

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS NOVEMBER 2023

Release Number: CB 23-215 FT-900A (23-10)

December 28, 2023 — The U.S. Census Bureau announced today that preliminary November steel imports were \$2.2 billion (1.8 million metric tons) compared to the preliminary October totals of \$2.7 billion (2.0 million metric tons).

The November change in steel imports based on metric tonnage reflected a decrease oil country goods, plates cut lengths, and heavy structural shapes. Increases occurred in blooms, billets, and slabs. Decreases occurred primarily with Germany, Mexico, and Japan. Increases occurred primarily with Brazil.

The year-to-date final statistics through October 2023 showed steel imports of 21.8 million metric tons compared with 24.2 million metric tons through October 2022. The largest commodity decreases occurred primarily in hot dipped galvanized sheets and strip. Increases occurred with blooms, billets, and slabs and oil country goods. The largest country decreases occurred primarily with Mexico and Turkey. Increases occurred with Brazil and Thailand.

The December report is scheduled for release on January 25, 2024. View the full schedule at: <www.census.gov/foreign-trade/reference/release_schedule.htm> The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
