## Preliminary: U.S. Imports for Consumption of Steel Products June 2014

The U.S. Census Bureau announced today that preliminary June steel imports were **\$3.1 billion (3.3 million metric tons)** compared to the preliminary May totals of \$3.4 billion (3.6 million metric tons).

The June change in steel imports based on metric tonnage reflected decreases primarily in blooms, billets and slabs; oil country goods; and line pipe. Increases occurred primarily in cold rolled sheets; cut length plates; and hot rolled sheets. Decreases occurred primarily with Russia, United Kingdom and Korea. Increases occurred primarily with Mexico, Japan, and Turkey.

The year to date final statistics through May 2014 showed steel imports of 15.9 million metric tons compared with 12.0 million metric tons through May 2013. The largest commodity increases occurred primarily in blooms, billets and slabs; hot rolled sheets; and wire rods. Decreases occurred primarily in line pipe, standard rails, and hot rolled bars. The largest country increases occurred primarily with Russia, Korea, and China. Decreases occurred primarily with Italy, Ukraine, and Japan.

**Notes:**

**The data in this report are preliminary and subject to revisions.**

*Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit the Foreign Trade Division web site at [www.census.gov/trade](http://www.census.gov/trade). On the website, you can access product by country and country by product tables.*

*The next release is August 26, 2014.*

**Not Seasonally Adjusted**
