## Preliminary: U.S. Imports for Consumption of Steel Products July 2017

The U.S. Census Bureau announced today that preliminary July steel imports were \$2.7 billion (3.1 million metric tons) compared to the preliminary June totals of \$2.9 billion (3.5 million metric tons).

The July change in steel imports based on metric tonnage reflected decreases primarily in blooms, billets, and slabs. Increases occurred in oil country goods, standard pipe, and plates cut lengths. Decreases occurred primarily with Brazil. Increases occurred primarily with Russia, India, and Germany.

The year to date final statistics through June 2017 showed steel imports of 17.9 million metric tons compared with 14.2 million metric tons through June 2016. The largest commodity increases occurred primarily in blooms, billets and slabs. Decreases occurred primarily in hot rolled sheets, plates cut lengths, and black plate. The largest country increases occurred primarily with Russia. Decreases occurred primarily with France, Australia, and China.

**Notes:**

**The data in this report are preliminary and subject to revisions.**

*Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at [www.census.gov/trade](http://www.census.gov/trade). On the website, you can access product by country and country by product tables.*

*The next release is September 26, 2017.*

**Not Seasonally Adjusted**
