## **Preliminary: U.S. Imports for Consumption of Steel Products June 2011**

The U.S. Census Bureau announced today that preliminary June steel imports were **\$2.9 billion (2.4 million** metric tons). This was an increase of \$0.1 billion from the preliminary May totals of \$2.8 billion. Metric tonnage remained virtually unchanged.

The June shift in steel imports based on metric tonnage reflected a decrease primarily in blooms, billets, and slabs. A decrease occurred primarily with Brazil.

The year to date final statistics through May 2011 showed steel imports of 10.8 million metric tons compared with 8.8 million metric tons through May 2010. The largest commodity increases occurred primarily in blooms, billets, and slabs; and oil country goods. The largest country increases occurred primarily with Brazil and Korea; the largest country decrease occurred primarily with Canada.

**Notes:**

**The data in this report are preliminary and subject to revisions.**

*Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details visit the Foreign Trade Division web site at: [www.census.gov/trade](http://www.census.gov/trade). On the web site you can access product by country and country by product tables.*

*The next release is August 24, 2011.*

**Not Seasonally Adjusted**

**Exhibit 1. U.S. Imports For Consumption of Steel Products**

Quantity in metric tons/value in thousands of dollars. Details may not equal totals due to rounding.
