

FOR RELEASE AT 10:00 AM EDT, WEDNESDAY, JULY 25, 2018

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, JUNE 2018

Release Number: CB 18-112 FT-900A (18-06)

JULY 25, 2018 — The U.S. Census Bureau announced today that preliminary June steel imports were \$2.2 billion (2.2 million metric tons) compared to the preliminary May totals of \$2.7 billion (2.6 million metric tons).

The June change in steel imports based on metric tonnage reflected decreases primarily in reinforcing bars, oil country goods, and hot rolled sheets. Increases occurred in blooms, billets, and slabs; standard rails; and line pipe. Decreases occurred primarily with Canada. Increases occurred primarily with Russia, Korea, and Thailand.

The year to date final statistics through May 2018 showed steel imports of 13.9 million metric tons compared with 14.3 million metric tons through May 2017. The largest commodity decreases occurred primarily in blooms, billets, and slabs. Increases occurred primarily in hot rolled sheets and oil country goods. The largest country decreases occurred primarily with Turkey. Increases occurred primarily with Canada.

The June report is scheduled for release on July 25, 2018. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
