

FOR RELEASE AT 10:00 AM EST, WEDNESDAY, DECEMBER 23, 2020

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, November 2020

Release Number: CB 20-196 FT-900A (20-11)

December 23, 2020 — The U.S. Census Bureau announced today that preliminary November steel imports were \$1.1 billion (1.2 million metric tons) compared to the preliminary October totals of \$1.2 billion (1.4 million metric tons).

The November change in steel imports based on metric tonnage reflected decreases in blooms, billets, and slabs. Increases occurred in tin plates, wire rods, and standard pipe. Decreases occurred primarily with Brazil. Increases occurred primarily with Germany, Netherlands and Taiwan.

The year to date final statistics through October 2020 showed steel imports of 17.4 million metric tons compared with 22.5 million metric tons through October 2019. The largest commodity decrease occurred primarily in oil country goods. Increases occurred primarily in tin free steel, light shaped bars, and used rails. The largest country decreases occurred with Russia. Increases occurred primarily with Turkey, Australia, and Singapore.

The December report is scheduled for release on January 27, 2020. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
