

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, SEPTEMBER 2022

Release Number: CB 22-176 FT-900A (22-09)

October 26, 2022 — The U.S. Census Bureau announced today that preliminary September steel imports were \$3.1 billion (2.0 million metric tons) compared to the preliminary August totals of \$3.5 billion (2.3 million metric tons).

The September change in steel imports based on metric tonnage reflected a decrease in hot dipped galvanized sheets and strip. Increases occurred in line pipe and standard pipe. Decreases occurred primarily with Mexico. Increases occurred primarily with Korea, India, and Australia.

The year to date final statistics through August 2022 showed steel imports of 20.0 million metric tons compared with 18.4 million metric tons through August 2021. The largest commodity increases occurred with oil country goods, wire rods, and cold rolled sheets. Decreases occurred primarily in blooms, billets, and slabs. The largest country increases occurred with Mexico and India. Decreases occurred primarily with Brazil.

The October report is scheduled for release on November 28, 2022. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_index.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
