

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, MAY 2022

Release Number: CB 22-104 FT-900A (22-05)

June 24, 2022 — The U.S. Census Bureau announced today that preliminary May steel imports were \$3.8 billion (2.5 million metric tons) compared to the preliminary April totals of \$3.7 billion (2.5 million metric tons).

The May change in steel imports based on metric tonnage reflected an increase in reinforcing bars, standard pipe, and hot rolled sheets. Decreases occurred in blooms, billets, and slabs; galvanized hot dipped sheets and strip; and standard rails. Increases occurred primarily with Mexico, Turkey, and India. Decreases occurred primarily with Brazil, Russia, and China.

The year to date final statistics through April 2022 showed steel imports of 10.2 million metric tons compared with 8.4 million metric tons through April 2021. The largest commodity increases occurred with galvanized hot dipped sheets and cold rolled sheets. Decreases occurred primarily in blooms, billets, and slabs. The largest country increases occurred with Mexico and Taiwan. Decreases occurred primarily with Brazil, United Kingdom, and Canada.

The June report is scheduled for release on July 26, 2022. View the full schedule at: www.census.gov/foreign-trade/reference/release_schedule.html The full text and tables for this release can be found at www.census.gov/foreign-trade/Press-Release/steel_index.html.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at www.census.gov/trade. On the website, you can access product by country and country by product tables.
