

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS DECEMBER 2023

Release Number: CB24-15 FT-900A (23-12)

January 25, 2024 — The U.S. Census Bureau announced today that preliminary December steel imports were \$2.3 billion (1.9 million metric tons) compared to the preliminary November totals of \$2.2 billion (1.8 million metric tons).

The December change in steel imports based on metric tonnage reflected an increase in hot rolled sheets, oil country goods, and plates in coils. Decreases occurred in blooms, billets, and slabs. Increases occurred primarily with South Korea, Germany, and Mexico. Decreases occurred primarily with Brazil.

The year-to-date final statistics through November 2023 showed steel imports of 23.7 million metric tons compared with 26.0 million metric tons through November 2022. The largest commodity decreases occurred primarily in cold rolled sheets and hot dipped galvanized sheets and strip. Increases occurred with blooms, billets, and slabs and cut lengths plates. The largest country decreases occurred primarily with Mexico and Turkey. Increases occurred with Brazil and Thailand.

The January report is scheduled for release on February 26, 2024. View the full schedule at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
