

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, JANUARY 2023

Release Number: CB 23-27 FT-900A (23-01)

February 24, 2023 — The U.S. Census Bureau announced today that preliminary January steel imports were \$3.3 billion (2.4 million metric tons) compared to the preliminary December totals of \$2.9 billion (2.0 million metric tons).

The January change in steel imports based on metric tonnage reflected an increase in blooms, billets, and slabs. Decreases occurred in line pipe, plates in coils, and cold rolled sheets. Increases occurred primarily with Brazil. Decreases occurred primarily with Korea, India, and the Netherlands.

The year to date final statistics through December 2022 showed steel imports of 28.0 million metric tons compared with 28.6 million metric tons through December 2021. The largest commodity decreases occurred primarily in blooms, billets, and slabs. Increases occurred with oil country goods, cold rolled sheets, and wire rods. The largest country decreases occurred primarily with Brazil. Increases occurred with Mexico, India, and Italy.

The February report is scheduled for release on March 24, 2023. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicates the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
