

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, February 2020

Release Number: CB 20-44 FT-900A (20-02)

March 24, 2020 — The U.S. Census Bureau announced today that preliminary February steel imports were \$1.3 billion (1.4 million metric tons) compared to the preliminary January totals of \$2.1 billion (2.8 million metric tons).

The February change in steel imports based on metric tonnage reflected decreases in blooms, billets, and slabs. Increases occurred in heavy structural shapes, tin plates, and hot rolled strips. Decreases occurred primarily with Brazil. Increases occurred primarily with Turkey, the Netherlands, and Germany.

The year to date final statistics through January 2020 showed steel imports of 2.8 million metric tons compared with 3.2 million metric tons through January 2019. The largest commodity decreases occurred primarily in oil country goods and line pipe. Increases occurred primarily in blooms, billets, and slabs. The largest country decreases occurred with Korea, Germany, and Italy. Increases occurred primarily with Brazil.

The March report is scheduled for release on April 23, 2020. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
