

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, AUGUST 2022

Release Number: CB 22-160 FT-900A (22-08)

September 26, 2022 — The U.S. Census Bureau announced today that preliminary August steel imports were \$3.5 billion (2.3 million metric tons) compared to the preliminary July totals of \$3.9 billion (2.4 million metric tons).

The August change in steel imports based on metric tonnage reflected a decrease in wire rods. Increases occurred in hot dipped galvanized sheets and strip; blooms, billets, and slabs; and cold rolled sheets. Decreases occurred primarily with Korea. Increases occurred primarily with Canada, China, and Mexico.

The year to date final statistics through July 2022 showed steel imports of 17.7 million metric tons compared with 16.0 million metric tons through July 2021. The largest commodity increases occurred with oil country goods, wire rods, and cold rolled sheets. Decreases occurred primarily in blooms, billets, and slabs. The largest country increases occurred with Mexico and India. Decreases occurred primarily with Brazil.

The September report is scheduled for release on October 26, 2022. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
