

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, DECEMBER 2022

Release Number: CB 23-12 FT-900A (22-12)

January 26, 2023 — The U.S. Census Bureau announced today that preliminary December steel imports were \$2.9 billion (2.0 million metric tons) compared to the preliminary November totals of \$2.8 billion (1.8 million metric tons).

The December change in steel imports based on metric tonnage reflected an increase in blooms, billets, and slabs. Decreases occurred in plates cut lengths, structural heavy shapes, and hot rolled sheets. Increases occurred primarily with Mexico. Decreases occurred primarily with Brazil, Ukraine, and Germany.

The year to date final statistics through November 2022 showed steel imports of 26.0 million metric tons compared with 26.0 million metric tons through November 2021. The largest commodity increases occurred with oil country goods, cold rolled sheets, and wire rods. Decreases occurred primarily in blooms, billets, and slabs. The largest country increases occurred with Mexico, India, and China. Decreases occurred primarily with Brazil.

The January report is scheduled for release on February 24, 2023. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
