

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, MAY 2018

Release Number: CB 18-98 FT-900A (18-05)

JUNE 25, 2018 — The U.S. Census Bureau announced today that preliminary May steel imports were \$2.7 billion (2.6 million metric tons) compared to the preliminary April totals of \$3.1 billion (3.4 million metric tons).

The May change in steel imports based on metric tonnage reflected decreases primarily in blooms, billets, and slabs. Increases occurred in wire rods, tin free steel, and steel piling. Decreases occurred primarily with Korea and Russia. Increases occurred primarily with Japan, Ukraine, and the Netherlands.

The year to date final statistics through April 2018 showed steel imports of 11.3 million metric tons compared with 11.2 million metric tons through April 2017. The largest commodity increases occurred primarily in hot rolled sheets and oil country goods. Decreases occurred primarily in reinforcing bars, wire rods, and cold rolled sheets. The largest country increases occurred primarily with Canada and Korea. Decreases occurred primarily with Turkey.

The June report is scheduled for release on July 25, 2018. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
