes:**

**The data in this report are preliminary and subject to revisions.**

*Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details visit the Foreign Trade Division web site at: [www.census.gov/trade](http://www.census.gov/trade). On the web site you can access product by country and country by product tables.*

*The next release is September 22, 2009.*

**Not Seasonally Adjusted**
