

FOR RELEASE AT 10:00 AM EST, THURSDAY, JANUARY 27, 2022

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, DECEMBER 2021

Release Number: CB 22-13 FT-900A (21-12)

January 27, 2022 — The U.S. Census Bureau announced today that preliminary December steel imports were \$3.8 billion (2.6 million metric tons) compared to the preliminary November totals of \$3.6 billion (2.8 million metric tons).

The December change in steel imports based on metric tonnage reflected decreases in hot rolled sheets. Increases occurred in blooms, billets and slabs; tin plate; and standard pipe. Decreases occurred primarily with Russia and Canada. Increases occurred primarily with Brazil, India, and China.

The year to date final statistics through November 2021 showed steel imports of 27.0 million metric tons compared with 18.7 million metric tons through November 2020. The largest commodity increase occurred with blooms, billets, and slabs. Decreases occurred primarily in line pipe, used rails, and standard pipe. The largest country increase occurred with Canada. Decreases occurred primarily with Australia, Spain, and Czech Republic.

The January report is scheduled for release on February 24, 2022. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
