## Preliminary: U.S. Imports for Consumption of Steel Products May 2014

The U.S. Census Bureau announced today that preliminary May steel imports were **\$3.4 billion** (**3.6 million** metric tons) compared to the preliminary April totals of \$3.1 billion (3.4 million metric tons).

The May change in steel imports based on metric tonnage reflected increases primarily in oil country goods; blooms, billets, and slabs; and hot rolled sheets. Decreases occurred primarily in wire rods, cold rolled sheets, and reinforcing bars. Increases occurred primarily with Korea, United Kingdom, and Brazil. Decreases occurred primarily with China, Japan, and Russia.

The year to date final statistics through April 2014 showed steel imports of 12.2 million metric tons compared with 9.5 million metric tons through April 2013. The largest commodity increases occurred primarily in blooms, billets, and slabs; wire rods; and hot rolled sheets. Decreases occurred primarily in line pipe, standard pipe, and standard rails. The largest country increases occurred primarily with Russia, China, and Korea. Decreases occurred primarily with Italy, Australia, and Ukraine.

**Notes:**

**The data in this report are preliminary and subject to revisions.**

*Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit the Foreign Trade Division web site at [www.census.gov/trade](http://www.census.gov/trade). On the website, you can access product by country and country by product tables.*

*The next release is July 24, 2014.*

**Not Seasonally Adjusted**
