## Preliminary: U.S. Imports for Consumption of Steel Products August 2017

The U.S. Census Bureau announced today that preliminary August steel imports were \$2.5 billion (3.0 million metric tons) compared to the preliminary July totals of \$2.7 billion (3.1 million metric tons).

The August change in steel imports based on metric tonnage reflected decreases primarily in oil country goods, hot rolled sheets, and reinforcing bars. Increases occurred in blooms, billets, and slabs. Decreases occurred primarily with Turkey, Germany, and India. Increases occurred primarily with Brazil.

The year to date final statistics through July 2017 showed steel imports of 21.0 million metric tons compared with 17.2 million metric tons through July 2016. The largest commodity increases occurred primarily in blooms, billets and slabs. Decreases occurred primarily in hot rolled sheets, plates cut lengths, and reinforcing bars. The largest country increases occurred primarily with Russia. Decreases occurred primarily with Japan, Korea, and France.

### Notes:

**The data in this report are preliminary and subject to revisions.**

*Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at [www.census.gov/trade](http://www.census.gov/trade). On the website, you can access product by country and country by product tables.*

*The next release is October 25, 2017.*

**Not Seasonally Adjusted**
