

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, FEBRUARY 2022

Release Number: CB 22-49 FT-900A (22-02)

March 23, 2022 — The U.S. Census Bureau announced today that preliminary February steel imports were \$3.1 billion (2.1 million metric tons) compared to the preliminary January totals of \$3.8 billion (2.8 million metric tons).

The February change in steel imports based on metric tonnage reflected a decrease in blooms, billets, and slabs. Increases occurred in reinforcing bars, heavy structural shapes, and line pipe. Decreases occurred primarily with Brazil. Increases occurred primarily with Korea, Turkey, Italy.

The year to date final statistics through January 2022 showed steel imports of 2.8 million metric tons compared with 2.2 million metric tons through January 2021. The largest commodity increases occurred with galvanized hot dipped sheets and strip; hot rolled sheets; and cold rolled sheets. Decreases occurred primarily in blooms, billets, and slabs. The largest country increases occurred with Mexico, India, and Japan. Decreases occurred primarily with Brazil.

The March report is scheduled for release on April 25, 2022. View the full schedule at: www.census.gov/foreign-trade/reference/release_schedule.html The full text and tables for this release can be found at www.census.gov/foreign-trade/Press-Release/steel_index.html.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at www.census.gov/trade. On the website, you can access product by country and country by product tables.
