

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, January 2021

Release Number: CB 21-29 FT-900A (21-01)

February 24, 2021 — The U.S. Census Bureau announced today that preliminary January steel imports were \$1.6 billion (2.2 million metric tons) compared to the preliminary December totals of \$1.3 billion (1.4 million metric tons).

The January change in steel imports based on metric tonnage reflected increases in blooms, billets, and slabs. Decreases occurred in tin plate, cold rolled sheets, and hot rolled sheets. Increases occurred primarily with Brazil. Decreases occurred primarily with Korea, Netherlands, and Germany.

The year to date final statistics through December 2020 showed steel imports of 20.0 million metric tons compared with 25.4 million metric tons through December 2019. The largest commodity decrease occurred primarily in oil country goods. Increases occurred primarily in tin free steel, light shaped bars, and tin plate. The largest country decreases occurred with Russia. Increases occurred primarily with Turkey, Australia, and Singapore.

The February report is scheduled for release on March 25, 2021. View the full schedule at: www.census.gov/foreign-trade/reference/release_schedule.html The full text and tables for this release can be found at www.census.gov/foreign-trade/Press-Release/steel_index.html.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at www.census.gov/trade. On the website, you can access product by country and country by product tables.
