

FOR RELEASE AT 10:00 AM EDT, TUESDAY, JUNE 25, 2019

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, May 2019

Release Number: CB 19-91 FT-900A (19-05)

June 25, 2019 — The U.S. Census Bureau announced today that preliminary May steel imports were \$1.9 billion (1.9 million metric tons) compared to the preliminary April totals of \$2.5 billion (3.0 million metric tons).

The May change in steel imports based on metric tonnage reflected decreases primarily in blooms, billets, and slabs. Increases occurred in reinforcing bars, sheets and strip, and heavy structural shapes. Decreases occurred primarily with Brazil. Increases occurred primarily with Spain, Turkey and Korea.

The year to date final statistics through April 2019 showed steel imports of 10.4 million metric tons compared with 11.3 million metric tons through April 2018. The largest commodity decreases occurred primarily in oil country goods, hot rolled sheets, and cold rolled sheets. Increases occurred primarily in blooms, billets, and slabs. The largest country decreases occurred primarily with Canada and Russia. Increases occurred primarily with Brazil and Italy.

The June report is scheduled for release on July 24, 2019. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
