

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, JANUARY 2022

Release Number: CB 22-30 FT-900A (22-01)

February 24, 2022 — The U.S. Census Bureau announced today that preliminary January steel imports were \$3.8 billion (2.8 million metric tons) compared to the preliminary December totals of \$3.8 billion (2.6 million metric tons).

The January change in steel imports based on metric tonnage reflected an increase in blooms, billets, and slabs. Decreases occurred in oil country goods, line pipe, and plates in coils. Increases occurred primarily with Brazil. Decreases occurred primarily with Korea, Sweden, and Turkey.

The year to date final statistics through December 2021 showed steel imports of 28.6 million metric tons compared with 20.0 million metric tons through December 2020. The largest commodity increase occurred with blooms, billets, and slabs. Decreases occurred primarily in line pipe, used rails, and railroad accessories. The largest country increases occurred with Canada. Decreases occurred primarily with Australia, Spain, and Czech Republic.

The February report is scheduled for release on March 23, 2022. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

Special Notice - With this release, there are corrections to 2021 Year to Date (YTD) totals. Based on additional availability of data, quantities have been improved in several categories from June through November 2021. These corrections impact YTD totals on the following exhibits: 2, 2a, 2b, 2c, 4, 4a, 4b, 4c, 5, and 6. All corrections to the Harmonized Tariff codes involved are available under our Statistical Notices and Corrections page at the following link <https://www.census.gov/foreign-trade/statistics/corrections/index.html>. These corrections will be incorporated into statistics and published with the annual revisions report scheduled for release on June 7, 2022.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
