

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, JULY 2023

Release Number: CB 23-136 FT-900A (23-07)

August 25, 2023 — The U.S. Census Bureau announced today that preliminary July steel imports were \$3.0 billion (2.2 million metric tons) compared to the preliminary June totals of \$3.2 billion (2.5 million metric tons).

The July change in steel imports based on metric tonnage reflected a decrease in blooms, billets, and slabs. Increases occurred in oil country goods, tin plate, and cold rolled sheets. The largest country decreases occurred primarily with Korea. Increases occurred primarily with Germany, Italy, and Japan.

The year to date final statistics through June 2023 showed steel imports of 13.6 million metric tons compared with 15.3 million metric tons through June 2022. The largest commodity decreases occurred primarily in hot dipped galvanized sheets and strip. Increases occurred with oil country goods and blooms, billets, and slabs. The largest country decreases occurred primarily with Mexico. Increases occurred with Brazil.

The August report is scheduled for release on September 26, 2023. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
