

FOR RELEASE AT 10:00 AM EDT, MONDAY, JULY 26, 2021

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, June 2021

Release Number: CB 21-116 FT-900A (21-06)

July 26, 2021 — The U.S. Census Bureau announced today that preliminary June steel imports were \$2.8 billion (2.6 million metric tons) compared to the preliminary May totals of \$2.4 billion (2.3 million metric tons).

The June change in steel imports based on metric tonnage reflected increases in blooms, billets, and slabs. Decreases occurred in hot dipped galvanized sheets and strip; tin plate; and all other metal coated sheets and strip. Increases occurred primarily with Mexico. Decreases occurred primarily with Russia, China, and Sweden.

The year to date final statistics through May 2021 showed steel imports of 10.7 million metric tons compared with 10.0 million metric tons through May 2020. The largest commodity increase occurred primarily in hot rolled sheets. Decreases occurred primarily in oil country goods, cold rolled sheets, and standard pipe. The largest country increase occurred with Canada. Decreases occurred primarily with Brazil, Australia, and Spain.

The July report is scheduled for release on August 24, 2021. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
