

FOR RELEASE AT 10:00 AM EST, TUESDAY, DECEMBER 28, 2021

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, NOVEMBER 2021

Release Number: CB 21-205 FT-900A (21-11)

December 28, 2021 — The U.S. Census Bureau announced today that preliminary November steel imports were \$3.6 billion (2.8 million metric tons) compared to the preliminary October totals of \$3.2 billion (2.5 million metric tons).

The November change in steel imports based on metric tonnage reflected increases in blooms, billets, and slabs. Decreases occurred in hot rolled sheets, wire rods, and mechanical tubing. Increases occurred primarily with Russia. Decreases occurred primarily with Canada, Turkey, and Brazil.

The year to date final statistics through October 2021 showed steel imports of 24.1 million metric tons compared with 17.4 million metric tons through October 2020. The largest commodity increase occurred with blooms, billets, and slabs. Decreases occurred primarily in line pipe, used rails, and standard pipe. The largest country increase occurred with Canada. Decreases occurred primarily with Spain, Australia, and Czech Republic.

The December report is scheduled for release on January 27, 2022. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
