

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, April 2019

Release Number: CB 19-73 FT-900A (19-04)

May 23, 2019 — The U.S. Census Bureau announced today that preliminary April steel imports were \$2.5 billion (3.0 million metric tons) compared to the preliminary March totals of \$2.0 billion (2.0 million metric tons).

The April change in steel imports based on metric tonnage reflected increases primarily in blooms, billets, and slabs. Decreases occurred in reinforcing bars, sheets and strip, and line pipe. Increases occurred primarily with Brazil. Decreases occurred primarily with Russia, Spain, and Taiwan.

The year to date final statistics through March 2019 showed steel imports of 7.4 million metric tons compared with 7.9 million metric tons through March 2018. The largest commodity decreases occurred primarily in oil country goods, cold rolled sheets, and hot rolled sheets. Increases occurred primarily in line pipe and blooms, billets, and slabs. The largest country decreases occurred primarily with Canada and Korea. Increases occurred primarily with Brazil and Italy.

The May report is scheduled for release on June 25, 2019. View the full schedule at: www.census.gov/foreign-trade/reference/release_schedule.html The full text and tables for this release can be found at www.census.gov/foreign-trade/Press-Release/steel_index.html.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at www.census.gov/trade. On the website, you can access product by country and country by product tables.
