## **Preliminary: U.S. Imports for Consumption of Steel Products September 2017**

The U.S. Census Bureau announced today that preliminary September steel imports were \$2.4 billion (2.8 million metric tons) compared to the preliminary August totals of \$2.5 billion (3.0 million metric tons).

The September change in steel imports based on metric tonnage reflected decreases primarily in blooms, billets, and slabs. Increases occurred in oil country goods, reinforcing bars, and line pipe. Decreases occurred primarily with Brazil. Increases occurred primarily with Germany, Mexico, and Japan.

The year to date final statistics through August 2017 showed steel imports of 24.1 million metric tons compared with 20.0 million metric tons through August 2016. The largest commodity increases occurred primarily in blooms, billets and slabs. Decreases occurred primarily in hot rolled sheets, plates cut lengths, and reinforcing bars. The largest country increases occurred primarily with Russia. Decreases occurred primarily with Japan, Korea, and France.

**Notes:**

**The data in this report are preliminary and subject to revisions.**

*Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at [www.census.gov/trade](http://www.census.gov/trade). On the website, you can access product by country and country by product tables.*

*The next release is November 27, 2017.*

**Not Seasonally Adjusted**

**Exhibit 1. U.S. Imports For Consumption of Steel Products**

Quantity in metric tons/value in thousands of dollars. Details may not equal totals due to rounding.
