

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS, AUGUST 2023

Release Number: CB 23-160 FT-900A (23-08)

September 26, 2023 — The U.S. Census Bureau announced today that preliminary August steel imports were \$2.8 billion (2.1 million metric tons) compared to the preliminary July totals of \$3.0 billion (2.2 million metric tons).

The August change in steel imports based on metric tonnage reflected a decrease in blooms, billets, and slabs. Increases occurred in sheets and strip; hot rolled sheets; and wire rods. Decreases occurred primarily with Brazil. Increases occurred primarily with Korea and Mexico.

The year to date final statistics through July 2023 showed steel imports of 15.8 million metric tons compared with 17.7 million metric tons through July 2022. The largest commodity decreases occurred primarily in wire rods. Increases occurred with blooms, billets, and slabs and oil country goods. The largest country decreases occurred primarily with Mexico. Increases occurred with Brazil.

The September report is scheduled for release on October 26, 2023. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.html> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
